The Team Leader's Navigation Kit Hay House, Inc Why is it so hard to make lasting changes in our companies, in our communities, and in our own lives? The primary obstacle is a conflict that's built into our brains, say Chip and Dan Heath, authors of the critically acclaimed bestseller *Made to Stick*. Psychologists

have discovered that our minds are ruled by two different systems - the rational mind and the emotional mind—that compete for control. The rational mind wants a great beach body; the emotional mind wants that Oreo cookie. The rational mind wants to change something at work; the emotional mind loves the comfort of the existing routine. This tension can doom a change effort - but if it is overcome, change can come quickly. In *Switch*, the Heaths show how everyday people - employees and managers, parents and nurses - have united both minds and, as a result, achieved dramatic results: • The lowly medical interns who managed to defeat an entrenched, decades-old medical practice that was endangering patients • The home-organizing guru who developed a simple technique for overcoming the dread of housekeeping • The manager who transformed a lackadaisical customer-support team into service zealots by removing a standard tool of customer service In a compelling, story-driven narrative, the Heaths bring together decades of counterintuitive research

in psychology, sociology, and other fields to shed new light on how we can effect transformative change. Switch shows that successful changes follow a pattern, a pattern you can use to make the changes that matter to you, whether your interest is in changing the world or changing your waistline.

'Game-changing. Katy Milkman shows in this book that we can all be a super human' Angela Duckworth, bestselling author of Grit How to Change is a powerful, groundbreaking blueprint to help you - and anyone you manage, teach or coach - to achieve personal and professional goals, from the master of human nature and behaviour change and Choiceology podcast host Professor Katy Milkman. Award-winning Wharton Professor Katy Milkman has devoted her career to the study of behaviour change. An engineer by training, she approaches all challenges as problems to be solved and, with this mind-set, has drilled into the roadblocks that prevent us from achieving our goals and breaking unwanted behaviours. The key to lasting change, she argues, is not to set ever more audacious goals or to foster good habits but to get your strategy right. In *How to Change* Milkman identifies seven human impulses, or 'problems', that commonly sabotage our attempts to make positive personal and professional change. Then, crucially, instead of getting you to do battle with these

impulses she shows you how to harness them and use these as driving forces to help instil new, positive behaviours - better, faster and more efficiently than you could imagine. Drawing her own original research, countless engaging case studies and practical tools throughout to help you put her ideas into action, Milkman reveals a proven, inspiring path that can take you - once and for all - from where you are today to where you want to be.

The acclaimed author "richly articulates how the insights of modern science . . . can usher in a new era of human and planetary health" (Systems Thinker). For years, Margaret Wheatley has written eloquently about humanizing our organizations and helping people to work together more effectively and compassionately. She has shown how breakthroughs in chaos theory and quantum physics can enable organizations to function more like responsive, self-organizing living systems, rather than cold mechanisms of control. And she has gradually expanded these ideas into

the wider arena of human society. In short, Margaret Wheatley is one of the most innovative and influential organizational thinkers of our time, and *Finding Our Way* brings together her shorter writings for the first time, touching on all the topics she has addressed throughout her career, showing how she has applied the ideas in her books in many different situations. "However," she writes, "this is not a collection of articles. I updated, revised, or substantially added to the original content of each one. In this way, everything written here represents my current views on the subjects I write about." Provocative, challenging, at times poetic, and often deeply moving, *Finding Our Way* sums up Wheatley's thinking on a diverse scope of topics from leadership and management to education and raising children in turbulent times; from societal commentary to specific organizational techniques and more. "Wheatley provocatively lays out how managers must operate to be effective in a system that is 'alive' . . . *Finding Our Way* challenges us to see the enterprises we lead in

new light." —Leader's Beacon

 'We need effective citizen-lobbyists – not just likers, followers or even marchers – more than ever. I have no hesitation in lobbying you to read this book.' Bill Emmott, former editor in chief, the Economist Many democratic societies are experiencing a crisis of faith. Citizens are making clear their frustration with their supposedly representative governments, which instead seem driven by the interests of big business, powerful individuals and wealthy lobby groups. What can we do about it? How do we fix democracy and get our voices heard? The answer, argues Alberto Alemanno, is to become change-makers – citizen lobbyists. By using our skills and talents and mobilizing others, we can bring about social and political change. Whoever you are, you've got power, and this book will show you how to unleash it. From successfully challenging Facebook's use of private data to abolishing EU mobile phone roaming charges, Alberto highlights the stories of those who have

lobbied for change, and shows how you can follow in their footsteps, whether you want to influence immigration policy, put pressure on big business or protect your local community.

