The commedia dell'arte, the improvised Italian theatre that dominated the European stage from 1550 to 1750, is arguably the most famous theatre tradition to emerge from Europe in the early modern period. Its celebrated masks have come to symbolize theatre itself and have become part of the European cultural imagination. Over the past twenty years a revolution in commedia dell'arte scholarship has taken place, generated mainly by a number of distinguished Italian scholars. Their work, in which they have radically separated out the myth from the history of the phenomenon remains, however, largely untranslated into English (or any other language). The present volume gathers together these Italian and English-speaking scholars to synthesize for the first time this research for both specialist and non-specialist readers. The book is structured around key topics that span both the early modern period and

the twentieth-century reinvention of the commedia dell'arte.

Between the living and places, between gestures and landscapes; this book analyses, practices and affirms an architecture that is an encounter between bodies and territory. The five architectural forms gathered by Susana Velasco share the same quest: How can the action of building make the profound interdependence of everything that surrounds and shapes us visible? How do we overcome material disconnection with the world and commit ourselves as bodies that say and do? What are the intermediate

and habitable scales where life can take place in

company?0/0Entre lo vivo y los lugares, entre los gestos y los paisajes; en este libro se analiza, practica y se afirma una arquitectura que es encuentro entre los cuerpos y el territorio.

Las cinco formas arquitectónicas que Susana Velasco recoge comparten la misma búsqueda: ¿cómo la acción de construir puede hacer visible la profunda interdependencia de todo lo que nos rodea y conforma? ¿Cómo vencer la desconexión material con el mundo y comprometernos como cuerpos que dicen y hacen? ¿Cuáles son las escalas intermedias y habitables donde encuentra sentido una vida en compañía?00Exhibition: MUSAC, León, Spain (17.9.2017 - 14.1.2018).

Almost three centuries have passed since the oldest manuscript of "The Thousand and One Nights" arrived in Europe. Since then, the "Nights" have occupied the minds of scholars world-wide, in particular the questions of origin, composition, language and literary form. In this book, Muhsin Mahdi, whose critical edition of the text brought so much praise, explores the complex literary history of the "Nights," bringing to fruition the search for the archetype that constituted the core of the surviving editions, and

treating the fascinating story of the growth of the collection of stories that we now know as "The Thousand and One Nights," Carl Maria Von Weber, 1786-1826 Princeton University Press

This volume presents the proceedings of the international conference "Theatre Cultures within Globalising Empires: Looking at Early Modern England and Spain", held in 2012 as part of the ERC Advanced Grant Project Early Modern European Drama and the Cultural Net (DramaNet). Implementing the concept of culture as a virtual network, it investigates Early modern European drama and its global dissemination. The 12 articles of the volume - all written by experts in the field teaching in the United Kingdom, the USA, Russia, Switzerland, India and Germany - focus on a selection of English and Spanish dramas from the sixteenth and seventeenth centuries. Analysing and comparing motifs, formal parameters as well as plot structures, they discuss the commonalities and differences of Early modern drama in England and Spain.

Performance as Research (PAR) is characterised by an extraordinary elasticity and interdisciplinary drive. Performance as Research: Knowledge, Methods, Impact celebrates this energy, bringing together chapters from a wide range of disciplines and eight different countries. This volume focuses explicitly on three critical, often contentious themes that run through much discussion of PaR as a discipline: Knowledge - the areas and manners in which performance can generate knowledge Methods - methods and methodologies for approaching performance as research Impact - a broad understanding of the impact of this form of research These themes are framed by four essays from

the book's editors, contextualising their interrelated conversations, teasing out common threads, and exploring the new questions that the contributions pose to the field of performance. As both an intervention into and extension of current debates, this is a vital collection for any reader concerned with the value and legitimacy of performance as research.

