Now in its second edition, *Canadian Perspectives on Advanced Practice Nursing* provides a comprehensive and uniquely Canadian review of the roles of clinical nurse specialists and nurse practitioners, the two streams of advanced practice nursing (APN) in the country. With contributions from notable professionals and academics of the field, the text explores the history and evolution of APN in Canada, from its rural and remote outpost beginnings to the present, and proposes a vision for its future within the health care system. Key issues are examined in relation to economic, educational,

legislative, political, regulatory, and social environments that have shaped the continued integration of APN roles across the country. Additionally, the contributors apply the Canadian Nurses Association's pan-Canadian framework and role competencies to real clinical cases. Speciality roles, including geropsychiatry, ambulatory care, and neonatal, are also examined. New to this edition are chapters that focus on the unique challenges of developing APN roles in Quebec; the social determinants of health of Indigenous, inner-city, rural and remote, LGBT2SQ, and refugee and migrant populations in Canada; and other critical issues, such as

performance assessment and global perspectives.

Thoroughly updated, this second edition of *Canadian Perspectives on Advanced Practice Nursing* is a must-read for those in the nursing profession, especially students in nursing programs.

This collection of papers seeks to bridge the divide between English and French Canada by bringing to light the distinctive viewpoints of those two sides regarding historical events. It chronicles 34 events that have marked political relations between the two linguistic communities from the arrival of the British in 1759 through to the 1995 Quebec referendum. Each event is summarized from the viewpoint of both Anglophones and Francophones. Chapter 1 covers early events including the British conquest, the 1830s rebellions, Confederation, and the hanging of Louis Riel. Chapter 2 covers the

making of the welfare state, including unemployment insurance, tax rental agreements, pension plans, and health insurance. Chapter 3 covers Canadian identity events such as creation of the Canadian Broadcasting Corporation, adoption of a new flag, and bilingualism & multiculturalism policies. Chapter 4 covers events in Quebec since the Quiet Revolution, including the DeGaulle visit in 1967, the October 1970 crisis, Quebec language laws, and the 1982 patriation of the Constitution. Chapter 5 covers economic debates, including the Churchill Falls power contract and the Canada-US Free Trade Agreement. The final chapter is entitled

"Failed reconciliation" and includes papers on the Meech Lake Accord, the 1990 crisis at Oka, and the Charlottetown accord of 1992. Includes index.

The relationship

between Canada and

France has always

been complicated by  
the Canadian federal  
government's relations  
with Quebec. In this

first study of Franco-  
Canadian relations

during the Second  
World War, Olivier  
Courteaux

demonstrates how

Canada's wartime  
foreign policy was  
shaped by the

country's internal  
divides. As Courteaux

shows, Quebec's vocal  
nationalist minority  
came to openly

support France's  
fascist Vichy regime  
and resented Canada's

involvement in a  
'British' war, while

English Canada was  
largely sympathetic to

de Gaulle's Free French  
movement and  
accepted its duty to aid

embattled Mother  
Britain. Meanwhile, on

the world stage,  
Canada deftly juggled

ties with both French factions to appease Great Britain and the United States before eventually giving full support to the Free French movement. Courteaux concludes this extensively detailed study by illustrating Canada's vital role in helping France reassert its position on the global stage after 1944. Filled with international intrigue and larger-than-life characters, *Canada between Vichy and Free France* adds greatly to our comprehension of Canada's foreign relations and political history.

This long-anticipated reference and sourcebook for California's remarkable ecological abundance

provides an integrated assessment of each major ecosystem type—its distribution, structure, function, and management. A comprehensive synthesis of our knowledge about this biologically diverse state, *Ecosystems of California* covers the state from oceans to mountaintops using multiple lenses: past and present, flora and fauna, aquatic and terrestrial, natural and managed. Each chapter evaluates natural processes for a specific ecosystem, describes drivers of change, and discusses how that ecosystem may be altered in the future. This book also explores the drivers of California's ecological patterns and the history of the state's various ecosystems,

outlining how the challenges of climate change and invasive species and opportunities for regulation and stewardship could potentially affect the state's ecosystems. The text explicitly incorporates both human impacts and conservation and restoration efforts and shows how ecosystems support human well-being. Edited by two esteemed ecosystem ecologists and with overviews by leading experts on each ecosystem, this definitive work will be indispensable for natural resource management and conservation professionals as well as for undergraduate or graduate students of California's environment and

curious naturalists.

Since the death of the French film director Eric Rohmer in 2010, interest in his work has reignited. Known as the last of the established directors in the French New Wave, Rohmer took complete control over all his films, acting as his own producer throughout his career, and writing the scripts. He also made his mark by taking the lead in casting and location scouting - as French seaside resorts with beautiful young people are some of the elements present in most of his films. Combining history and criticism, Jacob Leigh pens the first chronological survey of this understudied filmmaker in order to

give readers clear insights into how Rohmer's films came about and what he intended them to be. The book provides in-depth analysis of the themes and ideas of Rohmer's twenty-three feature films, and illustrates the complexity of their cinematic style. Leigh's study is the perfect introduction to the work of this great filmmaker, for both students and the general reader.

Between 1867 and 2000, the Canadian government sent over 150,000 Aboriginal children to residential schools across the country. Government officials and missionaries agreed that in order to "civilize and Christianize" Aboriginal children, it was necessary to separate them from their parents and their home communities. For children, life in these schools was lonely and alien. Discipline was harsh, and daily life was highly regimented. Aboriginal languages and cultures were denigrated and suppressed. Education and technical training too often gave way to the drudgery of doing the chores necessary to make the schools self-sustaining. Child

neglect was institutionalized, and the lack of supervision created situations where students were prey to sexual and physical abusers. Legal action by the schools' former students led to the creation of the Truth and Reconciliation Commission of Canada in 2008. The product of over six years of research, the Commission's final report outlines the history and legacy of the schools, and charts a pathway towards reconciliation. Canada's Residential Schools: The History, Part 2, 1939 to 2000 carries the story of the residential school system from the end of the Great Depression to the closing of the last remaining schools in the late 1990s. It

demonstrates that the underfunding and unsafe living conditions that characterized the early history of the schools continued into an era of unprecedented growth and prosperity for most Canadians. A miserly funding formula meant that into the late 1950s school meals fell short of the Canada Food Rules. Overcrowding, poor sanitation, and a failure to adhere to fire safety rules were common problems throughout this period. While government officials had come to view the schools as costly and inefficient, the churches were reluctant to countenance their closure. It was not until the late 1960s that the federal government finally wrested control of the system away

from the churches. Government plans to turn First Nations education over to the provinces met with opposition from Aboriginal organizations that were seeking “Indian Control of Indian Education.” Following parent-led occupation of a school in Alberta, many of the remaining schools came under Aboriginal administration. The closing of the schools coincided with a growing number of convictions of former staff members on charges of sexually abusing students. These trials revealed the degree to which sexual abuse at the schools had been covered up in the past. Former students, who came to refer to

themselves as Survivors, established regional and national organizations and provided much of the leadership for the campaign that led to the federal government issuing in 2008 an apology to the former students and their families.
