The Neighbors Penguin

An offbeat penguin shows his peers the power of individuality in this humorous tale from the author of Pookins Gets Her Way. Tacky is an odd bird. He likes to do splashy cannonballs and greet his companions with a loud "What's happening?" In fact, he's something of an eccentric, which wouldn't be a problem if all the other penguins weren't such...conformists. When intimidating visitors invade their peaceful, nice, icy land, it'll take a lot more than a bunch of perfect penguins to save the day. Thank

goodness Tacky's such an odd bird! "This book is must reading for any kid—or grown-up—who refuses to follow the pack."—Publishers Weekly

about information. Organizing is a fundamental issue in many professional fields, but these fields have only limited agreement in how they approach problems of organizing and in what they seek as their solutions. The Discipline of Organizing synthesizes insights from library science, information science, computer science, cognitive science, systems analysis, business, and other disciplines to create an Organizing System for understanding organizing. This framework is robust and forward-looking, enabling effective sharing of insights and design patterns between disciplines that weren't possible before. The Professional Edition includes new and revised content about the active resources of the "Internet of Things," and how the field of Information Architecture can be viewed as a subset of the discipline of organizing. Combining new approaches with a groundbreaking historical synthesis, this is the most thorough and up-to-date general history of French Indochina available in English. Unique in its wide-ranging attention to economic, social, intellectual, and cultural dimensions, it is the first book to treat Indochina's entire history, from its inception to Cochinchina in 1858 to its crumbling at Dien Bien Phu in 1954 and on to decolonization. The authors tell this story from a perspective that is neither Eurocentric nor nationalistic but that carefully considers the positions of both the colonizers and the colonized. With this approach, they are able to move beyond descriptive history into rich exploration of the ambiguities and complexities of the French colonial period in Indochina.-- Back cover

As a young girl climbs the seven stories to her own (very boring!) apartment, she imagines what's behind each of the doors she passes. Does the door with all the locks belong to a family of thieves? Might the doorway with muddy footprints conceal a pet tiger? Each spread reveals—in lush detail—the wilds of the girl's imagination, from a high-flying circus to an underwater world and everything in between. When the girl finally reaches her own apartment, she is greeted by her parents, who might have a secret even

wilder than anything she could have imagined!

Gus's Garage BRILL

Scientific Study from the year 2019 in the subject Didactics - English - Pedagogy,

Literature Studies, University of Yaoundé 1 (Faculty of Arts), language: English, abstract: This work, which describes the English of these francophone users, comprises an introduction, seven chapters grouped into two parts, and a conclusion. The introduction overviews the historical background of the country and its geographic and linguistic situations. Part One deals with the didactics of English in Cameroon; it comprises three chapters which take up in turn the languages in the education system of the country, the teaching of English in primary and secondary schools as well as tertiary level institutions. Part Two, which tackles the description of the English speech of francophone users, first outlines the research design. Then it takes up the sound system of francophone English, focusing on the realisations of consonants and vowels, and stress placement. Next it examines the vocabulary of this variety of English and finds that it is characterised by an excessive use of direct loan, calque, and false friends. This is followed by a

description of the morpho-syntactic features of the variety. The frequent features identified can be grouped under 12 major categories of items, i.e., verb tenses, articles, the plural form in noun phrases, pronouns, word order, subject-verb agreement, adverbs, prepositions, question formation, negation, verbs in embedded clauses, and serial verbs. Lastly, drawing from the findings outlined in these linguistic analyses, the researcher makes an appraisal of Cameroon's French-English official bilingualism policy. The various measures taken over the years by Government to promote official bilingualism are evaluated first. Then the consequences of the failure of this policy are considered. Finally a way forward is proposed: there is a need to adopt a new syllabus purposely designed to enhance bilingual competence among francophones in the country. Francophone English as Kouega notes, is a dialect of English that is developing in a number of Expanding Circles countries where French has hitherto been the sole or primary medium of instruction. In Cameroon,

francophone children learn English as a subject from primary school alongside other subjects like geography, which are taught in French. English is taught as a subject from the primary to the tertiary level of education. It is taught in all schools as part of the implementation of the country's French-English official bilingualism policy that was adopted in 1961 when French Cameroon and English Cameroon united to form a federal state.
