The image of Poland

has once again been impressed on European consciousness. Norman Davies provides a key to understanding the modern Polish crisis in this lucid and authoritative description of the

nation's history. Beginning with the period since 1945, he travels back in time to highlight the long-term themes and traditions which have influenced present attitudes. His evocative account reveals Poland as the heart of Europe in more than the geographical sense. It is a country where Europe's ideological conflicts are played out in their most acute form: as recent events have emphasized, Poland's fate is of vital concern to European civilization as a whole. This revised and updated edition tackles and analyses the issues arising from the fall of the Eastern Block, and looks at Poland's future within a political climate of democracy and free market.

Postwar Gracewing Publishing

Traces the history of Poland from 1945 to 1982 and examines the social and political life of the country.

Porcelain Penguin

A History of the Christian-Democratic Group and the Group of the European People's Party in the European Parliament.

Heart of Europe

Bolchazy-Carducci Publishers

The definitive history of a powerful family dynasty who dominated Europe for centuries -- from their rise to power to their eventual downfall. In *The Habsburgs*, Martyn Rady tells the epic story of a dynasty and the world it built -- and then lost -- over nearly a millennium. From modest origins, the Habsburgs gained

control of the Holy Roman Empire in the fifteenth century. Then, in just a few decades, their possessions rapidly expanded to take in a large part of Europe, stretching from Hungary to Spain, and parts of the New World and the Far East. The Habsburgs continued to dominate Central Europe through the First World War. Historians often depict the Habsburgs as leaders of a ramshackle empire. But Rady reveals their enduring power, driven by the belief that they were destined to rule the world as defenders of the Roman Catholic Church, guarantors of peace, and patrons of learning. The Habsburgs is the definitive history of a remarkable dynasty that forever changed

Europe and the world. *The Heart of Europe, from the Rhine to the Danube. a Series of Striking and Interesting Views* Cornell University Press
"Heart of Europe" by Ralph Adams Cram
Ralph Adams Cram was a prolific and influential American architect of collegiate and ecclesiastical buildings, often in the Gothic Revival style. His work in architecture also made him privy to other fields, such as history and culture. This book delves into central Europe, particularly between the Seine and the Flanders region. This area served as a confluence for many customs and created a unique melting pot of Europe's cultures. [A Concise History of Switzerland](#) OUP

Oxford

Two French Protestant refugees in eighteenth-century Amsterdam gave the world an extraordinary work that intrigued and outraged readers across Europe. In this captivating account, Lynn Hunt, Margaret Jacob, and Wijnand Mijnhardt take us to the vibrant Dutch Republic and its flourishing book trade to explore the work that sowed the radical idea that religions could be considered on equal terms. Famed engraver Bernard Picart and author and publisher Jean Frederic Bernard produced *The Religious Ceremonies and Customs of All the Peoples of the World*, which appeared in the first of seven folio volumes in 1723. They put religion in

comparative perspective, offering images and analysis of Jews, Catholics, Muslims, the peoples of the Orient and the Americas, Protestants, deists, freemasons, and assorted sects. Despite condemnation by the Catholic Church, the work was a resounding success. For the next century it was copied or adapted, but without the context of its original radicalism and its debt to clandestine literature, English deists, and the philosophy of Spinoza. *Ceremonies and Customs* prepared the ground for religious toleration amid seemingly unending religious conflict, and demonstrated the impact of the global on Western consciousness. In this

beautifully illustrated book, Hunt, Jacob, and Mijnhardt cast new light on the profound insight found in one book as it shaped the development of a modern, secular understanding of religion.

The Shortest History of Europe Princeton University Press

In The Story of Europe, H. E. Marshall begins the tale of the history of Europe starting around 100 B.C. She covers nearly 1500 years, ending around 1600 A.D. The History starts with the fall of the Roman Empire, laying the groundwork for the years to come, and ends with the Reformation. She tells it in a fashion that children are able to understand, and that will keep them interested.

History of the Intellectual Development of Europe Harvard University Press

The idea that with the decline of the Roman Empire Europe entered into some immense 'dark age' has long been viewed as inadequate by many historians. How could a world still so profoundly shaped by Rome and which encompassed such remarkable societies as the Byzantine, Carolingian and Ottonian empires, be anything other than central to the development of European history? How could a world of so many peoples, whether expanding, moving or stable, of Goths, Franks, Vandals, Byzantines, Arabs, Anglo-Saxons, Vikings,

whose genetic and linguistic inheritors we all are, not lie at the heart of how we understand ourselves? The Inheritance of Rome is a work of remarkable scope and ambition. Drawing on a wealth of new material, it is a book which will transform its many readers' ideas about the crucible in which Europe would in the end be created. From the collapse of the Roman imperial system to the establishment of the new European dynastic states, perhaps this book's most striking achievement is to make sense of an immensely long period of time, experienced by many generations of Europeans, and which, while it certainly included catastrophic invasions and

turbulence, also contained long periods of continuity and achievement. From Ireland to Constantinople, from the Baltic to the Mediterranean, this is a genuinely Europe-wide history of a new kind, with something surprising or arresting on every page. The Conservative Party and European Integration since 1945 Oxford [Oxfordshire] ; New York : Oxford University Press An accessible yet thorough look at how historians and social scientists have thought and written about the history of the present-day European Union, and the main themes of their research and debates. Essential reading for historians of Europe and social scientists of the

