"Health is natural; sickness is unnatural: at least so it seems to man," is how Stefan Zweig begins his fascinating, often entertaining examinations of Franz Anton Mesmer, Mary Baker Eddy, and Sigmund Freud. "Bodily suffering is not assuaged by technical manipulation but through an act of faith." *Mental Healers* is dedicated to Albert Einstein, the scientist who had won the Nobel Prize for Physics in 1921. It first appeared in 1931 as *Die Heilung durch den Geist*, or *Healing Through the Spirit*, a title that anticipates our current interest in alternative medicine and the placebo effect. Zweig's first healer, Franz Anton Mesmer (1734-1815), was a German physician who introduced "animal magnetism" to the world. Viewed by many as a charlatan, he died an outcast before he could properly understand and explain his discovery. Zweig's second healer, Mary Baker Eddy (1821-1910), was a New England matron who found her vocation only in middle age. She established Christian Science, an American Protestant system of religious practice that rejects medical intervention, when she was almost 60. Zweig's third healer, Sigmund Freud (1856-1939), was the Viennese Jewish physician who founded psychoanalysis. Zweig, who knew Freud and delivered a eulogy at his funeral, describes Freud's then-new ideas with the insight of an artist who lived in the same time and place. Fluently written and psychologically astute, *Mental Healers* is compelling cultural history and a valuable window onto the genesis of new ideas in healing. "Mesmer, Eddy and Freud were critical figures alerting the modern world to the influences of the mental and emotional on health and illness. Their impact was tremendous and Zweig's

classic study provides a wonderful opportunity to engage with these significant innovators." — Ted Kaptchuk, Professor of Medicine, Harvard Medical School, Director, Program in Placebo Studies & Therapeutic Encounter *Political Friendship* BoD – Books on Demand

In Search of Marie-Antoinette in the 1930s follows Austrian biographer Stefan Zweig, American producer Irving Thalberg, and Canadian-American actress Norma Shearer as they attempt to uncover personal aspects of Marie-Antoinette's life at the French court in the late eighteenth-century and to dramatize them in biography, cinema, and performance for public consumption during the 1930s. The first chapter establishes the core subject as an inquiry into the respective contributions of Zweig, Thalberg, and Shearer in formulating an "objective" or "authentic" image of "Marie-Antoinette." The three chapters that follow examine in some detail how Zweig pursued research and drafted the psychological biography at his Salzburg home, Thalberg acquired film rights to the best-selling book and fought the censors to preserve the more sensational aspects of the screenplay at the Culver City studio, and Shearer worked closely with a new producer to give the script a strong romantic angle and to perform the character of the queen on the sound stage. The professionals' research standards and strategic objectives are weighed in the formulation of a new myth at once sensitive to the historical record and suited to the leisure market.

Stefan Zweig zeichnet in einem seiner bekanntesten Werke ein unvergleichliches Leben nach: das Joseph Fouchés, der es vom armen Priesterschüler bis zum späteren Herzog von Otranto bringt, einem der reichsten Menschen Frankreichs; eines Mannes, der es versteht, nach der Macht zu greifen und sie festzuhalten, dabei stets handelnd als gnadenloser Opportunist, der keine Loyalität kennt - außer der zu sich selbst, sowohl in den blutigsten Tagen der Französischen Revolution als gefürchteter Jakobiner und "Mitrailleur de Lyon", der zehntausende Menschen erschießen lässt,

wie bald darauf als tödlicher Gegner Robespierres und später dann höchst reaktionärer Polizeiminister Napoleon Bonapartes; und selbst nach dessen Sturz ist eine der erstaunlichsten Karrieren der Weltgeschichte noch längst nicht zu Ende...

Married to Stefan Zweig Plunkett Lake Press

Stefan Zweig's *Amerigo: A Comedy of Errors in History* is the Austrian writer's account of how America got its name. This short, late work describes how Amerigo Vespucci, "a man of medium caliber [who] had never been entrusted with a fleet" gave his name to the New World because "of a combination of circumstances — through error, accident, and misunderstanding." Zweig was living in exile in Brazil when he wrote *Amerigo*, shortly before committing suicide in despair over Hitler's conquest of Europe. "The paradox that Columbus discovered America but failed to recognize it, while Vespucci did not discover it but was the first to recognize it as a new continent," he wrote, illustrates how "history will not be reasoned with."

Joseph Fouché: Portrait of a Politician Plunkett Lake Press

How did Austrian writers grapple with their country's problematic twentieth-century history? Nine scholars investigate how the complex role of the national past changed the content and context of Austria's literature. Contributions range from Klaus Zeyringer's aggressive argument for an authentically Austrian literature, to the late Harry Zohn's autobiographical insights of a transplanted Viennese. Probing essays examine the Liberal and the National-Socialist era writers in exile and in their roles as post-war social critics. *Shadows of the Past* also puts the authors themselves in the spotlight: A «mini-reader» of hard-

hitting as well as humorous narrative texts complements the literary history that begins the volume. Written by Barbara Frischmuth, Elisabeth Reichart, and Erich Wolfgang Skwara, these six texts are accompanied by helpful introductions to each author. As a further aid for English-speaking readers, the original in German literary and critical texts are translated for the first time. *Shadows of the Past* allows students of European culture and comparative literature to experience a dramatic century in Austrian literature and history.

