Corot in Italy Titan Books (US, CA) First published in 2005. A cookery book by the author of *The Three Muskateers* and *The Count of Monte Cristo* may seem an improbability. Yet Alexandre Dumas was an expert cook- his love of food was said to be equalled only by his love of women - and his *Great Dictionary of Cuisine*, written to be read by worldly people and used by professionals and published posthumously in 1873, it is a masterpiece in its own right. This abridged version of the *Dictionary* is designed to be both useful and

entertaining. A glance at the Index will show that there are hundreds of recipes - for sauces, soups, meat, fish, eggs, poultry and game - not all kitchen-tested with modern ingredients, but well within the scope of an experienced and imaginative cook. *Information Literacy Instruction Handbook* Bloomsbury Publishing # 1 international bestselling diet book coming to North America Devised by Dr. Pierre Dukan, a French medical doctor who has spent his career helping people to lose weight, the Dukan Diet rejects counting calories and promises permanent weight loss while allowing adherents to eat as much as they like. Originally published in

2000, the Dukan Diet swept across France, championed by people who successfully lost weight following its unique four phase regime. The Dukan Diet has helped millions in France, where it has been number one for more than ten years and adopted in twenty countries, including the United Kingdom, Poland, Korea and Brazil. All together, The Dukan Diet has sold more than 3 million copies worldwide. The Diet: 4 Easy Steps to Permanent Weight Loss

Phase one: Attack Using Dr. Dukan's True Weight calculator, dieters determine a reasonable and healthy weight loss goal. Then they begin the Dukan Attack phase a two-to-seven-day period during which only

unlimited lean protein and a daily Oat bran galette (or pancake) are consumed and dramatic weight loss is achieved. Phase Two: Cruise Dieters alternate days of unlimited lean protein with days of protein combined with healthful vegetables until they reach their True Weight. Phase Three: Consolidation Dieters stay on this phase for 5 days for every pound lost. At this point the diet allows unlimited protein and vegetables, and other foods (such as cheese and bread) are reintroduced. Dieters are also allowed two weekly celebration meals to stave off boredom. Phase Four: Stabilization This is the maintenance portion of the plan, in which

followers are allowed to eat whatever they like without regaining weight - provided that they follow 3 unbreakable rules including eating only unlimited lean protein one set day per week. For each phase, The Dukan Diet offers clear simple guidelines for long term success. The Dukan Diet is the perfect diet for people who want fast weight loss, that can be maintained without counting calories or weighing portions.

Fatherland—a WWII-era spy thriller set against the backdrop of the fateful Munich Conference of September 1938. Now a Netflix film starring Jeremy Irons. With this electrifying novel about treason and conscience, loyalty and betrayal, "Harris has brought history to life with exceptional skill" (The Washington Post). Hugh Legat is a rising star of the British diplomatic service, serving at 10 Downing Street as a private secretary to the Prime Minister, Neville Chamberlain. Paul von Hartmann is on the staff of the German Foreign Office--and secretly a member of the anti-Hitler resistance. The two men were friends at Oxford in the 1920s, but have not been in

contact since. Now, when Hugh flies with Chamberlain from London to Munich, and Hartmann travels on Hitler's train overnight from Berlin, their paths are set on a disastrous collision course. And once again, Robert Harris gives us actual events of historical importance--here are Hitler, Chamberlain, Mussolini, Daladier--at the heart of an electrifying, unputdownable novel.

When The Big Show was first published, paper rationing meant that the text had to be heavily cut. Now, for the first time, this international bestseller has been returned to its complete, and

brehtaking, original state. Pierre Clostermann was a Free French fighter ace who flew with the RAF during the Second World War. Over the course of five years he engaged in hundreds of dog-fights, shot down scores of Luftwaffe planes, escorted American bombers on some of the most dangerous raids of the war, and watched many of his friends falling to their deaths in the skies over the Channel. The Big Show, his incredible account of the air war over Britain and France, has become one of the most famous memoirs of the Second World War. Now in its original state, it contains everything one could wish for in a war memoir: wonderfully

observed descriptions of wartime Britain, frighteningly evocative stories of in-the-cockpit action, an amazing cast of characters, and all the drama and bravery of a man fighting a desperate war thousands of feet above the ground. An undeniable classic.

