### *Practical Piano Pedagogy* Alfred Music Publishing

Lesson Plans is the companion guide for Piano ABC's Level One. The purpose of this resource is two-fold: First, to support and guide young teachers working with beginning pianists; and next, to encourage and facilitate their use of the unique new method, Piano ABC's, a method for beginning pianists which has proven repeatedly to be very effective with beginners-children, teens and adults. It is intended that young teachers will develop

effective teaching habits building on the wealth of pedagogical experience garnered over an extensive teaching career of more than 30 years by the author. The presentation and teacher notes for the first lessons are very detailed and thorough so the first-time teacher or one with very limited experience can confidently guide their beginning students through the earliest lesson material. Assuming that students will proceed at individual rates of progress, after the third lesson plan there is a careful and pedagogically sound presentation of each concept and every piece so the teacher can knowledgeably determine and select appropriate material permitting each student to move forward at his own pace. As it has been made available, the author has received strongly supportive responses both from young teachers who have valued the step-by-step detail and from more mature, experienced teachers who have expressed their pleasure as it has enhanced their own teaching. Piano ABC's Level One is a new and unique approach for beginning pianists. The alphabetical approach of Piano ABC's is very easy and seemingly obvious. As with many relatively simple but effective solutions, it has awaited discovery for many years. Students often comment on how logical and easy it is to learn to read notes. Rhythm/meter studies include easily drawn graphic proportional symbols that students write under notes along with counting as they analyze and assimilate this information. The studies in counting are also supported as the student learns to conduct while the teacher plays and then plays while the teacher conducts. If you follow these Lesson Plans, as your students progress through Piano ABC's Level One they should become confident readers and will often anticipate how to read notes not yet presented. And, . .

they will not form the useless and obstructive (sometimes permanent) associations between eye, note, key, and finger that so often result from the plus-hundred-year-old "Middle C" approach. Rather they will learn to read notes according to their staff identity. Thus, students will not wonder "which finger to push" or "where to put their hands." The diverse styles of pieces as well as their creative titles will (with perhaps a little prompting) encourage students to develop their musical and aesthetic imaginations. Read what Megan has to say: " I absolutely adore the Piano ABCs curriculum. I love the piano, and I love teaching it, but the methods I was using before made it really hard for me as a beginning teacher to easily explain all the things I wanted my students to understand. Lesson Plans, just tells me what to do. I don't have to stress, because all the steps are clearly laid out for both my student and me. The book teaches me how to teach so I can concentrate on introducing the kids to the beautiful and mysterious world of music."

**Lesson Plans for Beginning Piano Teachers of Beginning Pianists** Guilford Press

The Teacher's Handbook serves as an aid in curriculum development and daily lesson planning. Suggested daily lesson plans, suggested assignments following each lesson plan, teaching tips for each unit, suggested examinations for the semester and answer keys for the written exercises and unit review worksheets. It also suggests ways to successfully integrate keyboard and computer technology into the curriculum. *New Lesson Assignment and Practice Record Book* Alfred Music (General Music). *Notespeller for Piano - Book 2* Alfred Music

(Faber Piano Adventures ). Written for ages 5 and 6, My First Piano Adventure captures the child's playful spirit. Fun-filled songs, rhythm games and technique activities develop beginning keyboard skills. Three distinguishing features of the Lesson Book A make it unique and effective for the young 5-6 year old

beginner. 1. A strong focus on technique embedded in the book through playful technique games, chants, and carefully-composed pieces that gently lead the child into pianistic motions. 2. An outstanding CD for the young student to listen, sing, tap, and play along with at the piano. The orchestrated songs on the CD feature children singing the lyrics, which has great appeal to the 5-6 year old beginner. The CD becomes a ready-made practice partner that guides the student and parent for all the pieces and activities in the books. 3. The fanciful art features five multi-cultural children who are also learning to play. These friends at the piano introduce basic rhythms, white key names, and a variety of white and black-key songs that span classical, folk, and blues. Young students will listen, sing, create, and play more musically with Nancy and Randall Faber's My First Piano Adventure, Lesson Book A. The Lesson Book introduces

directional pre-reading, elementary music theory and technique with engaging songs, games, and creative discovery at the keyboard. Young students will enjoy the multi-cultural "friends at the piano" who introduce white-key names, basic rhythms, and a variety of songs which span classical, folk, and blues. Ear-training and eye-training are also part of the curriculum. The Fabers' instructional theory "ACE" - Analysis, Creativity, and Expression, guides the pedagogy of My First Piano Adventure. Analysis leads to understanding, creativity leads to self-discovery, and expression develops personal artistry. The CD for this book offers a unique listening experience with outstanding orchestrations and vocals. The recordings demonstrate a key principle of the course: when children listen, sing, tap, and move to their piano music, they play more musically. [View Helpful Introductory Videos Here](#)