In Search of Marie-Antoinette in the 1930s Plunkett Lake Press

"Joseph Fouché. Bildnis eines politischen Menschen" ist ein biographischer Roman von Stefan Zweig, erstmals erschienen im Jahre 1929. Wie in Zweigs Biographien "Marie Antoinette" und "Maria Stuart" wird hier auch die Geschichte einer allen anderen gegenüber moralisch überlegenen Person, die tragisch untergeht, beschrieben. Das Buch erzählt vom Aufstieg und Fall eines Mannes, der es immer wieder schafft ganz nach oben zu kommen. Dabei spielt es keine Rolle für welche Seite er tätig ist, egal ob im Dienste der Revolutionäre oder des französischen Königs. Von der Französischen Revolution, bis zum Untergang Napoleons, mehr als ein Viertel Jahrhundert lang, schafft es Joseph Fouché sich in der Politik zu etablieren. Im Vordergrund stehen aber nicht die Errungenschaften und Taten Fouchés. Viel eher möchte Stefan Zweig den Charakter und menschliche Eigenschaften eines der mächtigsten Männer seiner Zeit, eines der merkwürdigsten Männer aller Zeit darstellen. Aus dem Buch: "Es ist vor allem die Technik des Schweigenkönnens, die magistrale Kunst des Selbstverbergens. Daß dieser Mann ein Leben lang jeden Nerv seines Gesichts auch in der Leidenschaft beherrscht, daß man nie eine heftige Wallung des Zorns, der Erbitterung, der Erregungen seinem unbeweglichen, gleichsam in Schweigen vermauerten Gesicht entdecken kann, daß er mit gleicher tonloser Stimme das Umgänglichste wie das Furchtbarste gelassen ausspricht und mit dem gleichen lautlosen Schritt ebenso durch die Gemäcker des Kaisers wie durch eine tobende Volksversammlung zu schreiten weiß"

Joseph Fouché Walter de Gruyter

In these early 20th century literary essays, Stefan Zweig offers a Central European view of the writers he believed to be the "three greatest novelists" of the 19th century: Balzac, Dickens, and Dostoevsky. In Zweig's view, Balzac set out to emulate

his childhood hero Napoleon. Writing 20 hours a day, Balzac's literary ambition was "tantamount to monomania in its persistence, its intensity, and its concentration." His characters, each similarly driven by one desperate urge, were more vital to Balzac than people in his daily life. In Zweig's reading, Dickens embodied Victorian England and its "bourgeois smugness". His characters aspire to "A few hundred pounds a year, an amiable wife, a dozen children, a well-appointed table and succulent meats to entertain their friends with, a cottage not too far from London, the windows giving a view over the green countryside, a pretty little garden, and a modicum of happiness." The ideal of middle-class respectability suffuses Dickens' fiction. Dostoevsky drew on the struggles of his own life to illuminate the contradictions of the human soul. In Zweig's view, his heroes had no desire to be citizens or ordinary human beings. While Balzac's heroes "would gladly have subjugated the world, Dostoevsky's heroes wished to transcend it."

The Struggle with the Daemon: Hölderlin, Kleist, Nietzsche Walter de Gruyter

Stefan Zweig's literary portraits of three tormented giants of German literature, Friedrich Hölderlin, Heinrich von Kleist, and Friedrich Nietzsche, contrasts them with Goethe who was anchored in place by profession, home and family. For Zweig, "everyone whose nature excels the commonplace, everyone whose impulses are creative, wrestles inevitably with his daemon" which Zweig describes as "the incorporation of that tormenting leaven which impels our being ... towards danger, immoderation, ecstasy, renunciation and even self-destruction." In these essays, Zweig depicts the tragic and sublime lifelong struggle by three great creative minds with their respective daemons. *The Routledge Encyclopedia of Jewish Writers of the Twentieth Century* Plunkett Lake Press

Between periods of revolution, state repression, and war across Central and Western Europe from the 1840s through the 1860s, German liberals practiced politics beyond the more well-defined realms of voluntary associations, state legislatures, and burgeoning political parties. Political Friendship approaches 19th century German history's trajectory to unification through the lens of academics, journalists, and artists who formed close personal relationships with one another and with powerful state leaders. Michael Weaver argues that German liberals thought with their friends by demonstrating the previously neglected aspects of political friendship were central to German political culture.

