BOONE GUADALUPE		The Crisis of Crowding Bloomsbury Yearbooks
<i>Platform Scale</i> ABRAMS		"A lot has happened in the financial markets since 1992, when Peter Bernstein wrote his seminal <i>Capital Ideas</i> . Happily, Peter has taken up his facile pen again to describe these changes, a virtual revolution in the practice of investing that relies heavily on complex mathematics, derivatives, hedging, and hyperactive trading. This fine and eminently readable book is unlikely to be surpassed as the definitive chronicle of a truly historic era." John C. Bogle, founder of The Vanguard Group and author, <i>The Little Book of Common Sense Investing</i> "Just as Dante could not have understood or survived the perils of the Inferno without Virgil to guide him, investors today need Peter Bernstein to help find their way across dark and shifting ground. No one alive understands Wall Street's intellectual history better, and that makes Bernstein our best and wisest guide to the future. He is the only person who could have written this book; thank goodness he did." Jason Zweig, Investing Columnist, <i>Money</i> magazine "Another must-read from Peter Bernstein! This well-written and thought-provoking book provides valuable insights on how key finance theories have evolved from their ivory tower formulation to profitable application by portfolio managers. This book will certainly be read with keen interest by, and undoubtedly influence, a wide range of participants in international finance." Dr. Mohamed A. El-Erian, President and CEO of Harvard Management Company, Deputy Treasurer of Harvard University, and member of the faculty of the Harvard Business School "Reading <i>Capital Ideas Evolving</i> is an experience not to be missed. Peter Bernstein's knowledge of the principal characters-the giants in the development of investment theory and practice-brings this subject to life." Linda B. Strumpf, Vice President and Chief Investment Officer, The Ford Foundation "With great clarity, Peter Bernstein introduces us to the insights of investment giants, and explains how they transformed financial theory into portfolio practice. This is not just a tale of money and models; it is a fascinating and contemporary story about people and the power of their ideas." Elroy Dimson, BGI Professor of Investment Management, London Business School " <i>Capital Ideas Evolving</i> provides us with a unique appreciation for the pervasive impact that the theory of modern finance has had on the development of our capital markets. Peter Bernstein once again has produced a masterpiece that is must reading for practitioners, educators and students of finance." Andr F. Perold, Professor of Finance, Harvard Business School

Contributions by Surpik Angelini, Laura Hoptman, David Levi Strauss.		Artificial Intelligence is transforming every industry, but if you want to win with AI, you have to put it first on your priority list. AI-First companies are the only trillion-dollar companies, and soon they will dominate even more industries, more definitively than ever before. These companies succeed by design--they collect valuable data from day one and use it to train predictive models that automate core functions. As a result, they learn faster and outpace the competition in the process. Thankfully, you don't need a Ph.D. to learn how to win with AI. In <i>The AI-First Company</i> , internationally-renowned startup investor Ash Fontana offers an executable guide for applying AI to business problems. It's a playbook made for real companies, with real budgets, that need strategies and tactics to effectively implement AI. Whether you're a new online retailer or a Fortune 500 company, Fontana will teach you how to: <ul style="list-style-type: none">Identify the most valuable data; Build the teams that build AI; Integrate AI with existing processes and keep it in check; Measure and communicate its effectiveness; Reinvest the profits from automation to compound competitive advantage. If the last fifty years were about getting AI to work in the lab, the next fifty years will be about getting AI to work for people, businesses, and society. It's not about building the right software -- it's about building the right AI. <i>The AI-First Company</i> is your guide to winning with artificial intelligence.

