The Englishman from

Lebedian Simon and
Schuster
Donald Maclean was a

star diplomat, an establishment insider and a keeper of some of the West's greatest secrets. He was also a Russian spy... Codenamed 'Orphan' by his Russian recruiter, Maclean was Britain's most gifted traitor. But as he leaked huge amounts of top-secret intelligence, an international code-breaking operation was rapidly closing in on him. Moments before he was unmasked, Maclean escaped to Moscow. Drawing on a wealth of previously classified

material, *A Spy Named Orphan* now tells this story for the first time in full, revealing the character and devastating impact of perhaps the most dangerous Soviet agent of the twentieth century. 'Superb' William Boyd 'Fascinating... An exceptional story of espionage and betrayal, thrillingly told' Philippe Sands 'A cracking story... Impressively researched' Sunday Times 'Philipps makes the story and the slow uncovering of [Maclean's] treachery a gripping narrative' Alan

Bennett
Stalin's Nose eBook
Partnership
Recounts the extraordinary and thrilling story of the British spies in revolutionary Russia, led by Mansfield Cumming, who would one day pioneer the field of covert action and become MI6, and their mission to foil Lenin's plot for global revolution. 40,000 first printing.

Anthony Blunt
HarperCollins UK
Arthur Ransome, best known for the Swallows and Amazons series, led a

double, and often tortured, life. Before his fame as an author, he was notorious for very different reasons: between 1917 and 1924, he was the Russian correspondent for the Daily News and the Manchester Guardian, and his sympathy for the Bolshevik regime gave him access to its leaders, politics, and plots. He was friends with Karl Radek, the Bolshevik's Chief of Propaganda, and Felix Dzerzhinsky, founder of the secret police. In this biography, Chambers

explores the tensions Ransome felt between his allegiance to England's decencies and the egalitarian Bolshevik vision, between the Lake Country he loved and always considered home and the lure of the Russian steppes to which he repeatedly returned. What emerges is not only history, but also the story of an immensely troubled man not entirely at home in either culture or country.

The Last Englishman

"Andrew Lownie's

acclaimed biography - the first in over thirty years - reveals a character as complex and fascinating as any in his great quartet of thrillers starring master spy Richard Hannay. He succeeds in the daunting task of retelling Buchan's life in all its variety, breadth, and complexity. Based on exhaustive research and drawing on private papers previously unavailable to biographers, this is a compelling picture of Buchan's life, and a panoramic view of British political, social, and

literary circles during the first half of the twentieth-century."--Jacket.

The Anatomy of a Spy

Modern Library

Guy Burgess:

Revolutionary in an Old School Tie is based on extensive research in archives, including those of the BBC, Eton, King's College (Cambridge), Christ Church (Oxford), the National Archives (Kew) and many others. It is the first book to take Burgess seriously as a political figure, interpreting his espionage activities in the context of

the Depression, the Second World War and the first years of the Cold War. Guy Burgess: Revolutionary in an Old School Tie shows how Burgess used his flamboyant personality to conceal his extraordinary activities as the center of the Cambridge Five spy ring and how, after his departure for Moscow, that personality and his well-known homosexuality, were used by the British Establishment as part of its effort to minimize knowledge of his

effectiveness as an agent.

Stalin's Englishman St. Martin's Press

After Evgeny Zamiatin emigrated from the USSR in 1931, he was systematically airbrushed out of Soviet literary history, despite the central role he had played in the cultural life of Russia's northern capital for nearly twenty years. Since the collapse of the Soviet Union, his writings have gradually been rediscovered in Russia, but with his archives scattered between Russia, France, and the USA, the

project of reconstructing the story of his life has been a complex task. This book, the first full biography of Zamiatin in any language, draws upon his extensive correspondence and other documents in order to provide an account of his life which explores his intimate preoccupations, as well as uncovering the political and cultural background to many of his works. It reveals a man of strong will and high principles, who negotiated the political dilemmas of his

day—including his relationship with Stalin—with great shrewdness. *The Unfortunate Englishman* Oxford University Press
On a mid-summer day in 1937, a car pulled up to the house of the Bibikov family in Chernigov in the heart of the Ukraine. Boris, the father, kissed his two daughters and wife goodbye and disappeared inside the car. His family never saw him again. His wife would later vanish, leaving the young Lyudmila and

