Winner of the Louis Roederer International Champagne Writer of the Year Award 2005 4000 Champagnes, unprecedented in scope, plunges readers into the culture, history, and potential of this treasured beverage. Rich in description and practical in its application, 4000 Champagnes is divided into two main sections. The first is a passionate and comprehensive account of the Champagne region and its wines. It includes chapters on champagne's history, winemaking methodology, growing conditions, food matches, labels, a tour of the towns and villages of the French region, and sparkling wines from across the globe. In the book's groundbreaking and expansive section of tasting notes, Richard Juhlin provides the reader with practical information culled from his personal experiences at over 4000 tastings. A detailed portrait of each champagne house precedes a rating and description of each of the wines tasted there. Such depth of insight from a single source has never before been available. Written in Juhlin's authoritative and often humorous voice, 4000 Champagnes is an indispensable buying and tasting tool and an entertaining account of the history of champagne. The book includes several "best champagnes" lists, champagne statistics, telephone numbers and addresses of thousands of champagne producers, and a glossary. 4000 Champagnes is the supreme guide to a drink that has come to epitomize luxury and elegance.

One of the world's leading interiors photographers, Fritz von der Schulenburg opens his archive to share his stunningly beautiful photographs of minimalist but grand interiors around the world. Whatever the location, period or architectural style, all the rooms share a captivating simple elegance that defines contemporary taste. Reflecting the way we 'read' an interior, the 300 colour photographs are divided into six chapters: Rhythm, Colour, Light, Space, Texture and Composition. Each chapter has a brief introduction outlining the essential elements of interior design being featured, followed by numerous glorious photographic examples. Complete with a source directory of useful contact details, this is an inspiring volume that celebrates the very best of the timeless trend that is minimalism in the grand style. It is guaranteed to appeal to the huge readership interested in homes and interiors.

Is prejudice hard-wired or socially acquired? Is stigmatising the Other inevitable? Do we purposefully draw on stereotypes to provoke prejudice from others? Can we confront and correct our biases? From the judicial system to the marketplace, from women's intentional self-sexualisation to prison exonerees' stigma-by-association, this book offers a compelling and wide-ranging discussion and review of the latest scientific evidence of what prejudice is, how it emerges, what it does, and how the discrimination and stigma that ensue can be reduced.

69 Colebrooke Row, 'The Bar With No Name', is the brainchild of expert alchemist and award-winning barman and author, Tony Conigliaro. The bar, reminiscent of a 1950s Italian cafe, and influenced by film noir, thrives on the ability to surprise, reinvent and experiment. For Tony and his team at 69, only the wildest ingredients are used in their cocktails - wild in habitat and wild in nature. From re-workings of classic cocktails such as a Fig Tom Collins and Green Almond Army & Navy, as well as cocktails of his own making, the drinks combine bespoke flavour profiles and offer a delicious sensory experience. Filled with stunning photographs and illustrations, this is a fantastic celebration of the bar, its cocktails and their clientele - as well as a great follow-up to Tony Conigliaro's first book, Drinks. As Tony says, 'the pleasure of drinking in a bar is a pleasure of many kinds. Each of my drinks will tell you a story, if you are willing to hear it.'

A History of Opera MIT Press

This profoundly moving tale about a grieving boy and an imaginary gorilla makes real the power of talking about loss. On the day of his mother's funeral, a young boy conjures the very visitor he needs to see: a gorilla. Wise and gentle, the gorilla stays on to answer the heart-heavy questions the boy hesitates to ask his father: Where did his mother go? Will she come back home? Will we all die? Yet with the gorilla's friendship, the boy slowly begins to discover moments of comfort in tending flowers, playing catch, and climbing trees. Most of all, the gorilla knows that it helps to simply talk about the loss—especially with those who share your grief and who may feel alone, too. Author Jackie Azúa Kramer's quietly thoughtful text and illustrator Cindy Derby's beautiful impressionistic artwork depict how this tender relationship leads the boy to open up to his father and find a path forward. Told entirely in dialogue, this direct and deeply affecting picture book will inspire conversations about grief, empathy, and healing beyond the final hope-filled scene.

C# 9.0 in a Nutshell Hal Leonard Corporation

The epic story of war and medicine from the award-winning author of North Woods and The Piano Tuner is "a dream of a novel...part mystery, part war story, part romance" (Anthony Doerr, author of All the Light We Cannot See). Vienna, 1914. Lucius is a twenty-two-year-old medical student when World War I explodes across Europe. Enraptured by romantic tales of battlefield surgery, he enlists, expecting a position at a well-organized field hospital. But when he arrives, at a commandeered church tucked away high in a remote valley of the Carpathian Mountains, he finds a freezing outpost ravaged by typhus. The other doctors have fled, and only a single, mysterious nurse named Sister Margarete remains. But Lucius has never lifted a surgeon's scalpel. And as the war rages across the winter landscape, he finds himself falling in love with the woman from whom he must learn a brutal, makeshift medicine. Then one day, an unconscious soldier is brought in from the snow, his uniform stuffed with strange drawings. He seems beyond rescue, until Lucius makes a fateful decision that will change the lives of doctor, patient, and nurse forever. From the gilded ballrooms of Imperial Vienna to the frozen forests of the Eastern Front; from hardscrabble operating rooms to battlefields thundering with Cossack cavalry, The Winter Soldier is the story of war and medicine, of family, of finding love in the sweeping tides of history, and finally, of the mistakes we make, and the precious opportunities to atone. "The Winter Soldier brims with improbable narrative pleasures...These pages crackle with excitement... A spectacular success." —Anthony Marra, New York Times Book Review

