 Hodder & Stoughton
 Whereas in English-speaking countries comics are for children or adults "who

should know better," in France and Belgium the form is recognized as the "ninth art" and follows in the path of poetry, architecture, painting, and cinema. The bande dessinée [comic strip] has its own national institutions, regularly obtains front-page coverage, and has received the accolades of statesmen from De Gaulle onwards. On the way to providing a comprehensiv

e introduction to the most francophone of cultural phenomena, this book will consider national specificity as relevant to an anglophone reader, whilst exploring related issues such as text/image expression, historical precedents, and sociological implication. To do so it will present and analyse priceless manuscripts, a Franco-American rodent, Nazi propaganda, a museum-piece

urinal, intellectual gay porn and a prehistoric warrior who's really Zinedine Zidane. *Asterix and the Magic Carpet* Routledge It all starts in a school playground, and then it moves to a classroom, where Larcenet's superb graphic camera zooms in on two ten-year-old kids: Gildas and Martina. The pair of them are ever so slightly obsessed with Sci-fi. To the

extent they think they're surrounded by robots and aliens. As far as they're concerned, their entire world is made up of false appearances, and they're soon to be the victims of a huge intergalactic plot! You read, you smile, you snigger. But then suddenly, it's all turned on its head... **The Book of the Film** Greenwood Comics are a pervasive art form and an intrinsic part of the cultural fabric of most

countries. And yet, relatively little has been written on the translation of comics. Comics in Translation attempts to address this gap in the literature and to offer the first and most comprehensive account of various aspects of a diverse range of social practices subsumed under the label 'comics'. Focusing on the role played by translation in shaping graphic narratives that appear in

various formats, different contributors examine various aspects of this popular phenomenon. Topics covered include the impact of globalization and localization processes on the ways in which translated comics are embedded in cultures; the import of editorial and publishing practices; textual strategies adopted in translating comics,

including the translation of culture- and language-specific features; and the interplay between visual and verbal messages. Comics in translation examines comics that originate in different cultures, belong to quite different genres, and are aimed at readers of different age groups and cultural backgrounds, from Disney comics to Art Spiegelman's *Maus*, from Katsuhiko

Ōtomo's Akira to Goscinny and Uderzo's *Astérix*. The contributions are based on first-hand research and exemplify a wide range of approaches. Languages covered include English, Italian, Spanish, Arabic, French, German, Japanese and Inuit. The volume features illustrations from the works discussed and an extensive annotated bibliography. Contributors

include: Raffaella Baccolini, Nadine Celotti, Adele D'Arcangelo, Catherine Delesse, Elena Di Giovanni, Heike Elisabeth Jüngst, Valerio Rota, Carmen Valero-Garcés, Federico Zanettin and Jehan Zitawi. *Asterix and The Normans* Hachette UK Asterix and Obelix escort Getafix to the druids' annual conference in the Forest of the Carnutes. Little do they know that the Goths are lying in ambush,

ready to kidnap the Druid of the Year - who of course is Getafix! But what with Gauls, Goths and Romans all at odds, it's hard to tell friend from foe... until Goths begin fighting Goths in the Asterixian Wars. **Asterix and The Laurel Wreath** Oni Press Goudurix, un neveu d'Abraracourci x, originaire de Lutèce, est envoyé en vacances dans le village d'Astérix et Obélix. Asterix the Gaul

Humanoids Inc In the dying days of the eighth century, the Vikings erupted onto the international stage with brutal raids and slaughter. The medieval Norsemen may be best remembered as monk murderers and village pillagers, but this is far from the whole

story. Throughout the Middle Ages, long-ships transported hairy northern voyagers far and wide, where they not only raided but also traded, explored and settled new lands, encountered unfamiliar races, and embarked on pilgrimages and crusades. The Norsemen travelled to all corners of the medieval world and beyond; north to the wastelands of arctic Scandinavia,

south to the politically turbulent heartlands of medieval Christendom, west across the wild seas to Greenland and the fringes of the North American continent, and east down the Russian waterways trading silver, skins, and slaves. Beyond the Northlands explores this world through the stories that the Vikings told about themselves in their sagas. But the depiction of

the Viking world in the Old Norse-Icelandic sagas goes far beyond historical facts. What emerges from these tales is a mixture of realism and fantasy, quasi-historical adventures, and exotic wonder-tales that rocket far beyond the horizon of reality. On the crackling brown pages of saga manuscripts, trolls, dragons, and outlandish tribes jostle for position with explorers,

traders, and kings. To explore the sagas and the world that produced them, Eleanor Rosamund Barraclough now takes her own trip through the dramatic landscapes that they describe. Along the way, she illuminates the rich but often confusing saga accounts with a range of other evidence: archaeological finds, runestones, medieval world maps, encyclopaedic

manuscripts, and texts from as far away as Byzantium and Baghdad. As her journey across the Old Norse world shows, by situating the sagas against the revealing background of this other evidence, we can begin at least to understand just how the world was experienced, remembered, and imagined by this unique culture from the outermost edge of Europe so many centuries ago. *The Cartoon History of the*
