based on the Economist's own updated house style manual, and

is an invaluable companion for everyone who wants to

communicate with the clarity, style and precision for which the

Economist is renowned. As the introduction says, 'clarity of

writing usually follows clarity of thought.' The Economist Style

Guide gives general advice on writing, points out common errors

and clichés, offers guidance on consistent use of punctuation,

abbreviations and capital letters, and contains an exhaustive

range of reference material - covering everything from

accountancy ratios and stock market indices to laws of nature

and science. Some of the numerous useful rules and common

mistakes pointed out in the guide include: \*Which informs, that

defines. This is the house that Jack built. But: This house, which

Jack built, is now falling down. •Discreet means circumspect or

prudent; discrete means separate or distinct. Remember that

"Questions are never indiscreet. Answers sometimes are" (Oscar

Wilde). •Flaunt means display, flout means disdain. If you flout

this distinction you will flaunt your ignorance •Forgo means do

without; forego means go before. •Fortuitous means accidental, not fortunate or well-timed. •Times: Take care. Three times more than X is four times as much as X. •Full stops: Use plenty. They keep sentences short. This helps the reader.
