Arthur Eckstein's fresh and stimulating interpretation challenges the way Polybius' Histories have long been viewed. He argues that Polybius evaluates people and events as much from a moral viewpoint as from a pragmatic, utilitarian, or even "Machiavellian" one. Polybius particularly asks for "improvement" in his audience, hoping that those who study his writings

will emerge with a firm determination to live their lives nobly. Teaching by the use of moral exemplars, Polybius also tries to prove that success is not the sole standard by which human action should be judged.

Released for the first time in the English language, and marking the centennial of Albania's independence, Serbs and Albanians delivers an at once refreshing and comprehensive insight into the cultural composition of Southeast Europe. A wider audience can now appreciate the work of Milan Ufflay, a controversial figure of his time whose assassination was denounced by leading intellectuals, Albert Einstein and Heinrich Mann. With a measured and often poetic

voice, ufflay takes us on a journey through the Middle Ages as it unfolded on a land where opposing cultures were distilled and interwoven, dynasts and whole cities upturned and reborn.

A decimated Shiite shrine in Iraq. The smoking World Trade Center site. The scorched cityscape of 1945 Dresden. Among the most indelible scars left by war is the destroyed landscapes, and such architectural devastation damages far more than mere buildings. Robert Bevan argues herethat shattered buildings are not merely “collateral damage,” but rather calculated acts of cultural annihilation. From Hitler’s Kristallnacht to the toppling of Saddam Hussein’s statue in the Iraq War, Bevan

deftly sifts through military campaigns and their tactics throughout history, and analyzes the cultural impact and catastrophic consequences of architectural destruction. For Bevan, these actions are nothing less than cultural genocide. Ultimately, Bevan forcefully argues for the prosecution of nations that purposely flout established international treaties against destroyed architecture. A passionate and thought-provoking cri de coeur, *The Destruction of Memory* raises questions about the costs of war that run deeper than blood and money. “The idea of a global inheritance seems to have fallen by the wayside and lessons that should have long ago been learned are still being recklessly disregarded. This is what makes Bevan’s book relevant, even

urgent: much of the destruction of which it speaks is still under way.”—Financial Times Magazine “The message of Robert Bevan’s devastating book is that war is about killing cultures, identities and memories as much as it is about killing people and occupying territory.”—Sunday Times “As Bevan’s fascinating, melancholy book shows, symbolic buildings have long been targeted in and out of war as a particular kind of mnemonic violence against those to whom they are special.”—The Guardian

In 1979, Edward P. Alexander’s *Museums in Motion* was hailed as a much-needed addition to the museum literature. In combining the history of museums since

the eighteenth century with a detailed examination of the function of museums and museum workers in modern society, it served as an essential resource for those seeking to enter to the museum profession and for established professionals looking for an expanded understanding of their own discipline. Now, Mary Alexander has produced a newly revised edition of the classic text, bringing it the twenty-first century with coverage of emerging trends, resources, and challenges. New material also includes a discussion of the children’s museum as a distinct type of institution and an exploration of the role computers play in both outreach and traditional in-person visits.

relation of inequality between the two countries. Indeed, the violence with which the collapse of the regime is effected and the subsequent opening of the border and the, as a rule, undocumented way of entering Greece, makes this relation even more asymmetrical and places the moving ones in a much more powerless position, as they live and work illegally: their "outlaw" status deprives them of all rights. Legalisation improves their position but does not cancel the structural inequality that characterises the phenomenon of immigration any way, as well as the quality of the immigrant. In any case, the effort of the immigrants to present aspects of identity that would facilitate their position and residence (proofs of Greek roots or

Christian faith, changes of names, etc.) demonstrates, precisely, how they experience this unequal relationship, which is further aggravated by factors pertaining to their otherness.

