The Americana Phillipa Nefri Clark
A new start, a new home. Christie's life is so happy now, until the past comes calling. When those she loves are threatened, will her own life be the one thing she can't save?

Deep River Phillipa Nefri Clark
Moving to America turns H&à's life inside out. For all the 10 years of her life, H&à

has only known Saigon: the thrills of its markets, the joy of its traditions, the warmth of her friends close by, and the beauty of her very own papaya tree. But now the Vietnam War has reached her home. H&à and her family are forced to flee as Saigon falls, and they board a ship headed toward hope. In America, H&à discovers the foreign world of Alabama: the coldness of its strangers, the dullness of its food, the strange shape of its landscape, and the strength of her very own family. This is the moving story of one girl's year of change, dreams, grief, and

healing as she journeys from one country to another, one life to the next.

The New York Times Magazine Harper Collins

There's a wedding around the corner, until Randall sniffs out a body in the sea... The last thing Daphne Jones expects to see as she stands on Rivers End jetty, practicing the ceremony for a wedding, is a body floating by. Suspicion falls on her friend Christie when the deceased is identified as an ex-employee, a woman who left under a cloud. Nobody who knows Christie believes she's responsible - except the police. Roping in best friend, Elizabeth,

Daphne sets out to run her own investigation. Why was the deceased dressed in winter clothing on a summer's day? And why had she begged Christie to meet her late at night? With the police about to arrest Christie, Daphne races to find evidence to exonerate her, as well as lead to the real killer. Will the wedding be postponed and the wrong person arrested? Not if Daphne can solve the puzzle in time.

Christie is happy in her life... or so she tells herself. Despite a tragic childhood, she has built a satisfying career and loves her city apartment. But deep down she yearns for a simpler life. Family. A garden. And a place to heal her heart. The decision to attend a funeral in a town she's never heard of throws her safe world into disarray, exposing the cracks in her life. As she deals with the fallout, Christie moves into a rundown cottage she's inherited and there, makes a discovery. A damaged painting. Unworn wedding rings. And a shoebox full of unopened love letters. Fifty years ago, a heartbroken young artist waited each dawn on a jetty for his true love to return. And each night, he wrote

her a love letter. What Christie uncovers will change her life forever. This is a beautiful tale of love - sometimes lost, sometimes found and sometimes both. This is also a book with a mystery to solve which keeps your interest in the story. The author did an amazing job writing this book. The characters were well developed, the story was unique, and the descriptions helped you to feel the emotions, smell the scents, and visualize the persons, places and objects. I highly recommend this book if you enjoy romance with a bit of mystery and a HEA. Karen Thurmer. Recommended reading order: *The Stationmaster's Cottage* *Jasmine Sea* *The Secrets of Palmerston House* *The Christmas Key* *The History of South Carolina Under the Proprietary Government, 1670-1719, VOLUME 1* Phillipa Nefri Clark Before 1947, when Marjory Stoneman Douglas named The Everglades a "river of grass," most people considered the area worthless. She brought the world's attention to the need to preserve The Everglades. In the Afterword, Michael Grunwald tells us what has happened to them since then. Grunwald points out that in 1947 the government was in the midst

of establishing the Everglades National Park and turning loose the Army Corps of Engineers to control floods--both of which seemed like saviors for the Glades. But neither turned out to be the answer. Working from the research he did for his book, *The Swamp*, Grunwald offers an account of what went wrong and the many attempts to fix it, beginning with *Save Our Everglades*, which Douglas declared was "not nearly enough." Grunwald then lays out the intricacies (and inanities) of the more recent and ongoing CERP, the hugely expensive Comprehensive Everglades Restoration Plan.

A "beautifully written, poignant exploration of family, art, culture, immigration...and love" (Jean Kwok, author of *Searching for Sylvie Lee* and *Girl in Translation*) set against the backdrop of China's Cultural Revolution that follows a father's quest to reunite his family before his precocious daughter's momentous birthday, which Garth Greenwell calls "one of the most beautiful debuts I've read in years." How many times in life can we start over without losing ourselves? In the

summer of 1986, in a small Chinese village, ten-year-old Junie receives a momentous letter from her parents, who had left for America years ago: her father promises to return home and collect her by her twelfth birthday. But Junie's growing determination to stay put in the idyllic countryside with her beloved grandparents threatens to derail her family's shared future. Junie doesn't know that her parents, Momo and Cassia, are newly estranged from one another in their adopted country, each holding close private tragedies and histories from the tumultuous years of their youth during China's Cultural Revolution. While Momo grapples anew with his deferred musical ambitions and dreams for Junie's future in America, Cassia finally begins to wrestle with a shocking act of brutality from years ago. For Momo to fulfill his promise, he must make one last desperate attempt to reunite all three family members before Junie's birthday—even if it means bringing painful family secrets to light. *Swimming Back to Trout River* is a "symphony of a novel" (BookPage) that weaves together the stories of Junie, Momo, Cassia, and Dawn—a talented violinist from Momo's

past—while depicting their heartbreak and resilience, tenderly revealing the hope, compromises, and abiding ingenuity that make up the lives of immigrants. Feng's debut is "filled with tragedy yet touched with life-affirming passion" (Kirkus Reviews, starred review), and "Feng weaves a plot both surprising and inevitable, with not a word to spare" (Booklist, starred review).

Is this a cruel coincidence or a well-laid trap, planned for decades? Haunted by the last words of her niece, Liz makes a promise to both girls.

She'll do whatever it takes to bring them home. Even if it means risking her career. And her life.

Till Daph Do Us Part Phillipa Nefri Clark Daphne Jones loves a romance and nothing makes her heart happier more than officiating a wedding. A remote park in a valley in the majestic Otway Ranges is the perfect setting for her clients to say, "I do". And even better is the prospect of spending the first night ever camping in their new caravan with her husband, John. But not everyone is there to celebrate with the newlyweds. After an unpleasant altercation during the reception, someone is found dead in the camping ground where all the guests are staying. And John is the prime suspect. Determined to prove his innocence and alarmed that the real killer is still out there, Daphne grabs her notebook and begins her own investigation. But the killer is among them and following her suspect is about to land her in a whole lot of trouble. The Daphne Jones Mysteries are later in life camping cozies with a travelling wedding officiant and a regional, small-town Aussie twist. A light and quirky story with a nosy main character. Time of Daph fits between Daph

on the Beach and Till Daph Do Us Part but can be read on its own.

The fact that there was a beautiful dog in this series drew me in. Absolutely loved this series from start to finish. Maria Boczan. The funeral of her last family member brings Christie to the seaside town of Rivers End, far from her city life and high flying career. Inheriting a rundown cottage is yet another problem to deal with until the discovery of a shoebox of memories draws her into a

heartbreaking mystery. Martin is a reclusive artist with no interest in helping the beautiful stranger who comes to him with questions. The past is too painful to revisit and Christie's theories about unopened love letters is too close to the truth. As much as he's drawn to her, she doesn't belong here. There's a whole town full of long-hidden mysteries, quirky characters, heartwarming relationships, and a dog called Randall, who holds everyone together Inside: The Stationmaster's Cottage (with bonus alternative POV chapter) Jasmine Sea The Secrets of Palmerston House The Christmas Key Martha (the missing years short story)
