Advancing equity in our

schools and society
requires deep thought
and honest conversations
about tough topics. These
conversations about
emotionally charged
subjects, including race,

class, and culture, can be daunting. Authors Brenda CampbellJones, Shannon Keeny, and Franklin CampbellJones, experts in research and equitable practices, guide you through a meaningful framework for thinking about, preparing for, and having such critical conversations. They invite you to ponder your own cultural identity and assumptions, reflect and deeply consider values and beliefs, and then understand how these factors affect your conversations and

interactions with others. They provide essential information about the types of conversations and behaviors we all consciously and subconsciously exhibit and witness, with authentic stories and experiences from people who have used the authors' framework to enrich their communities. As you explore the information and activities in this book that are specifically designed to help you scaffold new ideas into practice, you and your colleagues will

examine biases and begin to build equitable experiences for all students. The book's field-tested approach enables every educator to grow professionally by using the power of conversation to develop trust, ask powerful questions, really hear the answers--and learn together in ways that strengthen and invigorate the school and community.

Franklin Goes to School
Kids Can Press

Franklin wanders off while playing hide and seek with his friends.

Franklin's Spaceship Kids Can Press Ltd
A Best Book of 2021 by Bloomberg BusinessWeek, Time, and The Washington Post The bestselling author of Leonardo da Vinci and Steve Jobs returns with a “compelling” (The Washington Post) account of how Nobel Prize winner Jennifer Doudna and her colleagues launched a revolution that will allow us to cure diseases, fend off viruses, and have healthier babies. When Jennifer Doudna was in sixth grade, she came

home one day to find that her dad had left a paperback titled *The Double Helix* on her bed. She put it aside, thinking it was one of those detective tales she loved. When she read it on a rainy Saturday, she discovered she was right, in a way. As she sped through the pages, she became enthralled by the intense drama behind the competition to discover the code of life. Even though her high school counselor told her girls didn't become scientists, she decided she would.

Driven by a passion to understand how nature works and to turn discoveries into inventions, she would help to make what the book's author, James Watson, told her was the most important biological advance since his codiscovery of the structure of DNA. She and her collaborators turned a curiosity of nature into an invention that will transform the human race: an easy-to-use tool that can edit DNA. Known as CRISPR, it opened a brave new world of

medical miracles and moral questions. The development of CRISPR and the race to create vaccines for coronavirus will hasten our transition to the next great innovation revolution. The past half-century has been a digital age, based on the microchip, computer, and internet. Now we are entering a life-science revolution. Children who study digital coding will be joined by those who study genetic code. Should we use our new evolution-hacking powers to make us less

susceptible to viruses? What a wonderful boon that would be! And what about preventing depression? Hmm...Should we allow parents, if they can afford it, to enhance the height or muscles or IQ of their kids? After helping to discover CRISPR, Doudna became a leader in wrestling with these moral issues and, with her collaborator Emmanuelle Charpentier, won the Nobel Prize in 2020. Her story is an “enthraling detective story” (Oprah Daily) that involves the

most profound wonders of nature, from the origins of life to the future of our species.

Franklin Rides a Bike

Franklin Goes to School

Franklin finds a camera in the park, and uses its film to take pictures of his friends, but then he thinks he should try to find its owner.

Franklin Goes to School

Kids Can Press Ltd

Last spring, Pansy chickened out on going to spring break camp, even though she’d promised her best friend, Anna, she’d go. It was just like

when they went to get their hair cut for Locks of Love; only one of them walked out with a new hairstyle, and it wasn't Pansy. But Pansy never got the chance to make it up to Anna. While at camp, Anna contracted meningitis and a dangerously high fever, and she hasn't been the same since. Now all Pansy wants is her best friend back—not the silent girl in the wheelchair who has to go to a special school and who can't do all the things Pansy used to chicken out of doing. So when Pansy

discovers that Anna is getting a surgery that might cure her, Pansy realizes this is her chance—she'll become the friend she always should have been. She'll become the best friend Anna's ever had—even if it means taking risks, trying new things (like those scary roller skates), and running herself ragged in the process. Pansy's chasing extraordinary, hoping she reaches it in time for her friend's triumphant return. But what lies at the end of Pansy's journey

might not be exactly what she had expected—or wanted. *Extraordinary* is a heartfelt, occasionally funny, coming-of-age middle grade novel by debut author Miriam Spitzer Franklin. It's sure to appeal to fans of Cynthia Lord's *Rules* and will inspire young friends to cherish the times they spend together. Every day should be lived like it's extraordinary. Sky Pony Press, with our Good Books, Racehorse and Arcade imprints, is proud to publish a broad range of books for young

readers—picture books for small children, chapter books, books for middle grade readers, and novels for young adults. Our list includes bestsellers for children who love to play Minecraft; stories told with LEGO bricks; books that teach lessons about tolerance, patience, and the environment, and much more. While not every title we publish becomes a New York Times bestseller or a national bestseller, we are committed to books on subjects that are sometimes overlooked

and to authors whose work might not otherwise find a home.

Franklin Plays the Game
Follettbound

A delightful storybook in the series that inspired the Franklin and Friends TV show! In this Franklin Classic Storybook, our hero is a very lucky turtle. He has the best friends, the best little sister, the best goldfish, and, of course, the best mother. But when he discovers that his mother's birthday is coming up, he can't find the best present. After giving it some serious thought, Franklin decides to do everything for his mom. On the morning of

her birthday he takes her breakfast in bed, makes a brooch, draws a picture, and cuts fresh flowers from the garden! And then Franklin gives his mom a great big hug and says, "I love you"—which is, of course, the best gift of all.

Franklin Has a Sleepover Scholastic Inc. In order to match his friends' boasts, Franklin the turtle claims that he can swallow seventy-six flies in the blink of an eye, but then he has to prove it.