European Union alike.
The Book That
Changed Europe
Penguin
An innovative and
intriguing look at the
foundations of Western
civilization from two
leading historians; the
first volume in the
Penguin History of
Europe The influence
of ancient Greece and
Rome can be seen in
every aspect of our
lives. From calendars
to democracy to the
very languages we
speak, Western
civilization owes a debt
to these classical
societies. Yet the
Greeks and Romans
did not emerge fully
formed; their culture
grew from an active
engagement with a
deeper past, drawing
on ancient myths and
figures to shape
vibrant civilizations. In
The Birth of Classical

Europe, the latest
entry in the much-
acclaimed Penguin
History of Europe,
historians Simon Price
and Peter Thonemann
present a fresh
perspective on
classical culture in a
book full of revelations
about civilizations we
thought we knew. In
this impeccably
researched and
immensely readable
history we see the
ancient world unfold
before us, with its
grand cast of
characters stretching
from the great Greeks
of myth to the world-
shaping Caesars. A
landmark achievement,
The Birth of Classical
Europe provides insight
into an epoch that is
both incredibly foreign
and surprisingly
familiar.
Heart of Europe Good
Press

Viewed through the political necessities of the nation state, the tumultuous events of the twentieth century and the sentiments at the heart of those events take on a fresh perspective.

imperfections with these old texts, we feel they deserve to be made available for future generations to enjoy.

A Short History of Europe, 1600-1815

Penguin (Non-Classics)

A deadly continental struggle, the Thirty Years War devastated seventeenth-century Europe, killing nearly a quarter of all Germans and laying waste to towns and countryside alike. Peter Wilson offers the first new history in a generation of a horrifying conflict that transformed the map of the modern world. When defiant Bohemians tossed the Habsburg emperor's envoys from the castle windows in Prague in 1618, the Holy Roman Empire struck back with a vengeance. Bohemia was ravaged

by mercenary troops in the first battle of a conflagration that would engulf Europe from Spain to Sweden. The sweeping narrative encompasses dramatic events and unforgettable individuals—the sack of Magdeburg; the Dutch revolt; the Swedish militant king Gustavus Adolphus; the imperial generals, opportunistic Wallenstein and pious Tilly; and crafty diplomat Cardinal Richelieu. In a major reassessment, Wilson argues that religion was not the catalyst, but one element in a lethal stew of political, social, and dynastic forces that fed the conflict. By war's end a recognizably modern Europe had been created, but at what price? The Thirty Years War condemned the

Germans to two centuries of internal division and international impotence and became a benchmark of brutality for centuries. As late as the 1960s, Germans placed it ahead of both world wars and the Black Death as their country's greatest disaster. An understanding of the Thirty Years War is essential to comprehending modern European history. Wilson's masterful book will stand as the definitive account of this epic conflict. For a map of Central Europe in 1618, referenced on page XVI, please visit this book's page on the Harvard University Press website. *The Inheritance of Rome* Penguin UK

This volume provides an up-to-date and comprehensive introduction to British policy in Europe. By exploring the schisms within the party over Europe, through primary source-based history and theoretical discourses of political science, N.J. Crowson gives the reader the best sense of understanding of how and why the Conservative party's policy attitudes to European integration have evolved. The Conservative Party and European Integration since 1945 adopts a thematic line based around two chronological periods, 1945–75 and 1975–2006, and uses different methodological approaches. It explores the shifting stances

amongst Conservatives within an economic, political and international context as the party adjusted to the decline of Britain's world role and the loss of empire. Crowson analyzes Britain's role and relationship with Europe together with the study of the Conservative Party, and deals with economic, commercial and monetary issues, successfully bridging a serious gap in any discussion of the UK's relations with the European Union and appreciation of the political world in which Conservative European policy has been framed and pursued since 1945. This book is recommended for background reading in undergraduate courses in British politics and

European history.
The Strange Death of
Europe Oxford
Paperbacks

An overview of a
European country of
great natural beauty,
emphasizing its rich
cultural traditions.

**A Hole in the Heart
of the World** Harvard
University Press

"The Awakening of
Europe" covers the
reformation in
Germany, the
Netherlands, France,
and England, as well as
the settlement of
colonies in America.

The rise of England and
the Netherlands as sea
powers, and the
corresponding fall of
Spain, as well as the
rise of Russia, Austria,
and the German states
are also presented.

The Last Days of
Europe The Experiment
Despite its position at
the heart of Europe

and its quintessentially
European nature,
Switzerland's history is
often overlooked within
the English-speaking
world. This
comprehensive and
engaging history of
Switzerland traces the
historical and cultural
development of this
fascinating but
neglected European
country from the end
of the Dark Ages up to
the present. The
authors focus on the
initial Confederacy of
the Middle Ages; the
religious divisions
which threatened it
after 1500 and its
surprising survival
amongst Europe's
monarchies; the
turmoil following the
French Revolution and
conquest, which
continued until the
Federal Constitution of
1848; the testing of the
Swiss nation through

the late nineteenth century and then two World Wars and the Depression of the 1930s; and the unparalleled economic and social growth and political success of the post-war era. The book concludes with a discussion of the contemporary challenges, often shared with neighbours, that shape the country today.

Europe Hardpress Publishing

A concise survey that introduces readers to the people, ideas, and conflicts in European history from the Thirty Years' War to the Napoleonic Era. The authors draw on gender studies, environmental history, anthropology and cultural history to frame the essential argument of the work.