You will find here the highest quality photos of acoustic guitars produced by every significant maker, from Alvarez to Zemaitis, plus detailed information, and a host of action pictures of

'I often get asked, 'Who was your favorite person to photograph?' or 'Who is the best person you've photographed?'" says photographer Perou. 'It's always 'Marilyn Manson.' Which is just as well, considering how many times I've photographed him.' Perou has been photographing Marilyn Manson since a 1998 magazine cover shoot. Twenty-one years of collaborating have resulted in this unique book, featuring over 350 photographs including previously unpublished work, conceptual portraits, onstage and informal behind-the-scenes images, giving a rare insight into Manson's

An outstanding novel
about a young Russian
woman's life in exile
after the Russian
Revolution. The Book
of Happiness is one of
the outstanding novels
the great Russian
writer Nina Berberova
wrote during the years
she lived in Paris, and
the most
autobiographical. All

Berberova's characters
live raw, unfurnished
lives, in poverty, on the
edge of cities, with
little sense of
belonging except in
moments of
epiphany to their time
and in life itself (The
Observer). Such a
character is Vera, the
protagonist of The
Book of Happiness. At
the novel's opening,
Vera is summoned to
the scene of a suicide,
that of her childhood
companion, Sam Adler,
whose family left
Russia in the early
days of the revolution
and whom Vera has
not seen in many
years. His death
reduces Vera to a flood
of tears and memories
of the times before
Sam's departure, and
thoughts about how
her life has gone
since her move to Paris
where she lives tied to

a brilliant but demanding invalid husband. Berberova spins the story with a wonderful unsentimental poignancy, making it a beautiful testament to the indestructibility of happiness.

It's a vanished world, and Peter Hugar was right there in it. The Lower East Side between 1972 and

1985 - filled with artists, wannabe artists and hangers-on - was a community of the misbegotten gathered from every town in America and relocated in the mean streets between Broadway and the Bowery. Nothing but their talent, their flamboyance, their rank gender-bending mockery and their arch irony supported them. Some made their names. Many came to grief. A few made art. In those days, the gutted streets of the Lower East Side looked like a war zone. Everyone lived and worked on the extreme outer margins of money and art, penniless and unknown. As a community, Downtown was a counterstatement to the rich New York of

the banks, museums, media, corporations ... and the art world itself. That Downtown is forever gone. Time, gentrification, disease and death have taken their toll and turned this vibrant epoch into a chapter of art history. But before it vanished, its extravagant cast sat for Peter Hugar's camera - and is now alive again in front of our eyes. Featured among others: Joe Brainard, William Burroughs, Remy Charlip, Edwin Denby, Divine, Ray Johnson, Fran Lebowitz, Charles Ludlum, Susan Sontag, Paul Thek, John Waters, Robert Wilson, David Wojnarowicz. Mobility is fundamental to economic and social activities such as

commuting, manufacturing, or supplying energy. Each movement has an origin, a potential set of intermediate locations, a destination, and a nature which is linked with geographical attributes. Transport systems composed of infrastructures, modes and terminals are so embedded in the socio-economic life of individuals, institutions and corporations that they are often invisible to the consumer. This is paradoxical as the perceived invisibility of transportation is derived from its efficiency. Understanding how mobility is linked with geography is main the purpose of this book. The third edition of *The Geography of Transport Systems* has

been revised and updated to provide an overview of the spatial aspects of transportation. This text provides greater discussion of security, energy, green logistics, as well as new and updated case studies, a revised content structure, and new figures. Each chapter covers a specific conceptual dimension including networks, modes, terminals, freight transportation, urban transportation and environmental impacts. A final chapter contains core methodologies linked with transport geography such as accessibility, spatial interactions, graph theory and Geographic Information Systems for transportation (GIS-T). This book provides a comprehensive and

accessible introduction to the field, with a broad overview of its concepts, methods, and areas of application. The accompanying website for this text contains a useful additional material, including digital maps, PowerPoint slides, databases, and links to further reading and websites. The website can be accessed at: <http://people.hofstra.edu/geotrans> This text is an essential resource for undergraduates studying transport geography, as well as those interest in economic and urban geography, transport planning and engineering.