Anderson gives women practical advice and inspiration for building creative, independent, and fulfilling lives through discovering who they truly are and who they can be. Like Julia Cameron's *The Artist's Way*, Joan Anderson's bestselling *A Year by the Sea* revealed a far larger than expected constituency, in the form of thousands of women struggling to realize their full potential. After years of focusing on the needs of others as a wife and mother, Anderson devoted a year to rediscovering herself and reinvigorating her dreams. The questions she asked herself and the insights she gained became the core of the popular weekend workshops Anderson developed to help women figure out how—after being all things to all people—they can finally become what they need to be for themselves. *A Weekend to Change Your Life* brings Anderson's techniques to women everywhere, providing a step-by-step path readers can follow at their own pace. Drawing on her own life and on the experiences of the women she meets at her workshops, Anderson shows women how to

move beyond the roles they play in relationship to others and reclaim their individuality. Through illustrations and gentle instruction, she illuminates the rewards of nurturing long-neglected talents, revitalizing plans sacrificed to the demands of family life, and redefining oneself by embracing new possibilities. *Wake Up, Sister. It's Your Turn* A full life requires cultivation. The minute we take our hands off the plow, fail to reseed, forget to fertilize, we've lost our crop. And yet, most women I know, while in the service of some greater good have let their very lives wilt on the vine. Having been taught the fine art of accommodation, most of us have developed a knack for selfless behavior. We've dulled our personal lives while propping up everyone else's, and we're no longer able even to imagine having any sort of adventure, romance, meaning, or purpose for ourselves. In short, we've gotten way off track and taken the wrong road to self-satisfaction, foolishly thinking that after all of the doing, giving, trying, and overworking someone will offer us a reward. But Prince Charming was a

bad joke and all the fairy godmothers are dead. Instead of happy ever after, most of us end up with the ache. We wake up each day with an inner gnawing, a hunger for more, a craving for an overhaul, but we are too listless, tired, or depressed to do anything about it. We have spent the greater part of our lives pouring ourselves out like a pitcher. No wonder we feel so empty. But we lack the necessary energy, a helpful roadmap, and any type of guidance and support. Well, it's time to change all of that. —From *A Weekend to Change Your Life Choices That Change Lives* Paul McKenna *Overbooking? Running late? Feeling overwhelmed by clutter and to-dos?* Management consultant Dr. Marilyn Paul guides you on a path to personal change that will bring true relief from the pain and stress of disorganization. Unlike other books on getting organized, *It's Hard to Make a Difference When You Can't Find Your Keys* offers a clear seven-step path to personal development that is comprehensive in nature. Drawing on her own experience as a

chronically disorganized person, Paul adds warmth, insight, humor, and hope to this manual for change and self-discovery. She introduces the notion of becoming "organized enough" to live a far more rewarding life and make the difference that is most important to you. *Finding Your Way Home* Conari Press *Start With Why* has led millions of readers to rethink everything they do – in their personal lives, their careers and their organizations. Now *Find Your Why* picks up where *Start With Why* left off. It shows you how to apply Simon Sinek's powerful insights so that you can find more inspiration at work -- and in turn inspire those around you. I believe fulfillment is a right and not a privilege. We are all entitled to wake up in the morning inspired to go to work, feel safe when we're there and return home fulfilled at the end of the day. Achieving that fulfillment starts with understanding exactly WHY we do what we do. As *Start With Why* has spread around the world, countless readers have asked me the same question: How can I apply *Start With Why* to my

career, team, company or nonprofit? Along with two of my colleagues, Peter Docker and David Mead, I created this hands-on, step-by-step guide to help you find your WHY. With detailed exercises, illustrations, and action steps for every stage of the process, Find Your Why can help you address many important concerns, including: * What if my WHY sounds just like my competitor's? * Can I have more than one WHY? * If my work doesn't match my WHY, what should I do? * What if my team can't agree on our WHY? Whether you've just started your first job, are leading a team, or are CEO of your own company, the exercises in this book will help guide you on a path to long-term success and fulfillment, for both you and your colleagues. Thank you for joining us as we work together to build a world in which more people start with WHY. Inspire on! -- Simon