Lenina alone to drift across the vast Russian landscape as the Wehrmacht advanced in WWII. In the early 1960s Owen Matthews' father, Mervyn, moved to Moscow to work for the British embassy after a childhood in Wales dreaming of Russia. He fell in with the KGB, and in love with Lyudmila, and before he could disentangle himself from the former he was ordered to leave the country. For the next six years, Mervyn tried desperately to get

Lyudmila out of Russia, and when he finally succeeded they married. Decades on from these events, their son, now Newsweek's bureau chief in Moscow, pieces together the tangled threads of his family's past and present-the extraordinary files that record the life and death of his grandfather at the hands of Stalin's secret police; his mother's and aunt's perilous journey to adulthood; his parents' Cold War love affair and the magnet that has drawn him back to the

Russia-to present an indelible portrait of the country over the past seven decades and an unforgettable memoir about how we struggle to define ourselves in opposition to our ancestry only to find ourselves aligning with it. *Agent Molière* Yale University Press Winner of the St Ermin's Intelligence Book of the Year Award. 'One of the great biographies of 2015.' The Times Fully updated edition including recently released information. A Guardian

Book of the Year. The Times Best Biography of the Year. Mail on Sunday Biography of the Year. Daily Mail Biography of the Year. Spectator Book of the Year. BBC History Book of the Year. 'A remarkable and definitive portrait ' Frederick Forsyth 'Andrew Lownie's biography of Guy Burgess, Stalin's Englishman ... shrewd, thorough, revelatory.' William Boyd 'In the sad and funny Stalin's Englishman, [Lownie] manages to convey the charm as well as the turpitude.' Craig

Brown Guy Burgess was the most important, complex and fascinating of 'The Cambridge Spies' - Maclean, Philby, Blunt - all brilliant young men recruited in the 1930s to betray their country to the Soviet Union. An engaging and charming companion to many, an unappealing, utterly ruthless manipulator to others, Burgess rose through academia, the BBC, the Foreign Office, MI5 and MI6, gaining access to thousands of highly sensitive secret documents which he

passed to his Russian handlers. In this first full biography, Andrew Lownie shows us how even Burgess's chaotic personal life of drunken philandering did nothing to stop his penetration and betrayal of the British Intelligence Service. Even when he was under suspicion, the fabled charm which had enabled many close personal relationships with influential Establishment figures (including Winston Churchill) prevented his exposure as a spy for many years. Through

interviews with more than a hundred people who knew Burgess personally, many of whom have never spoken about him before, and the discovery of hitherto secret files, Stalin's Englishman brilliantly unravels the many lives of Guy Burgess in all their intriguing, chilling, colourful, tragicomic wonder.

'James Hanning's book is excellent . . . The fascination of Love &

Deception lies in the meticulously detailed account it gives of Philby's strange half-life in Beirut, where he was banished in 1956' Guardian Love & Deception is the extraordinary story of how Eleanor, an able, cultured American living in the espionage hot spot of 1950s Beirut, fell in love with the kindest of men. Unknown to her, that man, Kim Philby, was under suspicion by the British and US intelligence services of having secretly signed up to help the Russians fight fascism

in the 1930s, and of remaining in their pay at the height of the Cold War. Despite his mysterious past, Eleanor adored and married Philby, but the strength of their love was challenged as the net steadily closed in on him. The outline of Philby's story is familiar to many, but Love & Deception breaks remarkable new ground. Through extensive research, Hanning produces an eye-opening tale of friendship, politics, love and loyalty. 'Fascinating and superbly

researched' TLS 'I am always gripped by the Philby story and James Hanning succeeds in putting new flesh on this fascinating period in his double life . . . I thoroughly recommend it' Marina Hyde 'If ever there was a cautionary tale about the true costs of male privilege in the higher echelons of the British establishment - this is it' Amanda Foreman
Stalin's Englishman
 Hachette UK
 For fans of both real spy dramas and fictional

ones—both Ben Macintyre and John le Carré—the story of why spies spy. Why do people put their lives at risk to collect intelligence? How do intelligence services ensure that the agents they recruit do their bidding and don't betray them? What makes the perfect spy? Drawing on interviews with active and former British, American, Russian, European, and Asian intelligence officers and agents, Michael Smith creates a layered portrait of why spies spy, what motivates them, and what

makes them effective. Love, sex, money, patriotism, risk, adventure, revenge, compulsion, doing the right thing—focusing on the motivations, *The Anatomy of a Spy* presents a wealth of spy stories, some previously unknown and some famous, from the very human angle of the agents themselves. The accounts of actual spying extend from ancient history to the present, and from running agents inside the Islamic State and al-Qaeda to the

recent Russian active measures campaigns and operations to influence votes in the UK, European Union, and United States, penetrating as far as Trump Tower if not the White House.