Charles Paul de Kock (1793-1871) was a French novelist and playwright. Facsimile reprint of "The Works of Charles Paul de Kock: Gustave" featuring both volumes of "Gustave."		With 28 objects to count and find in each illustrated animal scene, this lively search-and-find puzzle book with gatefold flaps is positively packed with interactive fun! Peek under the flap to reveal the flock of birds in the sky, or troop of monkeys in the Amazon rain forest. Then seek all sorts of objects hidden in the animal crowd. Can you find two top hats and five paper planes? Children will want to go back again and again to each of Charlotte Milner's intricately illustrated animal gatherings, and they'll discover something new every time! There are fabulous facts and things to learn along the way, such as animal collective nouns, and how monkeys keep each other clean. Children can lift the flap to reveal an army of ants busy at work, or a school of fish passing through the colorful coral reef, and they'll discover why some animals work best as a team. Peek and Seek's combination of gentle learning with fun activities, will enable little ones to develop their hand-eye coordination, counting and observational skills, all the while being engaged and having fun!
Balenciaga Paris Fountain Books		Cloud-net Variations on the Theme of an
A woman loses her job as editor of the national newspaper and then finds her efforts to instill her daughter with a sense of dignity and independence threatened by an oppressive government and the traditions of conservative Islam.		<i>The Holy Fire: The Teachings of Rabbi Kalonymus Kalman Shapira, the Rebbe of the Warsaw Ghetto</i> is a journey into the mind and spirit of a sublime hasidic master in his moments of joy and tranquility, and later, in his time of personal and communal catastrophe. The reader takes a voyage into the rich and variegated world of twentieth-century Hasidism in Poland, a world destroyed by the Holocaust. This is a volume inspired by a deeply sensitive and poetic individual of faith who is grappling with an unfolding disaster. While the Holocaust has engendered a voluminous body of religious and philosophical writings attempting to probe the issues this unfathomable period raises in all their enormity, virtually all were written after the war, when a modicum of distance and reflection is possible. Contemporaneous diaries and chronicles written as the events were happening concentrate on the descriptive accounts of the horrors. <i>The Holy Fire</i> , however, engages a sustained theological reflection and stands alone as an extended religious response from within the heart of darkness itself while the catastrophe takes place, and is, for this reason, an extraordinary document and an astonishing personal achievement.
<i>Lovett/Codagnone. Ediz. italiana e inglese</i> Prestel		
Poetry/Performance. Latino/Latina Studies. Art. Edited by Rosa Alcalá. SPIT TEMPLE collects texts and transcriptions of Vicuna's uncategorizable improvised performances, which combine singing, movement, chants, and stories. Also included are a critical introduction by Rosa Alcalá, a poetic memoir by Vicuna (translated by Alcalá) addressing her life		
<i>Pierre Bonnard Art in General</i>		
Where were you when John F. Kennedy was shot? Today the answer more often than not is going to be 'not born'. You have to be some way past 45 to know where you were when Kennedy was shot in Dallas in 1963. A generation later, you could ask the same question about the World Trade Centre. Where were you when the plane hit the twin towers on 11 September 2001? But this book is about what happened between those two moments. The world's perception of America changed between those two waves. AA Gill's book is about the things he's always found admirable and optimistic about the United States and its citizens. Two of the happiest times of his life were spent living in New York and the mountains of Kentucky. The contrast between the two couldn't have been more complicated and different. The America he found was contradictory and elusive, not the simpletons' place he'd been led to believe. It was still a list of raw ingredients rather than the old stew of Europe. Now AA Gill takes another look at the America he knew in the Seventies, a place that seemed to hold promise, practical energy and a plan for the future. How did it become the political magnetic north against which the liberal intellectuals from the rest of the world set their opinions. Why is it so easily mocked, so comprehensively blamed, so thoughtlessly hated? The book is a collection of linked essays based around places that will open up truths and mythologies about America and Americans. The theme of his journey will be searching for 'the home of'. Every other small town in America boasts on its Welcome sign that it is the home of something or other. A mountain, a mine, peaches, spotted pigs, a president, the world's biggest ball of string, barbeques, the deepest hole. So that's where AA Gill starts, going to find the home of everything.		
<i>Whitaker's Almanack 1869</i> Freedom Press (CA)		
'The Almanack is essentially a Household Book. From it is derived the knowledge ordinarily possessed of the Course of the Seasons, and other Astronomical phenomena, the nature of our Constitution, and the statistics of our Ecclesiastical, Legal, Naval, and Military systems. In addition to all such information, herein given in an unusually full and complete manner, the reader will discover other and important features not hitherto easily obtainable. He is referred, for instance, to the summaries of the Public Income and Expenditure, the proceedings of Parliaments during the last Session; to Scientific Discoveries and Inventions of the Year; to the Trade, Commerce, and Finance of the Kingdom; and to the particulars of our Municipal and Social Institutions...a clear and concise account of India, Australia, Canada and other possessions, together with a similar description of Foreign Countries' (December 10, 1868) So wrote Joseph Whitaker in the introduction to his very first edition of <i>Whitaker's Almanack</i> , published in 1868. One hundred and forty six years later Whitaker's is still published annually and its remit has remained remarkably unchanged. Alongside the calendar and astronomical data associated with an almanack, it provides a comprehensive overview of all aspects of UK infrastructure, a detailed digest of every country of the world and an overview of the events and discoveries of the past year.		
In Pursuit of the Perfect Portfolio Wildside Press LLC		
This wide ranging selection of essays by a renowned English scholar explores American history, literature, and culture. Many aspects and periods of American history, life, and thought are examined: military, political, biographical, comparative, and more. The text is scholarly, yet readable. The essays cover the young nation, George Washington, European attitudes toward the United States and vice versa, anti-Americanism, and American writers. This work is invaluable as supplemental reading for courses in American history, American literature, and American studies. In <i>Search of America</i> devotes an entire section to the early problems of the young nation in achieving intellectual and artistic, as well as political, independence. Military, biographical, and other aspects of George Washington provide thought-provoking material. The temperament and talent of American writers,		

Building the Nation and Other Poems Princeton University Press

First published in 1984, this is unfortunately, still rather relevant. A serious look at strategies against war, which involve confronting institutions such as the state, bureaucracy, the military and patriarchy, as opposed to lobbying, rallies and civil disobedience. Some of the alternative directions examined are social defense, peace conversion, and building self-managing political and economic institutions.