Recent approaches to economic demography, investigating the effect of the transition to low mortality and low fertility on economic development. Over the last two hundred years, mortality and fertility levels in the Western world have dropped to unprecedented levels. This demographic transition was accompanied by an economic transition that led to widespread education and economic growth after centuries of near-stagnation. At the same time, other changes have occurred in family structures, culture, and the organization of society. Economists have only recently begun to take into account the demographic transition from high mortality and high fertility when modeling and researching economic development. This CESifo volume reviews recent approaches to economic demography, considering such topics as the bio-geographic origins of comparative development differences, the role of health improvements and mortality decline, as well as physiological, familial, cultural, and social aspects. After an overview of the study of demography and economic demography, the chapters cover subjects including the Neolithic era and the period of the formation of states and social institutions; longevity and economic growth; household decision making and fertility; land inequality, education, and marriage in nineteenth century Prussia; and caste systems and technology in pre-modern societies. The book concludes with a call for further investigation of the institutional and social factors that influence demographics and economies, suggesting that unified growth theory offers a potential approach to studying development. Unseen images and documents from the ultimate Bond film Perhaps theclassic James Bond film, Goldfinger(1964) undoubtedly marked the beginning of 1960s Bondmania. Incorporating much unpublished material, including photographs and the original typed screenplay, The Goldfinger Filesis an illustrated history of the film's iconic scenes shot in Switzerland's Urseren Valley, crowned by the car chase with Bond's gadget-laden Aston Martin. To maximize publicity for the film, its makers took the unorthodox step of inviting journalists and photographers onto the set, resulting in a wealth of photos, including those by Hans Gerber, Josef Ritler and Erich Kocian. These give us an insider's view of the famous sequence--Goldfinger's Rolls-Royce on the dusty mountain road, Tilly Masterson's failed assassination attempt on him, the chase between her Mustang and Bond's Aston Martin and finally Goldfinger's smelting factory. Dozens of private pictures revealing candid, behind-the-scenes moments complete this documentary flipbook of golden-age James Bond culture.

The Winter Soldier Avon

Fed up, frustrated and fast approaching forty, Charlie Simpson hasn't had many high points in her life just lately. The only peak on the horizon is her ambition to climb Everest, if she could only get organised and save up the cash. Unfortunately, though, she has more pressing things to deal with; her eldest son moving out, her father moving in, and her best friend moving two hundred miles away. She finds solace, however, via her newly acquired modem, when she stumbles upon a stranger who's a like-minded soul. Like-minded, perhaps, but no fantasy dream date. Though virtual, he's of the real-life variety - he may be a hero, but he has a wife. Charlie hasn't got a husband, but she certainly has principles, and they're about to be hauled up a mountain themselves. And, of course, her mum's always said she shouldn't talk to strangers. The question is, is now the time to start breaking the rules? 'A fantastic book that gets you hooked from the first page' New Woman 'It's wonderfully funny and rather inspiring...I enjoyed it hugely and I confess I read it all in one go, wolfing it down like a delicious box of chocolates' Judy Astley 'A charming and optimistic novel about modern love' - Hello Magazine 'A laugh out loud read' - Real magazine 'I absolutely loved it - hooray for Julia! this is funny, original, well-written and unguessable - I had no idea how it would end. It also has the very best closing paragraph I've read in years. Completely wonderful, dazzlingly entertaining, unputdownable' Jill Mansell

Godwi Oder Das Steinerne Bild Der Mutter Simon and Schuster

In this new edition of a wordless modern classic, a frog picks a beautiful flower. When a mouse sees him with it, his jealousy overcomes him, and he grabs it for himself. Then Frog's friends chase the mouse away. But before the frogs can celebrate, a counter-attack from Mouse's friends surprises them—and the conflict soon escalates into a full-blown war. When the dust finally clears, all either side can ask is: Why? With an afterword by children's literature expert Leonard S. Marcus, this seemingly simple book is an invaluable way to talk to young children about conflict and warfare.

An exquisite look into the legacy of the rose at the House of Dior, from Christian Dior's early passion for gardening to contemporary floral-inspired designs. Christian Dior discovered gardening at his childhood home in Granville, France. Roses profoundly influenced the designer, especially with his famous New Look aesthetic, where they were placed beneath the iconic corolla symbol. Published on the occasion of the exhibition at the Musée Christian Dior in Granville, this volume explores the rose's importance in Dior's history. The inspiration for Christian Dior's flowery vision of femininity runs deep throughout the House's collections; reinventions by subsequent artistic directors pay homage to Dior's wish to design dresses for "flower-like women." A focus on a new variety of rose, the Rose de Granville, underscores the perennial significance of the rose today—from inspiring Haute Couture creations to perfume making. This fascinating immersion in Dior's universe continues with texts by experts Éric Pujaleat-Plàa, Vincent Leret, and Brigitte Richart, accompanied by sublime photographs, including shots by the most acclaimed twentieth-century masters as well as contemporary photography.