Stalin's Agent Bloomsbury Publishing USA

The intimate story of a unique marriage spanning the heights of British glamour and power that descends into infidelity, manipulation, and disaster through the heart of the twentieth century. DICKIE MOUNTBATTEN: A major figure behind his

nephew Philip's marriage to Queen Elizabeth II and instrumental in the royal family taking the Mountbatten name, he was Supreme Allied Commander of South East Asia during World War II and the last Viceroy of India. EDWINA MOUNTBATTEN: Once the richest woman in Britain—and a playgirl who enjoyed numerous affairs—she emerged from World War II as a magnetic and talented humanitarian worker who was loved throughout the world. From British high

society to the South of France, from the battlefields of Burma to the Viceroy's House, The Mountbattens is a rich and filmic story of a powerful partnership, revealing the truth behind a carefully curated legend. Was Mountbatten one of the outstanding leaders of his generation, or a man over-promoted because of his royal birth, high-level connections, film-star looks and ruthless self-promotion? What is the true story behind controversies such as the Dieppe Raid and

Indian Partition, the love affair between Edwina and Nehru, and Mountbatten's assassination in 1979? André Gide Harvard University Press The first chronicle of Stalin's inner political and social circle—from a leading Soviet historian Stalin was the unchallenged dictator of the Soviet Union for so long that most historians have dismissed the officials surrounding him as mere yes-men and political window dressing. On Stalin's Team

overturms this view, revealing that behind Stalin was a group of loyal men who formed a remarkably effective team with him from the late 1920s until his death in 1953. Drawing on extensive original research, Sheila Fitzpatrick provides the first in-depth account of this inner circle and their families. She vividly describes how these dedicated comrades-in-arms not only worked closely with Stalin, but also constituted his social circle. Stalin's team

included the wily security chief Beria; Andreev, who traveled to provincial purges while listening to Beethoven on a portable gramophone; and Khrushchev, who finally disbanded the team four years after Stalin's death. Taking readers from the cataclysms of the Great Purges and World War II to the paranoia of Stalin's final years, *On Stalin's Team* paints an entirely new picture of Stalin within his milieu—one that transforms our understanding of how the Soviet Union was ruled

during much of its existence.

The Cambridge Spies

Princeton University Press
In the annals of espionage, one name towers above all others: that of H.A.R. “Kim” Philby, the ringleader of the legendary Cambridge spies. A member of the British establishment, Philby joined the Secret Intelligence Service in 1940, rose to the head of Soviet counterintelligence, and, as MI6’s liaison with the CIA and the FBI, betrayed every secret of Allied

operations to the Russians, fatally compromising covert actions to roll back the Iron Curtain in the early years of the Cold War. Written from Moscow in 1967, *My Silent War* shook the world and introduced a new archetype in fiction: the unrepentant spy. It inspired John le Carré's Smiley novels and the later espionage novels of Graham Greene. Kim Philby was history's most successful spy. He was also an exceptional writer who gave us the great

iconic story of the Cold War and revolutionized, in the process, the art of espionage writing. Part of the Family New Press, The terror and purges of Stalin's Russia in the 1930s discouraged Soviet officials from leaving documentary records let alone keeping personal diaries. A remarkable exception is the unique diary assiduously kept by Ivan Maisky, the Soviet ambassador to London between 1932 and 1943. This selection from Maisky's diary, never

before published in English, grippingly documents Britain's drift to war during the 1930s, appeasement in the Munich era, negotiations leading to the signature of the Ribbentrop-Molotov Pact, Churchill's rise to power, the German invasion of Russia, and the intense debate over the opening of the second front. Maisky was distinguished by his great sociability and access to the key players in British public life. Among his range of regular contacts were politicians (including

