Chick Life Cycle Blastoff! Readers

Each title follows the life of an animal or plant as it changes. Magnified photographs, labeled photos, and an imaginative use of images give these books a decided visual edge, while delivering information that is comprehensible and curriculum relevant. Boxed information on habitats and predators connect to other areas of science curriculum.

Chicks and Chickens (CD) Turtleback

Baby chickens hatch from eggs. Chicks weigh about as much as a dozen pennies. But did you know that chicks can find their mom by the sound of her clucks? Or that chicks roll in the dust to clean themselves? Read this book to find out! This title also includes a life cycle diagram, a habitat map, fun facts, a glossary, and more!

Diary of a Spider Enslow Elementary

When a family brings home chicks from a local farm, they must do everything they can to make sure their feathered friends thrive in their new environment. With the help of their knowledgeable parents, the children provide the baby chicks with food, water, warmth, and proper shelter. Young readers will chirp along happily page after page, learning to read as they watch the fuzzy little

chicks grow into downy adult chickens, who will eventually lay eggs of their own! Step 1 readers have big type and easy words, rhyme and rhythm, and picture clues, for children who know the alphabet and are ready to read.

**One Hen** Lerner Publications™

Introduces the mating, hatching, life cycle, eating, predators, and lifespan of chickens.
