It started on a summer afternoon in 1795 when a young man named Daniel McGinnis found what appeared to be an old site on an island off the Acadian coast, a coastline fabled for the skullduggery of pirates. The notorious Captain Kidd was rumored to have left part of his treasure somewhere along here, and as McGinnis and two friends started to dig, they found what turned out to be an

elaborately engineered shaft constructed of oak logs, nonindigenous coconut mats, and landfill that came to be known as the Money Pit. Ever since that summer day in 1795, the possibility of what might be hidden in the depths of a small island off the south coast of Nova Scotia, Canada, has made it the site of the world's longest, most expensive, and most perplexing treasure hunt. Author D'Arcy O'Connor recounts the fascinating stories and amazing discoveries of past and current treasure seekers who have sought Oak Island's fabled treasure for over two hundred years. It has baffled scientists and madmen, scholars and idiots, millionaires and get-rich-quick

schemers, psychics, engineers, charlatans, and even a former president of the United States. The island has consumed the fortunes-and in some cases, the lives-of those who have obsessively set out to unlock its secret. Despite all their efforts, the mystery remains unsolved, and not a single dime of treasure has ever been recovered. The present-day search is an archaeological dig exceeding anything ever done anywhere for similar purposes, and it may well result in the discovery of one of the world's richest and most historically significant treasures. But this is also the story of individuals who have dedicated years of their lives to discover what was

buried long ago beneath this strange island. They are driven by a lust for gold, by archaeological curiosity, and by their determination to outwit the engineer who was responsible for the Oak Island enigma.

Treasure in the Medieval West

Bloomsbury Publishing
W.C. Jameson was an active treasure hunter for more than fifty years. He has fallen from cliffs, had ropes break during climbs, been caught in mine shaft cave-ins, contended with flash floods, been shot at, watched men die, and had to deal with rattlesnakes, water moccasins, scorpions, and poisonous centipedes. He has fled for his life from park rangers, policemen,

landowners, competitors, corporate mercenaries, and drug runners. He has also discovered enough treasure to pay for his own house and finance his and his children's education. With his enigmatic treasure-hunter partners, Slade, Stanley, and Poet, Jameson's stories are worthy of an Indiana Jones film—except that they are all true.

This is the ultimate all-in-one guide for teaching writing, spelling, punctuation and grammar in the primary classroom. Providing practical advice on teaching grammar and writing techniques through the use of non-fiction texts, *Grammarsaurus* is closely aligned to the

National Curriculum and ensures teachers are addressing the right topics at the right time. Each chapter focuses on a non-fiction text type: instructions, explanations, non-chronological reports, diary entries, newspaper reports and persuasive texts. There are photocopiable model texts for each year group, along with annotated versions guiding teachers through language features, grammar, spelling and punctuation opportunities, saving hours of lesson planning. Mitch Hudson and Anna Richards, expert teachers and creators of the popular *Grammarsaurus* website, answer common questions from teachers: 'When

should I teach this punctuation mark?', or 'Which spellings should I be teaching my Year 3 class?'. With model texts covering a range of subject areas and up-to-date content using the latest curriculum framework, teachers can feel confident in tackling writing and SPaG across all the key areas of non-fiction. Please note that the PDF eBook version of this book cannot be printed or saved in any other format. It is intended for use on interactive whiteboards and projectors only.

The importance of being able to read for meaning should never be underestimated. The ability to decode text is not enough. It is vital that children understand what they are reading. More importantly, it is fundamental that they enjoy what they are reading, so that they grow up to become lifelong readers. The passages in the Brilliant Activities for Reading Comprehension series are designed to do just that. They provide children with a variety of engaging, enjoyable texts that will grab their attention, and indeed their teacher's attention as well. The types of comprehension passages range from newspaper articles and

dialogues, to plays, stories and poems. They gradually increase in difficulty as you progress through the book, and through the series, encouraging children to develop their ability to read for meaning and use a range of strategies to engage with the text. Tasks range from simple factual recall and vocabulary work to more open-ended questions enabling the reader to provide a more personal response. The cross-curricular activities provide a wealth of ideas for extending the passages further and are ideal for fast-finishers.
