OUP Oxford

This comprehensive and engaging text, developed in cooperation with the IB, follows the new curriculum for first assessment in 2022. With accessible, engaging lessons students will actively relate economics to real-world issues and the global economy. The international examples and case studies encourage students to analyse economics in terms of present-day challenges and concerns. Conceptual links are provided to help students understand the over-arching big questions that relate economics to the multi-faceted challenges of the world economy including how it works

and changes over time. Through inquiry-based tasks and links to TOK and ATL activities students will gain a deep understanding of economics. Practice activities will develop the skills required to succeed in the IB assessment including exam-style questions and data response questions. Clear explanations will help students achieve assessment success.

*Oxford IB Diploma Programme: Philosophy: Being Human Course Companion* OUP Oxford

Thought experiments are tools philosophers and scientists use to investigate how things are, without actually having to go out and experiment in the real world. This book presents forty-two philosophical thought experiments. Each thought experiment is illustrated by De Cruz (who is an illustrator as well as a philosopher), and is summarized in one or two paragraphs, which is followed by a brief exploration of its significance. Each thought experiment

also includes a longer (approximately 2-page) reflection, written by a philosopher who is a specialist in the field. De Cruz's unique illustrations serve as visual and accessible starting points for classroom discussions in Intro to Philosophy courses.

**Oxford IB Diploma Programme: Global Politics Course Companion** OUP Oxford
