Leonardo da Vinci's scientific explorations were virtually unknown during his lifetime, despite their extraordinarily wide range. He studied the flight patterns of birds to create some of the first human flying machines; designed military weapons and defenses; studied optics, hydraulics, and the workings of the human circulatory system; and created designs for rebuilding Milan, employing principles still used by city planners today. Perhaps most importantly, Leonardo pioneered an empirical, systematic approach to the observation of nature-what is known today as the scientific method. Drawing on over 6,000 pages of Leonardo's surviving notebooks, acclaimed scientist and bestselling author Fritjof Capra reveals Leonardo's artistic approach to

scientific knowledge and his organic and ecological worldview. In this fascinating portrait of a thinker centuries ahead of his time, Leonardo singularly emerges as the unacknowledged “father of modern science.” From the Trade Paperback edition.

Rip This Book MavenMark Books

RIP This Book is a creative activity book with prompts to draw, doodle, paint stick, rip, collage, wreck and inspire creativity. Discover fun new ways to create, get messy and enjoy the process of making art. Do you often feel like you want to scribble all over the page, draw outside the lines and make messy art like you did when you were a little kid? Do you feel intimidated by beautifully pristine art journals? Is your creative spark stifled by the pressure to be neat and produce 'proper' art? Or are you a parent looking for a creative gift to encourage screen free time? Then this book is for you! RIP This Book is your invitation to make a beautiful mess, be perfectly imperfect and free yourself of your creative shackles. Embrace the

messy, fun, juvenile art you used to love and don't worry if you wreck this book in the process. Remember those days in preschool when art was all about having fun, trying out new textures, processes and materials and getting really messy in the process? Striving for a perfect end result was never the goal..... It was all about experimenting, having fun, and the freedom to explore new ways to be creative. RIP This Book is filled with arty, crafty, creative challenges to take you on a journey of creativity, back to those finger painting days in preschool where you did leaf rubbings and butterfly pictures and came home covered in paint glue and glitter. Rediscover your creative roots and fall in love with your arty crafty side all over again (just don't eat the paint this time!) Get ready to

smudge, smear, scratch and sprinkle your creative glitter all over the pages of this book. It's time to rest your intentions and make creativity about the process and not the end result. WARNING: This creative journal may get ruined on purpose. Do I really have to RIP the book? I like ripping because it feels uncontrolled, impulsive and a little bit 'naughty', like it's against the rules, and the results aren't always predictable- that chimes with my ethos for this book. A couple of prompts which involve ripping or cutting the pages of the book in a creative way but it isn't all about ripping..... The title RIP this book is also a play on R.I.P (Rest In Peace) because the book is going to get messy, wrecked or completely destroyed through the creative process and will never look the

same again. The final challenge is to create an obituary for the book- a kind of celebration of the book and a look back on it's journey.

A groundbreaking manifesto decoding the phenomenon of genius through the life of Jesus of Nazareth, revealing the untapped potential within every human being—from the bestselling author of *The Artisan Soul*, *The Last Arrow*, and *The Way of the Warrior*. “IF ALL GENIUS IS TOUCHED BY MADNESS, THEN IT IS ALSO TOUCHED BY THE DIVINE.” In every realm of our existence—art, science, technology, mathematics—we

are captivated by stories of genius. Geniuses violate the status quo, destabilize conventional ways of thinking, and ultimately disrupt history by making us see the world differently. Genius is that rare expression of human capacity that seems to touch the divine. Jesus of Nazareth is undeniably one of the most influential figures ever to have walked the face of the earth. Yet his life as a work of genius has yet to be excavated and explored. In *The Genius of Jesus*, Erwin Raphael McManus examines the person of Jesus not simply through the lens of his divinity, but as a man who radically changed the possibility of what it means to be human. Drawing on the phenomenon of genius and the phenomenon of Jesus, McManus leads us to see this momentous figure in

a new and life-altering way. Genius always leaves clues, and *The Genius of Jesus* follows those clues so that you can discover your own personal genius. McManus dives into the nuances of Jesus's words and actions, showing how they can not only inspire us but revolutionize how we think about power, empathy, meaning, beauty, and truth.
