This book is intended to be used by upper elementary teachers and homeschoolers as a supplement to most US History textbooks for upper elementary grades. This book has been aligned to most Fifth Grade US History textbooks. Each Lesson in This Book is Divided into Two Parts: 1. The answered questions page. This page is designed to be used as a supplement to a teacher's lesson plan, organizing the material of each lesson into question and answer form. 2. The unanswered questions page. This page has the same questions but without answers. It is designed to supplement the student's worksheets. The material presented in the book can also be given to the student for self study after reading the material in his or her textbook. After studying, the student can answer the worksheet page as a form of formative assessment or practice. Types of Questions: 1. Sentence Completion Questions. These questions are designed for

definitions or short information questions. 2. Writing Questions. I believe that students should practice Writing as much as possible outside their usual Language Arts class. Therefore, I have included many Writing questions throughout the book that test the students' ability to analyze more difficult concepts or to express themselves in writing. Finally, History of The United States for Upper Elementary Students has been designed to offer a comprehensive overview of the history of the United States. The book was aligned to standards for Fifth grade History and Social Studies. About The Author Mrs. Barrage is a licensed teacher in New Jersey and a proud homeschool parent. She has been teaching children from grades K to 6 since 2002. A holder of a BA in English Literature with a focus on American and British History, Mrs. Barrage has taught at both American and British schools, but has found her true passion while homeschooling her two daughters in North Carolina.

History of the United States (Reproducible Study Guides for Online learning) comes with a series of worksheets that can be used in conjunction with online sources to guide students through significant events in American history, from the explorations of Christopher Columbus in 1492 to major historical events of the 21st Century. The guides provide a rich amount of information about the historical events, while also requiring students to use online resources to answer the specific questions, whether it be by watching the suggested videos or by using other sources of online information. Maps, photographs, and historical paintings are also provided on the guides to give students a visual depiction of events as they unfold. Students will learn how the United States became a nation of its own and expanded from the 13 original colonies to the 50 present-day states. Major wars involving the United States will be covered, as well as the formation of the United Nations, which strives to prevent wars from happening through peaceful resolutions. Certain questions even require students to make their own assessments of certain historical events, such as whether or not they feel the Iraq War was justified, and several essay suggestions are also included throughout the book. The final worksheet is used to familiarize students with some noteworthy inventors, both American and non-American. (Please see the table of contents for a complete list of topics included in this study guide.) For the benefit of teachers, an answer key has been provided at the back of the book. Although the Common Core and C3 Framework highlight literacy and inquiry as central goals for social studies, they do not offer guidelines, assessments, or curriculum resources. This practical guide presents six research-tested historical investigations along with all corresponding teaching materials and tools that have improved the historical thinking and argumentative writing of academically diverse students. Each investigation integrates

reading, analysis, planning, composing, and reflection into a writing process that results in an argumentative history essay. Primary sources have been modified to allow struggling readers access to the material. Web links to original unmodified primary sources are also provided, along with other sources to extend investigations. The authors include sample student essays from each investigation to illustrate the progress of two different learners and explain how to support students' development. Each chapter includes these helpful sections: Historical Background, Literacy Practices Students Will Learn, How to Teach This Investigation, How Might Students Respond?, Student Writing and Teacher Feedback, Lesson Plans and Materials. Book Features: Integrates literacy and inquiry with core U.S. history topics. Emphasizes argumentative writing, a key requirement of the Common Core. Offers explicit guidance for instruction with classroom-ready materials. Provides primary sources for differentiated instruction. Explains a curriculum appropriate for students who struggle with reading, as well as more advanced readers. Models how to transition over time from more explicit instruction to teacher coaching and greater student independence. "The tools this book provides—from graphic organizers, to lesson plans, to the accompanying documents—demystify the writing process and offer a sequenced path toward attaining proficiency." —From the Foreword by Sam Wineburg, co-author of *Reading Like a Historian* "Assuming

literate practice to be at the core of history learning and historical practice, the authors provide actual units of history instruction that can be immediately applied to classroom teaching. These units make visible how a cognitive apprenticeship approach enhances history and historical literacy learning and ensure a supported transition to teaching history in accordance with Common Core State Standards." —Elizabeth Moje, Arthur F. Thurnau Professor, School of Education, University of Michigan "The C3 Framework for Social Studies State Standards and the Common Core State Standards challenge students to investigate complex ideas, think critically, and apply knowledge in real world settings. This extraordinary book provides tried-and-true practical tools and step-by-step directions for social studies to meet these goals and prepare students for college, career, and civic life in the 21st century." —Michelle M. Herczog, president, National Council for the Social Studies
