In the Bengali speaking regions of Bangladesh and India, the Bengali term *bede* today often evokes stereotypical imaginations of itinerant people. Of highly contested origin, the term has in the last two hundred years become the pivotal element for categorising and portraying diverse service nomads of the Bengal

region. Besides an analysis of their portrayal in ethnographic and Bengali fictional literature, this book traces causes, reasons, and processes that have led to an increasing perception of these so-called 'Bedes' as being ethnically different from the sedentary majority population.

The Bengali (Bangla) speaking people are located in the northeastern part of South Asia, particularly in Bangladesh and two states of India - West Bengal and Tripura. There are almost 246 million Bengalis at present, which makes them the fifth largest speech community in the world. Despite political and social divisions, they share a common literary and musical culture and several habits of daily existence which impart to them a distinct identity. The Bengalis are known for their political consciousness and cultural accomplishments. The Historical Dictionary of the Bengalis provides an overview of the Bengalis across the world from the earliest Chalcolithic cultures to the present. This is done through a chronology, an introductory essay, and an extensive bibliography. The dictionary section has over 750 cross-referenced dictionary entries on politicians, educators and entrepreneurs, leaders of religious and secular institutions, writers, painters, actors and other cultural figures, and more generally, on the economy, education, political parties, religions, women and minorities, literature, art and architecture, music, cinema and other major sectors. This book is an excellent access point for students, researchers, and anyone wanting to know more about the Bengalis.

Popular Cinema in Bengal marks a decisive turn in studies of Bengali language cinema by shifting the focus from auteur and text-based studies to exhaustive readings of the film industry. The book covers a wide range of themes and issues, including: generic tropes (like comedy and action); iconic figurations (of the detective and the city); (female) stars such as Kanan Bala, Sadhana Bose and Aparna Sen; intensities of public debates (subjects of high and low cultures, taste, viewership, gender and sexuality); print cultures (including posters, magazines and song-booklets); cinematic spaces; and trans-media and trans-cultural traffic. By locating cinema within the crosscurrents of geo-political transformations, the book highlights the new and

persuasive research that has materialised over the last decade. The authors raise pertinent questions regarding 'regional' cinema as a category, in relation to 'national' cinema models, and trace the non-linear journey of the popular via multiple (media) trajectories. They address subjects of physicality, sexuality and its representations, industrial change, spaces of consumption, and cinema's meandering directions through global circuits and low-end networks. Highlighting the ever-changing contours of cinema in Bengal in all its popular forms and proposing a new historiography, *Popular Cinema in Bengal* will be of great interest to scholars of film studies and South-Asian popular culture. The chapters were originally published in the journal *South Asian History and Culture*.