Ulrich F. Zwygart offers an essential insight to the financial crisis that provides ample food for thought. He criticizes homo oeconomicus, the model of individual rationality, and contrasts it with the ideal of critical reflective rationality. This is about reason-based thinking, that involves a limitation of one's own activities and the evaluation of the subsequent cost of decisions. The author introduces twelve famous managers from the financial services, such as Richard Fuld, Fred Goodwin, Jon Corzine and Marcel Ospel, analyzes their actions based on neurological findings, social- and cultural-science, psychological and economic insights and describes conflicting challenges such as egomania, eroticism, experiences, emotions, one-dimensionality, successes, agents and rapture. Subsequently he raises the question of responsibility: Who is accountable for the development of top managers and how can ethical conduct be implemented in the field of management?

War, Violence and the Modern Condition Plunkett Lake Press

Written in the 1920s, Zweig's work of literary criticism and biography might today be titled *Masters of Memoir*. In it,

Stefan Zweig – one of the 20th century's most widely-published writers – describes the creative process and work of authors for whom no subject is as compelling as the material of their own lives. *Adepts in Self-Portraiture* examines the lives and work of three men who represent, in Zweig's view, three levels of development in autobiographical writing. The first and most basic level is evinced by Giacomo Casanova, the Venetian womanizer who records his sexual and social conquests, adventures and escapes, without attempting to analyze or even reflect on them. The second level of self-portraiture is exemplified by Stendhal, the French pioneer of psychological fiction, who kept voluminous notebooks on his own experience of life and on whom no nuance of feeling seems to have been lost. Russian master Leo Tolstoy represents the third and highest level of autobiographical writing in which the psychological is imbued with the spiritual and ethical. In *Adepts in Self-Portraiture*, Stefan Zweig examines the impulses that give rise to life writing and anticipates the current popularity of the memoir form.

Zweig devoted ten years of research and writing to Balzac, which he regarded as his crowning achievement. This late work reads like a picaresque novel, with Balzac's quest for "a woman with a fortune" and recurrent episodes of the author chasing an elusive pot of gold driving the story. This biography of one classic author by another is filled with Zweig's characteristic psychological insights. He portrays the energy and "exuberance of imagination" that produced some two thousand characters in *La comédie humaine*, as well as the daily details of the coffee-chugging writer's life, his manic writing schedule, method of correcting proofs, dealing with publishers and reviewers, signing contracts, doing marketing and publicity. Balzac blends biography and literary history in a highly readable volume that will teach you French cultural history as you laugh out loud. "[Balzac] is sure to entertain, instruct and charm ... It is a work of art, ... alive with the teeming life of its model ... It is true both to facts and to the more elusive psychological and spiritual truth of a man who ... has remained one of the most mysterious of great creators." – Henri Peyre, Sterling professor of French Literature, Yale University, *The New York Times*

An essential companion piece to Stefan Zweig's classic *The World of Yesterday*, this memoir addresses many of the questions that this internationally celebrated author raised but did not answer. A professional journalist and researcher in her own right who first encountered Zweig in 1908, Friderike threads her story between what Zweig called the Scylla of "exaggerated candor" and the Charybdis of self-love. She paints a detailed portrait of her famous husband from his birth into a wealthy Jewish family in late 19th century Vienna to his suicide (with his second wife) in Brazil in 1942. Married to Stefan Zweig, first published in 1946 under the title *Stefan Zweig*, provides a thorough overview of the writer's poems, plays, stories, biographies, essays and articles, his work habits, and his relations with editors, publishers, friends, mentors and protégés. Friderike also illuminates facets of the tumultuous context of political and social upheaval in which Zweig worked during his years in Salzburg and London. Married to Stefan Zweig is among the very small number of women's memoirs from 20th century Central Europe and an unusual portrait of a marriage anywhere, anytime.

Joseph Fouché BRILL

This book explores the phenomenon of soft power in international relations. In the context of current discourses on power and global power shifts, it puts forward a comprehensive taxonomy of soft power and outlines a methodological roadmap for its empirical study. To that end, the book classifies soft power into distinct components - resources, instruments, reception, and outcomes - and identifies relevant indicators for each of these categories. Moreover, the book integrates previously neglected aspects into the concept of soft power, including the significance of (political) personalities. A broad range of historical examples is drawn upon to illustrate the effects of soft power in international relations in an innovative and analytically differentiated way. A central methodological contribution of this book consists in highlighting the value of comparative-historical analysis (CHA) as a promising approach for empirical analyses of the soft power of different actors on the international stage. By introducing a comprehensive taxonomy of soft power, the book offers an innovative and substantiated perspective on a pivotal phenomenon in today's international relations. As the forces of attraction in world politics continue to gain in importance, it provides a valuable asset for a broad readership. This book was the winner of the 2021 ifa (German Institute for Foreign Cultural Relations) Research Award on Foreign Cultural Policy. "In this important and thoughtful book, Hendrik Ohnesorge explains and advances our knowledge of the ways that soft power, public diplomacy, and charismatic personal diplomacy are shaping the international relations of our global information age." Joseph S. Nye, Jr., Harvard University and author of *The Future of Power*
