Botanical Illustration - the complete guide explains the processes and methods behind this beautiful art genre. It highlights the importance of the requisite skills of close observation, accurate drawing and attention to detail. Leigh Ann Gale is a leading botanical artist and tutor, and she generously demonstrates her approach in this book. Her worked example of fuchsia magellanica clearly shows the varied stages of an illustration. Along with step-by-step instructions to a range of subjects, this book is beautifully illustrated with over 350 images, diagrams and paintings of her and her students' work. This book is a source of inspiration as well as a definitive guide, and the contents include: introduction to botany and a comprehensive botanical glossary; a case study demonstrating each stage of a worked example, including the selection and preparation of a subject, observational drawings, composition skills and painting processes; step-by-step instruction covering many subjects, from creating shine on leaves and berries, to painting white flowers and depicting hairs on leaves and stems; a guide to colour theory and how to mix colours accurately to match your specimens and make the most of your watercolour palette; and ideas on how to continue, and develop your own style of botanical illustration. This book will be of great interest to all botanical artists, natural history artists, watercolourists, gardeners and natural historians and is lavishly illustrated with 391 colour images.

Step-by-Step Studio: Drawing Lifelike Subjects 50 Small Paintings

"In 1699, the German artist and entomologist Maria Sibylla Merian set sail for Suriname, in South America. There she would spend two years studying the animals and plants which she encountered, aiming to explore the life-cycle of insects (then only partially understood). Those studies led to the publication of the *Metamorphosis Insectorum Surinamensium* (the *Metamorphosis of the Insects of Suriname*), a luxury volume which brought the wonders of Suriname to Europe."--

The Colored Pencil Manual North Light Books

Botanical and scientific illustration share many common themes - the meticulous observation, the crucial composition, the precision of rendering and the accuracy of colour are all intrinsic to this niche genre of art. In this beautiful book, Sarah Jane Humphrey explains the techniques of the botanical artist but also introduces ideas for scientific illustration, so that the illustrator has a fuller understanding when rendering the natural world. Detailed instruction on all aspects of illustration is given, from application and materials to research and field trips. There is practical advice on using monochrome and colour theory to bring your illustration to life. Illustrated with over 200 of the author's exquisite illustrations, it is an invaluable companion for both beginners and experienced artists, as well as a source of inspiration and joy. Beautifully illustrated with 429 colour illustrations including 200 of the author's own illustrations.

Billy Showell is a well-respected contemporary artist whose

watercolour flower portraits have earned her the respect of watercolour artists all over the world. Worked to the same degree of accuracy as traditional botanical paintings, Billy's compositions are given a more contemporary twist, combining her unique eye for design with her love of flowers. In this book, 40 flower portraits are presented, arranged in alphabetical order, each one accompanied by small studies, details, step-by-step instructions and the colour mixes used to accomplish the finished work. At the start of the book there are useful sections on the materials and equipment needed and the main techniques used, including wet-into-wet, colour blending, lifting out, layering glazes, dry brushing

and colour mixing, and at the end of the book Billy gives her own unique slant on composition and discusses the importance of creating a sketchbook. Whether you love to paint, or simply love flowers, this book will delight and inspire you.