From Ismail Kadare, winner of the inaugural Man Booker International Prize – a novelist in the class of Coetzee, Pamuk, Márquez, and Rushdie – the stunning new translation of one of his major works. In the early fifteenth century, as winter falls away, the people of Albania know that their fate is sealed. They have refused to negotiate with the Ottoman Empire, and war is now inevitable. Soon enough, dust kicked up by Turkish horses is spotted from a citadel. Brightly coloured banners, hastily constructed minarets, and tens of thousands of men fill the plain below. From this moment on, the world is waiting to hear that the fortress has

fallen. The Siege tells the enthralling story of the weeks and months that follow – of the exhilaration and despair of the battlefield, the constantly shifting strategies of war, and those whose lives are held in the balance, from the Pasha himself to the artillerymen, astrologer, blind poet, and harem of women who accompany him. "Believe me," the general said. "I've taken part in many sieges but this," he waved towards the castle walls, "is where the most fearful carnage of our times will take place. And you surely know as well as I do that great massacres always give birth to great books. You really do have an opportunity to write a thundering chronicle redolent with pitch and blood, and it will be utterly different from the graceful whines composed at the fireside

by squealers who never went to war." Brilliantly vivid, as insightful as it is compelling, *The Siege* is an unforgettable account of the clash of two great civilisations, and a portrait of war that will resonate across the centuries. [Gjurmë gjaku](#) Research Centre for Islamic History Art and Culture Ircica As one of the most popular and beloved farm animals, sheep provide owners with myriad goods from soft wool to fine meat, and, of course, companionship. *Living with Sheep* contains a wealth of knowledge about raising and caring for a flock of sheep, and is written for the would-be farmer, experienced shepherd and those who simply love the animals and the outdoors. This complete guide covers choosing and acquiring a flock of sheep, how to feed and shelter, prevent

illness and treat it if it occurs, handling the breeding and lambing process, gathering wool, and much more. **The Ghost Rider** Fox Chapel Publishing A Stanford University Press classic. *Klan* Martinus Nijhoff Publishers Masterful in its simplicity, *Chronicle in Stone* is a touching coming-of-age story and a testament to the perseverance of the human spirit. Surrounded by the magic of beautiful women and literature, a boy must endure the deprivations of war as he suffers the hardships of growing up. His sleepy country has just thrown off centuries of tyranny, but new waves of domination inundate his city. Through the boy's eyes, we see the terrors of World War II as he witnesses fascist invasions, allied bombings, partisan infighting, and the many faces

of human cruelty—as well as the simple pleasures of life. Evacuating to the countryside, he expects to find an ideal world full of extraordinary things, but discovers instead an archaic backwater where a severed arm becomes a talisman and deflowered girls mysteriously vanish. Woven between the chapters of the boy's story are tantalizing fragments of the city's history. As the devastation mounts, the fragments lose coherence, and we perceive firsthand how the violence of war destroys more than just buildings and bridges.

An eyewitness account of the first major international war-crimes tribunal since the Nuremberg trials, *Twilight of Impunity* is a gripping guide to the

prosecution of Slobodan Milosevic for war crimes, crimes against humanity, and genocide. The historic trial of the “Butcher of the Balkans” began in 2002 and ended abruptly with Milosevic's death in 2006. Judith Armatta, a lawyer who spent three years in the former Yugoslavia during Milosevic's reign, had a front-row seat at the trial. In *Twilight of Impunity* she brings the dramatic proceedings to life, explains complex legal issues, and assesses the trial's implications for victims of the conflicts in the Balkans during the 1990s and international justice more broadly. Armatta acknowledges the trial's flaws, particularly Milosevic's grandstanding and attacks on the institutional legitimacy of the International Criminal Tribunal. Yet she argues that the trial

provided an indispensable legal and historical narrative of events in the former Yugoslavia and a valuable forum where victims could tell their stories and seek justice. It addressed crucial legal issues, such as the responsibility of commanders for crimes committed by subordinates, and helped to create a framework for conceptualizing and organizing other large-scale international criminal tribunals. The prosecution of Slobodan Milosevic in The Hague was an important step toward ending impunity for leaders who perpetrate egregious crimes against humanity.
