Hey Black Child Anchor

NATIONAL BESTSELLER • In April 1992 a young man from a well-to-do family hitchhiked to Alaska and walked alone into the wilderness north of Mt. McKinley. Four months later, his decomposed body was found by a moose hunter. This is the unforgettable story of how Christopher Johnson McCandless came to die. "It may be nonfiction, but *Into the Wild* is a mystery of the highest order." —Entertainment Weekly McCandless had given \$25,000 in savings to charity, abandoned his car and most of his possessions, burned all the cash in his wallet, and invented a new life for himself. Not long after, he was dead. *Into the Wild* is the mesmerizing, heartbreaking tale of an enigmatic young man who

goes missing in the wild and whose story captured the world's attention. Immediately after graduating from college in 1991, McCandless had roamed through the West and Southwest on a vision quest like those made by his heroes Jack London and John Muir. In the Mojave Desert he abandoned his car, stripped it of its license plates, and burned all of his cash. He would give himself a new name, Alexander Supertramp, and, unencumbered by money and belongings, he would be free to wallow in the raw, unfiltered experiences that nature presented. Craving a blank spot on the map, McCandless simply threw the maps away. Leaving behind his desperate parents and sister, he vanished into the wild. Jon Krakauer constructs a clarifying prism through which he reassembles the disquieting facts of McCandless's short life. Admitting an interest that borders on obsession, he searches for the clues to the drives and desires that propelled McCandless. When McCandless's innocent mistakes turn out to be irreversible and fatal, he becomes the stuff of tabloid headlines and is dismissed for his naiveté, pretensions, and hubris. He is said to have had a death wish but wanting to die is a very different thing from being compelled to look over the edge. Krakauer brings McCandless's uncompromising pilgrimage out of the shadows, and the peril, adversity, and renunciation sought by this enigmatic young man are illuminated with a rare understanding—and not an ounce of sentimentality. *Into the Wild* is a tour de force. The power and luminosity of Jon Krakauer's stoytelling blaze through every page.

Based on a Navy SEAL's inspiring graduation speech, this #1 New York Times bestseller of powerful life lessons "should be read by every leader in America" (Wall Street Journal). If you want to change the world, start off by making your bed. On May 17, 2014, Admiral William H. McRaven addressed the graduating class of the University of Texas at Austin on their Commencement day. Taking inspiration from the university's slogan, "What starts here changes the world," he shared the ten principles he learned during Navy Seal training that helped him overcome challenges not only in his training and long Naval career, but also throughout his life; and he explained how anyone can use these basic lessons to change themselves-and the world-for the better. Admiral McRaven's original speech went viral with over 10 million views. Building on the core tenets laid out in his speech, McRaven now recounts tales from his own life and from those of people he encountered during his military service who dealt with hardship and made tough decisions with determination, compassion, honor, and courage. Told with great humility and optimism, this timeless book provides simple wisdom, practical advice, and words of encouragement that will inspire readers to achieve more, even in life's darkest moments. You Are Not Special Simon and Schuster

On June 12, 2005, Steve Jobs gave his first—and only—commencement address, to the 114th graduating class at Stanford University, an audience of approximately 23,000. They witnessed history: Jobs' 22-minute prepared speech subsequently reached 26 million online viewers worldwide. It is by far the most popular commencement address in history, framed with "three stories" that succinctly summed up the most important lessons Jobs learned in life. Life-changing lessons, he explained, can only be connected when looking back, which he had done in preparation for his talk. *Steve Jobs' Life by Design* starts with Jobs' own words in the text of his talk and expands outward from there. In the address, Jobs gave us the dots, but he didn't have the luxury of time to connect them. So much about his life, his viewpoint, and his personal and business philosophies were mentioned but not explained. We know what he said, but what

actually did he mean? What can we learn from him? This book connects those dots. We see Jobs' life and career through his own eyes, in context, and in proper perspective. His process of looking back illuminated his life—and by doing so, he serves as an inspiration to illuminate our lives as well.

A profound expansion of David McCullough, Jr.'s popular commencement speech—a call to arms against a prevailing, narrow, conception of success viewed by millions on YouTube—*You Are (Not) Special* is a love letter to students and parents as well as a guide to a truly fulfilling, happy life “Every once in a long while, a voice seems to come out of nowhere, and you wonder how you ever managed without [it]. David McCullough, Jr. has that startling, insightful, wry, reassuring, helpful voice and *You Are Not Special* may be the wisest ‘parenting’ book I’ve read in decades.”—Madeline Levine, author of *The Price of Privilege* and *Teach Your Children Well* Children today, says David McCullough—high school English teacher, father of four, and son and namesake of the famous historian—are being encouraged to sacrifice passionate engagement with life for specious notions of success. The intense pressure to excel discourages kids from taking chances, failing, and learning empathy and self-confidence from those failures. In *You Are (Not) Special*, McCullough elaborates on his now-famous speech exploring how, for what purpose, and for whose sake, we’re raising our kids. With wry, affectionate humor, McCullough takes on hovering parents, ineffectual schools, professional college prep, electronic distractions, club sports, and generally

the manifestations, and the applications and consequences of privilege. By acknowledging that the world is indifferent to them, McCullough takes pressure off of students to be extraordinary achievers and instead exhorts them to roll up their sleeves and do something useful with their advantages.

Parents Have the Power to Make Special Education Work John Wiley & Sons

This “beautifully written and reasoned” (Booklist) narrative by Pulitzer Prize-winning author Garry Wills examines what constitutes meaningful leadership, and why it is so essential to society. What makes a leader? How do we identify effective leadership, and how should—and shouldn’t—that power be used? In *Certain Trumpets*, Garry Wills presents portraits of eminent leaders including FDR to Ross Perot, King David, Martha Graham,

and many others, offering an illuminating lens for studying society and ourselves. Dividing these portraits into sixteen leadership categories ranging from military to charismatic, intellectual, rhetorical, and elected, Wills highlights what makes each of his subjects unique, crafting along the way a distinct and incisive definition of leadership as a reciprocal engagement between two contrasting wills that serves to mobilize us toward a common good, and explaining why leadership is so often a contentious and emotionally charged subject. “A stunningly literate and thoughtful examination of what makes a leader...[and] a welcome antidote to some of the more egregious ‘management style’ drivel,” (Kirkus Reviews), *Certain Trumpets* is an inspiring and edifying tour through the history of an indispensable social art.
