Haryana Current Affairs Yearbook 2023-2024 in English R P Meena  
There are many questions yet to be answered about how Standard English came into existence. The claim that it developed from a Central Midlands dialect propagated by clerks in the Chancery, the medieval writing office of the king, is one explanation that has dominated textbooks to date. This book reopens the debate about the origins of Standard English, challenging earlier accounts and revealing a far more complex and intriguing history. An international team of fourteen specialists offer a wide-ranging analysis, from theoretical discussions of the origin of dialects, to detailed descriptions of the history of individual Standard English features. The volume ranges from Middle English to the present day, and looks at a variety of text types. It concludes that Standard English had no one single ancestor dialect, but is the cumulative result of generations of authoritative writing from many text types.  
Learners' English Grammar And Composition (On Modern Lines) Har-Anand Publications  
The first book to apply the latest methodological analysis to the languages of South Asia, The Teaching and Acquisition of South Asian Languages provides a much needed examination of learners and their learning patterns, language materials and their delivery, classroom environments, and learning conditions beyond the classroom. The contributors, accredited researchers and experienced teachers, test important universal learning hypotheses on "less commonly taught languages" and find that

those circumstances have significant implications for theory and practice. The book brings into focus a variety of issues related to linguistic theory, second language acquisition research, non-verbal communication, discourse appropriateness, learner variation, and strategies for developing speaking, listening, and reading skills. It is also a valuable addition to the general body of knowledge in the field of adult language acquisition. A carefully prepared index and an extensive bibliography covering both the South Asian field and general literature enhance the book's usefulness as a reference guide.

The Indo-Aryan languages are spoken by at least 700 million people throughout India, Pakistan, Bangladesh, Nepal, Sri Lanka and the Maldives. They have a claim to great antiquity, with the earliest Vedic Sanskrit texts dating to the end of the second millennium B.C. With texts in Old Indo-Aryan, Middle Indo-Aryan and Modern Indo-Aryan, this language family supplies a historical documentation of language change over a longer period than any other subgroup of Indo-European. This volume is divided into two main sections dealing with general matters and individual languages. Each chapter on the individual language covers the phonology and grammar (morphology and syntax) of the language and its writing system, and gives the historical background and information concerning the geography of the language and the number of its speakers.

This book examines the distribution and disambiguation patterns of selected particle elements of Hindi in the context of Hindi-English translation. The particle elements play a major role in determining the meaning of a sentence and also in its various interpretations. That makes it imperative to devise some ways to disambiguate their different meanings in various contexts. This complex issue has been addressed in the book by studying the distribution and classification of the particle elements and that has been used to further disambiguate their meanings and present mapping rules for each meaning/interpretation of a particle element.

The present study attempts to gauge the extent of lexical-copyings from English into Punjabi, and the degree of phonetic and phonological assimilation of the copied items. It clarifies a number of terminological issues, including highlighting the fact that the traditional terms like loan-word, loan-translation, loan-blend and lexical-borrowing are out-and-out misnomers, and (as the metaphor of copying is more appropriate than that of borrowing for representing these linguistic phenomena) they must be replaced with the terms copied-word, copied-translation, copied-blend and lexical-copying respectively.

Broadly speaking, Indian English (IE) is that variety of English used by a large number of educated Indians as a second language. Kachru (1983) used the term 'Indian English' for the variety of English used generally in the South Asian countries. David Crystal (2003) observes that in India the numbers of English speakers outrank the combined number of speakers in USA and UK. A considerable body of creative writing is also produced in English and is increasing steadily. Writers like Mulk Raj Anand, R.K. Narayan, and Raja Rao, and Arundhati Roy, have become part of India's literary tradition and they may continue to hold their status in world literature too. The use of Indian English in different domains in interaction with other regional languages has resulted in its development and recognition as a distinct variety in its own right. It is an attempt to study the styles of two of the prominent writers of Indian English, namely R.K. Narayan and Arundhati Roy by examining the different linguistic and literary aspects as reflected in their selected fictions—R.K. Narayan's "Swami and Friends" (SF) and "The Guide" (TG) and Arundhati Roy's "The God of Small Things" (GST). An examination of selected fictions of the two writers of this study has shown that stylistic analysis can be a rich field of enquiry in Indian English. Studies of the present kind can be used as a source material for applied linguistics. They can be extended for a comparative study of stylistic traits of Indian writers and non-Indian writers. The study suggests the possibility of further research in comparative stylistic studies in Indian English fiction, on the one hand, and American, British, or Australian fiction, on the other. Our comparison of the two writers, one of the colonial period and the other belonging to the post-colonial period, suggests that a more

extensive stylistic study of Indian writing in English is called for to understand the changing phases of English in the socio-cultural ethos of the Indian society. The book is organized as follows: Chapter-I is an introduction to Indian English, its importance and the objective of the research. Chapter-II deals with review of literature on Indian English as well as stylistic studies in Indian English fiction. Chapter-III is concerned with a brief introduction to the texts chosen for study. Chapter-IV discusses the methodology adopted in the study. Chapter-V deals with the results of the study and makes a comparison between the two authors' styles. Chapter-VI consists of a summary of the research and concludes with suggestions regarding further research needs.

This book discusses the epistemic foundation of the heuristic construct 'vagabond' and the convergence between the politics of itinerancy and that of dissent in the context of South Asia. It describes the fraught relationship between 'native' itinerant practices and techniques of governmentality which have furnished different categorizations and taxonomies of mobility. The book demonstrates the historical seismic breaks - from the Orientalist to the post-Orientalist, from the premodern to the modern, and from the colonial to the post-colonial - in the representation of the vagabond in the juridico-political imagination, in historiography and cultural articulation. For instance, the drunk European sailor, the quasi-religious mendicant, and the helpless famine refugee have all been referred to as 'vagabonds' in the colonial archive. This book examines the histories and conditions behind these conceptual overlaps, as well as the uncanny associations among categories that uneasily coexist and mirror each other as subsets of a vast range of phenomena, which may loosely be called 'vagabond(age)'. This volume will be of interest to students and researchers of literature, cultural studies, colonial and post-colonial studies, history, migration studies, sociology, and South Asia studies.