Churchill, Chamberlain, Eden, and Halifax), press barons (Beaverbrook), ambassadors (Joseph Kennedy), intellectuals (Keynes, Sidney and Beatrice Webb), writers (George Bernard Shaw, H. G. Wells), and indeed royalty. His diary further reveals the role personal rivalries within the Kremlin played in the formulation of Soviet policy at the time. Scrupulously edited and checked against a vast range of Russian and Western archival evidence, this

extraordinary narrative diary offers a fascinating revision of the events surrounding the Second World War. Russian Roulette Hachette UK
Describes how, from 1944 to 1951, three high-level British Embassy people in Washington spied for the Soviets.
Trotsky Naval Institute Press
Dubbed an "agent of British imperialism" by Joseph Stalin, Reginald Teague-Jones (1889-1988) was the quintessential English spy

whose exceptional story is recounted in this new biography. He studied in St Petersburg, participated in the 1905 Revolution and spent the rest of his life working for various branches of British secret intelligence. Plunging into the Great Game, he participated in daring operations against the Bolsheviks and tracked down a turbulent German agent, Wilhelm Wassmuss, who was spreading anti-British propaganda in Persia. Teague-Jones was also held responsible for the

execution of 'the 26 Commissars' after the fall of the Baku Commune in 1918. This became one of the Soviet Union's most powerful cults of martyrology, inspiring a poem by Yesenin, a Brodsky painting, a 1933 feature film and an immense monument. Shortly after, Teague-Jones changed his name to Ronald Sinclair and adopted a secret persona for the next five decades, for part of which he worked undercover in the United States as an expert on Indian, Soviet

and Middle-Eastern affairs, possibly in collaboration with the OSS, the new American secret service. In his swan song in espionage he kept a gimlet eye on the Soviet delegation to the UN in New York. For these reasons, and many others besides, Reginald Teague-Jones is the most important British spy you have never heard of. On Stalin's Team Corsair Eric Hobsbawm, who passed away in 2012, was one of the most brilliant and original historians of our age. Through his

work, he observed the great twentieth-century confrontation between bourgeois fin de siècle culture and myriad new movements and ideologies, from communism and extreme nationalism to Dadaism to the emergence of information technology. In *Fractured Times*, Hobsbawm, with characteristic verve, unpacks a century of cultural fragmentation. Hobsbawm examines the conditions that both created the flowering of the belle époque and held

the seeds of its disintegration: paternalistic capitalism, globalization, and the arrival of a mass consumer society. Passionate but never sentimental, he ranges freely across subjects as diverse as classical music, the fine arts, rock music, and sculpture. He records the passing of the golden age of the "free intellectual" and explores the lives of forgotten greats; analyzes the relationship between art and totalitarianism; and dissects phenomena as

diverse as surrealism, art nouveau, the emancipation of women, and the myth of the American cowboy. Written with consummate imagination and skill, *Fractured Times* is the last book from one of our greatest modern-day thinkers.

A Spy Among Friends

Hodder & Stoughton

This is the history of an unprecedented deception operation - the biggest KGB deception of all time. It has never been told in full until now. There are almost certainly people

who would like it never to be told. It is the story of General Alexander Orlov. Stalin's most loyal and trusted henchman during the Spanish Civil War, Orlov was also the Soviet handler controlling Kim Philby, the British spy, defector, and member of the notorious 'Cambridge Five'. Escaping Stalin's purges, Orlov fled to America in the late 1930s and lived underground. He only dared reveal his identity to the world after Stalin's death, in his 1953 best-seller *The Secret History of Stalin's Crimes*,

after which he became perhaps the best known of all Soviet defectors, much written about, highly praised, and commemorated by the US Congress on his death in 1973. But there is a twist in the Orlov story beyond the dreams of even the most ingenious spy novelist: 'General Alexander Orlov' never actually existed. The man known as 'Orlov' was in fact born Leiba Feldbin. And while he was a loyal servant of Stalin and the controller of Philby, he was never a General in

the KGB, never truly defected to the West after his 'flight' from the USSR, and remained a loyal Soviet agent until his death. The 'Orlov' story as it has been accepted until now was largely the invention of the KGB - and one perpetuated long after the end of the Cold War. In this meticulous new biography, Boris Volodarsky, himself a former Soviet intelligence officer, now tells the true story behind 'Orlov' for the first time. An intriguing tale of Russian espionage and deception,

stretching from the time of Lenin to the Putin era, it is a story that many people in the world's intelligence agencies would almost definitely prefer you not to know about.
