*A French Grammar: Based on Philological Principles* Rodopi

2000 Catholic Press Association Award Winner! The Lectionary is made up of selected passages from the Bible, placed within a literary and liturgical context. This new context calls for a consideration of the liturgical character and setting of the Lectionary readings. *Preaching the New Lectionary: Year B*, offers readers that interpretation. *Preaching the New Lectionary* is unique. First, it employs a literary-liturgical way of interpreting all the readings of each Sunday and major feast of the liturgical year, including the often overlooked responsorial psalm. Second, it explicitly situates the interpretation of each day within the theology of its respective liturgical season. This theology is drawn from the specific themes of the readings that comprise that particular year rather than from more general themes associated with the season. The

meaning of the entire season becomes the context for understanding the individual parts of it. Third, the lections are also read in sequential order from the first Sunday of that season to the last. This reading interprets the function of the literary forms, thus providing yet another way of interpreting the riches of the readings. This way of reading and understanding the Lectionary has potential for liturgical ministry. It can quicken the religious imagination of homilists, thus providing fresh new possibilities for liturgical preaching. It offers creative insights for those involved in the liturgical preparation for the celebration of feasts and seasons. It can also act as a valuable resource for liturgical catechesis. The insights included in *Preaching the New Lectionary* contribute toward enhancing the liturgical lives of the faithful. *Procedural Meaning: Problems and Perspectives* Crenguta Bulilete  
This collection of papers focuses on the literary art of early Christian poetry in Syriac, Greek and Latin. It discusses both the techniques of this art and its

theoretical foundation in the Christian use of classical literary traditions.

Verbal Aspect in Discourse Walter de Gruyter GmbH & Co KG

The seventh and final book of the monumental Rāmāyaṇa of Vālmīki, the Uttarakāṇḍa, brings the epic saga to a close with an account of the dramatic events of King Rāma's millennia-long reign. It opens with a colorful history of the demonic race of the rākṣasas and the violent career of Rāma's villainous foe Rāvaṇa, and later recounts Rāma's grateful discharge of his allies in the great war at Lankā as well as his romantic reunion with his wife Sītā. But dark clouds gather as Rāma makes the agonizing decision to banish his beloved wife, now pregnant. As Rāma continues as king, marvelous tales and events unfurl, illustrating the benefits of righteous rule and the perils that await monarchs who fail to address the needs of their subjects. The Uttarakāṇḍa has long served as a point of social and religious controversy largely for its accounts of the banishment of Sītā, as well as of Rāma's killing of a low-caste ascetic. This seventh volume in the critical edition and translation of the Vālmīki Rāmāyaṇa includes an extensive introduction and describes the complex reception history of the Uttarakāṇḍa, as well as exhaustive notes and a comprehensive bibliography.

Charles S. Peirce (1839–1914) is widely recognized as America's greatest philosopher, the originator of pragmatism, and one of the founders of modern mathematical logic. He was also a pioneer in the field of "semiotics," the general theory of signs, and many have regarded him as the father of the contemporary form of the discipline. The volume is a specialized selection of unpublished writings spanning almost twenty years (1894–1913) that are essential to understand Peirce's views about signs, their classification, and the relations between semiotics and logical inquiry. It comprises twenty-two selections, a historico-critical introduction, and an apparatus of editorial annotations. The selections are prepared following the methods of scholarly editing of philosophical texts. The book will be of interest to graduate students and researchers working in areas such as Peirce studies, the history of American philosophy and pragmatism, logic and history of logic, the history of analytic philosophy, philosophy of language, semiotics, and language sciences.

In the light of growing insights into the universal temporal-semantic nature of aspectual distinctions, today's aspectology has broadened its attention from restrictedly event-defining functions of aspect on the sentence level towards its primary perspectival functions on the discourse/situation level. Hereby it attempts to relate these functions to each other in ways that stimulate consistently language processing on a more solid perceptual-conceptual and pragmatic basis. Reflecting in various ways this general tendency. The 13 papers collected in this volume are oriented to four fields of research: (1) Developmental properties of aspect and tense; (2) Ideo-pragmatic and conceptual-semantic correlates of aspect and the perspectival organisation of discourse; (3) Aspect, case and discourse; (4) and Aspect in literary discourse. The editor's Introduction gives a comprehensive survey of contemporary aspectology and its development towards a proper integration of discourse/situation

conditions. Besides cross-linguistic considerations (including English), the languages analyzed specifically are Russian, Bulgarian, Lithuanian, French and Finnish.

Je suis en CP John Benjamins Publishing Cavafy's Historical Poems is the first volume of a four-book set constituting a study of the life and opus of this fascinating poet. The second volume is

an anecdotal life detailing Cavafy's home and its atmosphere: the man, the poet, and his lifestyle; the odes of his compatriot partisans; the praises of his foreign admirers; the barbs and insults of his critics and revilers; the poet as a critical ironist; and the last part of his life. More than one hundred commentators are quoted, and just as many of his poems are used where it seemed appropriate. A third volume consists of erratic commentaries containing the authors evaluation and criticism of the main contributions to Cavafy's poetry. That is these of George Seferis, Sir Maurice Bowra, Robert Liddel, Edmund Keeley, Grigorios Xenopoulos, Timos Malanos, Stratis Tsirkas, John Sareyiannis, and others. These follow an opening chapter on Hellenization and a second chapter on the controversial subject of the dates of composition of Cavafy's poems. The fourth volume, *The Canon*, is a verse translation of the 150 poems Cavafy accepted as his mature opus, including the original Greek verses, accompanied by detailed examination of the poets craft and style. That is to say the meter, length of verse, wedging, rhyme, enjambment, titles, organization, punctuation, the absences, lyricism, periphrasis, description, narrative, suggestive image, abstractions, transmission, maturity, content, language, irony, intellectuality, etc.

The Dutch, German and French languages display a variety of regularly

used connectives all of which introduce causes, arguments or reasons, such as Dutch omdat, want and aangezien, German weil, denn and da, and French parce que, car and puisque. Why should languages have different connectives to express the notion of backward causality? The central argument in this book is that different connectives express different degrees of subjectivity.
