Building Toys Routledge

Teaching Recent Global History explores innovative ways to teach world history, beginning with the early 20th century. The authors' unique approach unites historians, social studies teachers, and educational curriculum specialists to offer historically rich, pedagogically innovative, and academically rigorous lessons that help students connect with and deeply understand key events and trends in recent global history.

Highlighting the best scholarship for each major continent, the text explores the ways that this scholarship can be adapted by teachers in the classroom in order to engage and inspire students.

Each of the eight main chapters highlights a particularly important event or theme, which is then complemented by a detailed discussion of a particular methodological approach. Key features include:

- An overarching narrative that helps readers address historical

- Relevant primary documents or artifacts, plus a discussion of a particular historical method well-suited to teaching about them;
- Lesson plans suitable for both middle and secondary level classrooms;
- Document-based questions and short bibliographies for further research on the topic.

This invaluable book is ideal for any aspiring or current teacher who wants to think critically about how to teach world history and make historical discussions come alive for students.

Bungalows AK Press

The building-block has been a familiar and much-loved presence in children's toy-boxes for centuries. In the twentieth century, however, new production techniques allowed it to evolve into a multiplicity of systems which enabled any child to be both architect and skilled builder, capable of constructing realistic and sturdy miniature buildings. This beautifully illustrated book is devoted to British building toys, from the well-known to the more niche brands. Photographs of sets, completed buildings and box art and advertising material

make this book a feast of nostalgia for anyone who grew up in the middle years of the last century, and an invaluable source of information for any collectors who keep the memory of these toys alive today.

When Scotland Was Jewish Penguin
The Mau Mau - the name of a secret society that once struck terror into the hearts of British settlers in Kenya. An episode in history that ended in a State of Emergency, with violent and brutal acts dividing a nation. This is an intensely personal and vivid story of two boys: one black, one white. Once they were friends even though their circumstances are very different. But in a country driven by fear and prejudice, even the best of friends can betray one another . . . Internationally acclaimed and award-winning author Beverley Naidoo explores new territory in this beautifully realized and moving story set in Britain's colonial past.

The Kitchen Boy Bloomsbury Publishing
Modern living began with the homes of the 1950s. Casting aside the privations of the Second World War, American architects embraced the must-have mod-cons: they wrapped fitted kitchens around fridges, washing machines, dishwashers and electric ovens, gave televisions pride of place in the living room, and built integrated garages for enormous space-age cars. So why was this change so radical? In what ways did life change for people moving into these swanky new homes, and why has the legacy of the 1950s home endured for so long? Diane Boucher answers these questions and more in this colorful introduction to the homes that embody the golden age of modern design.

British Tea and Coffee Cups, 1745-1940
Bloomsbury Publishing
"Food anthropologist Miriam Quinones-

Smith's move from New York to Coral Shores, Miami, puts her academic career on hold to stay at home with her young son. Adding to her funk is an opinionated mother-in-law and a husband rekindling a friendship with his ex. Gracias to her best friend, Alma, she gets a short-term job as a Caribbean cooking expert on a Spanish-language morning TV show. But when the newly minted star attends a Women's Club luncheon, a socialite sitting at her table suddenly falls face-first into the chicken salad, never to nibble again. When a second woman dies soon after, suspicions coalesce around a controversial Cuban herbalist, Dr. Fuentes--especially after the morning show's host collapses while interviewing him. Detective Pullman is not happy to find Miriam at every turn. After he catches her breaking into the doctor's apothecary, he enlists her help as eyes and ears to the places he can't access, namely the Spanish-speaking community and the tawny Coral Shores social scene. As the ingredients to the deadly scheme begin blending together, Miriam is on the verge of learning how and why the women died. But her snooping may turn out to be a recipe for her own murder"--
Bourke: Our Yarns Shire Publications
More than five years in preparation, *Lobster at Home* will teach anyone, from the most inexperienced novice to the seasoned professional, to master the art of cooking lobster.

History of Worcestershire Sauce (1837-2012) Bloomsbury Publishing
Children of the 1950s have much to look back on with fondness: Muffin the Mule, Andy Pandy, and Dennis the Menace became part of the family for many, while for others the freedom of the riverbank or railway platform was a haven away from the watchful eyes of parents. The postwar welfare state

offered free orange juice, milk and healthcare, and there was lots to do, whether football in the street, a double bill at the cinema, a game of Ludo or a spot of roller-skating. But there were also hardships: wartime rationing persisted into the '50s, a trip to the dentist was a painful ordeal, and at school discipline was harsh and the Eleven-Plus exam was a formidable milestone. Janet Shepherd and John Shepherd examine what it was like to grow up part of the Baby Boomer generation, showing what life was like at home and at school and introducing a new phenomenon - the teenager.

Uniting a Profession The History Press Series statement from publisher's website.

Burn My Heart Soyinfo Center

It has now been over a century since Frank Hornby invented a toy to amuse his sons and called it Meccano, coining a word which has entered the dictionary as a term in common usage and is now known all over the world. Hornby's vision of an educational toy became the basis of perhaps the most successful British toy business of the twentieth century. Meccano has amused generations of children, encouraging many to become successful engineers. Roger Marriott here explores the long history of Meccano, charting the development of the various sets and components, which for decades have been interchangeable, and explains the endless fascination of this iconic construction toy.