Why Startups Fail Catapult

How the greatest thinkers in finance changed the field and how their wisdom can help investors today Is there an ideal portfolio of investment assets, one that perfectly balances risk and reward? In Pursuit of the Perfect Portfolio examines this question by profiling and interviewing ten of the most prominent figures in the finance world—Jack Bogle, Charley Ellis, Gene Fama, Marty Leibowitz, Harry Markowitz, Bob Merton, Myron Scholes, Bill Sharpe, Bob Shiller, and Jeremy Siegel. We learn about the personal and intellectual journeys of these luminaries—which include six Nobel Laureates and a trailblazer in mutual funds—and their most innovative contributions. In the process, we come to understand how the science of modern investing came to be. Each of these finance greats discusses their idea of a perfect portfolio, offering invaluable insights to today’s investors. Inspiring such monikers as the Bond Guru, Wall Street’s Wisest Man, and the Wizard of Wharton, these pioneers of investment management provide candid perspectives, both expected and surprising, on a vast array of investment topics—effective diversification, passive versus active investment, security selection and market timing, foreign versus domestic investments, derivative securities, nontraditional assets, irrational investing, and so much more. While the perfect portfolio is ultimately a moving target based on individual age and stage in life, market conditions, and short- and long-term goals, the fundamental principles for success remain constant. Aimed at novice and professional investors alike, In Pursuit of the Perfect Portfolio is a compendium of financial wisdom that no market enthusiast will want to be without.

WN 62 Praeger

"The Case for Bureaucracy" vigorously makes the argument that the public servants and administrative institutions of government in America are among the best in the world. Contrary to popular myth, they are not sources of great waste or threat to liberty, but social assets of critical value to a functioning democracy. In presenting his case, Goodsell covers many aspects of public administration and draws on current events to bring the material alive and up-to-date. This new edition incorporates September 11th and its consequences for public administration. Also a complete assessment is made of the Reinventing Government movement and related reforms.

Peek and Seek Bloomsbury Publishing

The letters exchanged between Pierre Bonnard and Henri Matisse from 1925 to 1946 attest to a 40-year friendship between two of the most important artists of the 20th century. This volume documents an extraordinary correspondence between two great masters who respected and liked one another.

The London Naturalist National Geographic Books

This book explores two main periods in depth when Cristobal Balenciaga made his name during Paris's golden age of fashion from 1937-1968, and then charting the dramatic revival of the House of Balenciaga under Nicolas Ghesquiere, one of the most widely admired and celebrated new designers in contemporary fashion.

Presenting a survey of mixed media art pieces by artists John Lovett and Alessandro Codagnone, this book documents their entire creative collaborations.

Looking Into Paintings Currency

"My favorite book of the year."—Doug McMillon, CEO, Wal-Mart Stores Harvard Business School Professor of Strategy Bharat Anand presents an incisive new approach to digital transformation that favors fostering connectivity over focusing exclusively on content. NAMED ONE OF THE BEST BOOKS OF THE YEAR BY BLOOMBERG Companies everywhere face two major challenges today: getting noticed and getting paid. To confront these obstacles, Bharat Anand examines a range of businesses around the world, from The New York Times to The Economist, from Chinese Internet giant Tencent to Scandinavian digital trailblazer Schibsted, and from talent management to the future of education. Drawing on these stories and on the latest research in economics, strategy, and marketing, this refreshingly engaging book reveals important lessons, smashes celebrated myths, and reorients strategy. Success for flourishing companies comes not from making the best content but from recognizing how content enables customers’ connectivity; it comes not from protecting the value of content at all costs but from unearthing related opportunities close by; and it comes not from mimicking competitors’ best practices but from seeing choices as part of a connected whole. Digital change means that everyone today can reach and interact with others directly: We are all in the content business. But that comes with risks that Bharat Anand teaches us how to recognize and navigate. Filled with conversations with key players and in-depth dispatches from the front lines of digital change, The Content Trap is an essential new playbook for navigating the turbulent waters in which we find ourselves. Praise for The Content Trap “A masterful and thought-provoking book that has reshaped my understanding of content in the digital landscape.”—Ariel Emanuel, co-CEO, WME | IMG “The Content Trap is a book filled with stories of businesses, from music companies to magazine publishers, that missed connections and could never escape the narrow views that had brought them past success. But it is also filled with stories of those who made strategic choices to strengthen the links between content and returns in their new master plans. . . . The book is a call to clear thinking and reassessing why things are the way they are.”—The Wall Street Journal
