approach to the

problems of translation

ensures that it will be

essential for all those who work with languages 'in contact'. Incorporating research in sociolinguistics, discourse studies, pragmatics and semiotics, the authors analyse the process and product of translation in their social contexts. Through this analysis, the book emphasises the importance of the translator as a mediator between cultures.

"This guide discusses the nature and development of

structuralism and semiotics, calling for a new critical awareness of the ways in which we communicate and drawing attention to their implications for our society. Published in 1977 as the first volume in the New Accents series, *Structuralism and Semiotics* made crucial debates in critical theory accessible to those with no prior knowledge of the field, thus enacting its own small revolution. Since then a generation of readers has used the book as an entry not only into structuralism and semiotics, but into the wide range of cultural and critical theories underpinned by these approaches." *"Structuralism and Semiotics remains the clearest introduction to some of the most*

important topics in modern critical theory. An afterword and fresh suggestions for further reading ensure that this new edition will become, like its predecessor, the essential starting point for anyone new to the field."--BOOK JACKET.

Swahili Language Handbook Oxford University Press, USA

This massive authoritative Swahili dictionary, is the most definitive and comprehensive in existence. It has taken a team of lexicographers and academics fourteen years to prepare, with the support of the Institute of Kiswahili Research in Dar es Salaam. The last comparable edition was in 1939, and was primarily intended to help the user to comprehend English texts. The dictionary records new words and meanings of words which the language has acquired since 1939; and provides lexicographical information needed by current dictionary users. There are more than 50,000 entries, with an attempt to give every English word an

equivalent in Swahili, or otherwise a phrase; and the vocabulary covers both general and specialized language. Guidance is provided on use and connotation, word formation and syntax, and derivatives and compounds of a headword are explicitly shown in each entry. The full information and arrangement given for each entry is: headword, homographs, wordclass, alternative spelling of a headword, cross-reference, gloss, definition, subject label, usage label, regional label, senses separated by numbers, illustrative examples, compounds, derivatives, and adjectival complementation. *Kamusi ya fasihi* East African Publishers

The foundations of literary criticism.  
Mwendawazimu na hadithi nyingine (pamoja na mwongozo wa kuhakiki hadithi fupi) Oxford University Press, USA

This book collects eighteen previously unpublished essays on the riddle--a genre of discourse found in virtually every human culture. Hasan-Rokem and Shulman have drawn these essays from a variety of cultural perspectives and disciplines; linguists, anthropologists, folklorists, and religion and literature scholars consider riddling practices in Hebrew, Finnish, Indian languages, Chinese, and classical Greek. The authors seek to understand the peculiar expressive

power of the riddle, and the cultural logic of its particular uses; they scrutinize the riddle's logical structure and linguistic strategies, as well as its affinity to neighboring genres such as enigmas, puzzles, oracular prophecy, proverbs, and dreams. In this way, they begin to answer how riddles relate to the conceptual structures of a particular culture, and how they come to represent a culture's cosmology or cognitive map of the world. More importantly, these essays reveal the human need for symbolic ordering--riddles being one such form of cultural ritual.

*Discourse and the Translator*

This book is a thorough revision of the highly successful text first published in 1994. The authors retain the multidisciplinary approach that presents research from linguistics, sociology, psychology, and education, in a format designed for use in an introductory course for undergraduate or graduate students. The research is updated throughout and there are new sections and chapters in this second edition as well. New chapters cover child language acquisition (first and second), Universal Grammar, and instructed language learning; new sections address issues, such as what data analysis doesn't

show, replication of research findings, interlanguage transfer (multilingual acquisition and transfer), the aspect hypothesis, general nativism, connectionist approaches, and implicit/explicit knowledge. Major updates include nonlanguage influences and the lexicon. The workbook, *Second Language Learning Data Analysis, Second Edition*, makes an ideal accompaniment to the text.

**Swahili Tales**

*Betrayal in the City*, first published in 1976 and 1977, was Kenya's national entry to the Second World Black and African Festival of Arts and Culture in Lagos, Nigeria. The play is an incisive, thought-provoking

examination of the problems of independence and freedom in post-colonial African states, where a sizeable number of people feel that their future is either blank or bleak. In the words of Mosese, one of the characters: "It was better while we waited. Now we have nothing to look forward to. We have killed our past and are busy killing our future."--

Death at the Well

The third volume in the four-volume commentary on the Book of Acts, this work presents a fresh look at the text of Codex Bezae and compares its message with that of the more familiar Alexandrian text of which Codex Vaticanus is taken as a representative. It deals with Acts 13.1-18.23, the chapters that cover the first two stages of the mission to the Gentiles, with the intervening meeting in Jerusalem (14.28-15.41). For each section, there is a side by side translation of the Bezan and Vaticanus manuscripts, followed by a full critical apparatus which deals with more technical matters, and

finally, a commentary which explores in detail the differences in the message of the two texts. Of particular interest in this part of Acts are the person of Paul and the unfolding of his character and theology. It is found that in the Bezan text Luke portrays him as a fallible disciple of Jesus who, despite his powerful enthusiasm, is hindered by his traditional Jewish understanding from fully carrying out the mission entrusted to him in these first stages. The conclusion is drawn that the portrait of an exemplary hero in the Alexandrian text is a later modification of the flawed picture.
