The history of regional  
sporting events in

20th- century Asia  
yields insights into  
Western and Asian  
perspectives on what  
defines modern Asia,  
and can be read as a  
staging of power  
relations in Asia and  
between Asia and the

West. The Far Eastern Championship Games began in 1913, and were succeeded after the Pacific War by the Asian Games. Missionary groups and colonial administrations viewed sporting success not only as a triumph of physical strength and endurance but also of moral education and social reform. Sporting competitions were to shape a "new Asian man" and later a "new Asian woman" by promoting internationalism, egalitarianism and economic progress, all serving to direct a "rising" Asia toward modernity. Over time, exactly what constituted a "rising" Asia underwent remarkable changes, ranging from the YMCA's promotion of

muscular Christianity, democratization, and the social gospel in the US-colonized Philippines to Iranian visions of recreating the Great Persian Empire. Based on a vast range of archival materials and spanning 60 years and 3 continents, *Pan-Asian Sports and the Emergence of Modern Asia* shows how pan-Asian sporting events helped shape anti-colonial sentiments, Asian nationalisms, and pan-Asian aspirations in places as diverse as Japan and Iran, and across the span of countries lying between them. Europe and the Asia-Pacific

Walter de Gruyter GmbH & Co KG

There is great interest in the Pacific Century and what its implications for the future will be. The rapid economic growth of East Asia was already setting the region apart from the rest of the world by the 1970s. By the 1980s the trend was seen to have spread southward to Thailand, Malaysia and Indonesia, while China's provinces had also become integral to the regional economic boom. In this exciting new study many of the ideas and expectations associated with the Pacific Century are placed under critical

scrutiny. The book includes studies of particular countries such as China, Japan, South Korea, Vietnam, Indonesia and Malaysia. There is analysis of economic and political trends in the region, the reasons behind its rise and its importance on a global scale. The rise of East Asia represents an historic turning point with immense significance world-wide. This book will be of interest to anyone concerned about the new approaches to and the debate about the rise of east Asia and the coming of the Pacific Century.

Pan-Asian Sports and the Emergence of Modern Asia, 1913-1974 Routledge

Europe and the Asia-Pacific is the most wide-ranging and

accessible book currently available on the increasingly important relationship between these two regions. Compiled by leading experts, it covers the historical background, contemporary political setting and the vitally important economic aspects of this relationship. Moving on to deal with security considerations and

policy decisions it provides valuable insights into the developing partnership between Europe and the Asia-Pacific. Rigorous and up-to-date, it is born out of the work of the Council for Asia-Europe cooperation (CAEC), a body of think tanks that supports the Asia-Europe Summit Meeting (ASEM) process.