The Gib Bloomsbury Publishing

Let's begin with the basics: violence is an inherent part of policing. The police represent the most direct means by which the state imposes its will on the citizenry. They are armed, trained, and authorized to use force. Like the possibility of arrest, the threat of

violence is implicit in every police encounter. Violence, as well as the law, is what they represent. Using media reports alone, the Cato Institute's last annual study listed nearly seven thousand victims of police "misconduct" in the United States. But such stories of police brutality only scratch the surface of a national epidemic. Every year, tens of thousands are framed, blackmailed, beaten, sexually assaulted, or killed by cops. Hundreds of millions of dollars are spent on civil judgments and settlements annually. Individual lives, families, and communities are destroyed. In this extensively revised and updated edition of his seminal study of policing in the United States, Kristian Williams shows that police brutality isn't an anomaly, but is built into the very meaning of law enforcement in the United States. From antebellum slave patrols to today's unarmed youth being gunned down in the streets, "peace keepers" have always used force to shape behavior, repress dissent, and defend the powerful. *Our Enemies in Blue* is a well-researched page-turner that both makes historical sense of this legalized social pathology and maps out possible alternatives.

Teaching Recent Global History A

Caribbean Kitchen Mystery

A nostalgic look at what it was like to be a housewife in the 1950s Being a housewife in the 1950s was quite different than today. Women were expected to create a spotless home, delicious meals, and an inviting bedroom. From the perils of "courting" to the inevitable list of wedding gifts to the household tips that any self-respecting new wife should know, this book collects heartwarming personal anecdotes from women who embarked on married life during this fascinating post-war period,

providing a trip down memory lane for any wife or child of the 1950s.

1950s Childhood Random House

The 1930s home presented an exciting new way of living for the generation that moved out to the suburbs. Young couples who had previously rented accommodation in urban centers found themselves able to afford new-build homes with hot running water, a bathroom indoors, and even aerials for the wireless already installed. Some four million houses were erected, and interest in interior home decoration boomed. This fully illustrated book introduces the homes that people fell in love with in the 1930s, and the fixtures and fittings that went in them. It is not only a practical and valuable companion for people who own or wish to renovate an inter-war house, but will also appeal to all those interested in period design.

Back In Time For Dinner Simon and Schuster

As Britain moved from austerity to prosperity in the 1950s and 1960s, it became clear that British Railways needed to modernise its equipment and rationalise its network if it was to hold its own in the face of growing competition from road and air transport. After attempting to maintain pre-war networks and technology in the 1950s, a reversal of policy in the 1960s brought line closures, new liveries and the last breath of steam, as Dr Beeching and his successors strove to break even and build a new business from the old. From Britannia to the 'Blue Pullman', Evening Star to Inter-City, Greg Morse takes us through this turbulent twenty-year period, which started with drab prospects and ended with BR poised to launch the fastest diesel-powered train in the world.

Perfect Wives in Ideal Homes

Bloomsbury Publishing

The home of the baby boomers now provides fashion cues for a new generation of householders. This is the perfect summary of the post-war British home.

History of Windham County, Connecticut: 1600-1760 Shire Publications

Key Directions in Legal Education

identifies and explores key contemporary and emerging themes that are significant and heavily debated within legal education from both UK and international perspectives. It provides a rich comparative dialogue and insights into the current and future directions of legal education. The book discusses in detail topics including the pressures on law schools exerted by external stakeholders, the fostering of interdisciplinary approaches and collaboration within legal education and the evolution of discourses around teaching and learning legal skills. It elaborates on the continuing development of clinical legal education as a component of the law degree and the emergence and use of innovative technologies within law teaching. The approach of pairing UK and international authors to obtain comparative insights and analysis on a range of key themes is original and provides both a genuine comparative dialogue and a clear international focus. This book will be of great interest for researchers, academics and post-graduate students in the field of law and legal pedagogy.

The 1960s Home McFarland

This illustrated cookbook features tried-and-true recipes, expert advice, and practical kitchen tips for preparing delicious, ocean-inspired meals. Only the best recipes from the award-winning pages of the Boston Globe made the final cut for New England Seafood

Cookbook, with selections such as salmon burgers with sour cream dill sauce, swordfish with braised fennel in orange juice, Monkfish piccata, and, of course, lobster rolls of every kind. Each chapter ends with innovative signature-dish recipes by some of Boston's top chefs, including Jasper White, Ken Oringer, Ana Sortun, Lydia Shire, Gordon Hamersley, and Jody Adams.

Mango, Mambo, and Murder Penguin UK
The book covers the period 1937-1949, to the formation of the Library Association of Australia. It contains marvellous appendices including short biographies of the major characters (over 120), information about office bearers and statistics.

The 1950s American Home University of Michigan Press

'Perfect Wives in Ideal Homes' reconstructs the real 1950s, through the eyes of the women who lived it. Step back in time to where our grandmothers scrubbed their doorsteps, cared for their families, lived, laughed, loved and struggled. This is their story.

Life on the Circuit with Lincoln Fonthill Media

The popular image of Scotland is dominated by widely recognized elements of Celtic culture. But a significant non-Celtic influence on Scotland's history has been largely

ignored for centuries? This book argues that much of Scotland's history and culture from 1100 forward is Jewish. The authors provide evidence that many of the national heroes, villains, rulers, nobles, traders, merchants, bishops, guild members, burgesses, and ministers of Scotland were of Jewish descent, their ancestors originating in France and Spain. Much of the traditional historical account of Scotland, it is proposed, rests on fundamental interpretive errors, perpetuated in order to affirm Scotland's identity as a Celtic, Christian society. A more accurate and profound understanding of Scottish history has thus been buried. The authors' wide-ranging research includes examination of census records, archaeological artifacts, castle carvings, cemetery inscriptions, religious seals, coinage, burgess and guild member rolls, noble genealogies, family crests, portraiture, and geographic place names.

Classic British Motorcycles UTS ePRESS
In the aftermath of World War II, design was key to a new way of living as carefully thought-out principles were applied to new homes and commercial buildings across the country. From open plan living to new materials in buildings and furnishing, the 1950s marked a bright new era.