In 1585, at the height of Jesuit missionary activity in Japan, which was begun by Francis Xavier in 1549, Luis Frois, a long-time missionary in Japan, drafted the earliest systematic comparison of Western and Japanese cultures. This book constitutes the first critical English-language edition of the 1585 work, the original of which was discovered in the Royal Academy of History in Madrid after the Second World War. The book provides a translation of the text, which is not a continuous narrative, but rather more than 600 distichs or brief couplets on subjects such as gender, child rearing, religion, medicine, eating, horses, writing, ships and seafaring, architecture, and music and drama. In addition, the book includes a substantive introduction and other editorial material to explain the background and also to make comparisons with present-day Japanese life. Overall, the book represents an important primary source for understanding a particularly challenging period of history and its connection to contemporary Europe and Japan.

This expanded second edition of *Contemporary European Theatre Directors* is an ambitious and unprecedented overview of many of the key directors working in European theatre over the past 30 years. This book is a vivid account of the vast range of work undertaken in European theatre during the last three decades, situated lucidly in its artistic, cultural, and political context. Each chapter discusses a particular director, showing the influences on their work, how it has developed over time, its reception, and the complex relation it has with its social and cultural context. The volume includes directors living and working in Italy, Germany, France, Spain, Poland, Russia, Romania, the UK, Belgium, Switzerland, and the Netherlands, offering a broad and international picture of the directing landscape. Now revised and updated, *Contemporary European Theatre Directors* is an ideal text for both undergraduate and postgraduate directing students, as well as those researching contemporary theatre practices, providing a detailed guide to the generation of directors whose careers were forged and tempered in the changing Europe following the end of the Cold War.

This book explores expertise relevant for two working groups of NeDiMAH, a European Science Foundation (ESF) funded Research Networking Programme. It examines mapping methods, procedures, tools, criticism, awareness, challenges and solutions around the concepts of "Space and Time" and "Information Visualization". The chapters explore digital methods in the representation of natural disasters, industrial design, cultural, and the history of architecture. The conclusions link to related research and present suggestions for further work including

representing landscape not just as another 3D model but as historic evolution with specialised tools.

The History of Italian Opera marks the first time a team of expert scholars has worked together to investigate the Italian operatic tradition in its entirety, rather than limiting its focus to individual eras or major composers and their masterworks. Including both musicologists and historians of other arts, the contributors approach opera not only as a distinctive musical genre but also as a form of extravagant theater and a complex social phenomenon-resulting in the sort of panoramic view critical to a deep and fruitful understanding of the art. *Opera on Stage*, the second book of this multi-volume work to be published in English-in an expanded and updated version-focuses on staging and viewing Italian opera, from the court spectacles of the late sixteenth century to modern-day commercial productions. Mercedes Viale Ferrero describes the history of theater and stage design, detailing the evolution of the art well into the twentieth century. Gerardo Guccini does the same for stage and opera direction and the development of the director's role as an autonomous creative force. Kathleen Kuzmick Hansell discusses the interrelationships between theatrical ballet and Italian opera, from the age of Venetian opera to the early twentieth century. The visual emphasis of all three contributions is supplemented by over one hundred illustrations, and because much of this material-on the more "spectacular" visual aspects of Italian opera-has never before appeared in English, *Opera on Stage* will be welcomed by scholars and opera enthusiasts alike.

Movement & Metaphor Yale University Press

Ballet is a paradox: much loved but little studied. It is a beautiful fairy tale; detached from its origins and unrelated to the men and women who created it. Yet ballet has a history, little known and rarely presented. These great works have dark sides and moral ambiguities, not always nor immediately visible. The daring and challenging quality of ballet as well as its perceived 'safe' nature is not only one of its fascinations but one of the intriguing questions to be explored in this Companion. The essays reveal the conception, intent and underlying meaning of ballets and recreate the historical reality in which they emerged. The reader will find new and unexpected aspects of ballet, its history and its aesthetics, the evolution of plot and narrative, new insights into the reality of training, the choice of costume and the

transformation of an old art in a modern world.
