Winner of the Howell Book Prize from the American Anthropological Association and named one of the best science books of 2021 by Science News “DeSilva takes us on a brilliant, fun, and scientifically deep stroll through history, anatomy, and evolution, in order to illustrate the powerful story of how a particular mode of movement helped make us one of the most wonderful, dangerous and fascinating species on

Earth.”—Agustín Fuentes, Professor of Anthropology, Princeton University and author of *Why We Believe: Evolution and the Human Way of Being* “Breezy popular science at its best. . . . Makes a compelling case overall.”—Science News
Blending history, science, and culture, a stunning and highly engaging evolutionary story exploring how walking on two legs allowed humans to become the planet’s dominant species. Humans are the only mammals to walk on two, rather than four legs—a locomotion known as bipedalism. We strive to be upstanding citizens, honor those who stand tall and proud, and take a stand against injustices. We follow in each other’s

footsteps and celebrate a child's beginning to walk. But why, and how, exactly, did we take our first steps? And at what cost? Bipedalism has its drawbacks: giving birth is more difficult and dangerous; our running speed is much slower than other animals; and we suffer a variety of ailments, from hernias to sinus problems. In *First Steps*, paleoanthropologist Jeremy DeSilva explores how unusual and extraordinary this seemingly ordinary ability is. A seven-million-year journey to the very origins of the human lineage, *First Steps* shows how upright walking was a gateway to many of the other attributes that make us human—from our technological abilities, our thirst for exploration, our use of language—and may have laid the foundation for our species' traits of compassion, empathy, and altruism. Moving from developmental psychology labs to ancient fossil sites throughout Africa and Eurasia, DeSilva brings to life our adventure walking on two legs. Delving deeply into the story of our past and the new discoveries rewriting our understanding of human

evolution, *First Steps* examines how walking upright helped us rise above all other species on this planet. *First Steps* includes an eight-page color photo insert.

"The Ambassador's Dog" is a story of the power of serendipitous meetings, the power of dreams, and the power of hope.

Written by retired career diplomat and three-time Ambassador Scott DeLisi and illustrated by award-winning artist, Jane Lillian Vance, it tells the tale of a puppy, abandoned and alone, who waited on a trail in what once was the ancient kingdom of Lo on the Tibetan plateau. And it's the tale of the man who was meant to cross his path. It's more than just another dog story, though. It's an important reminder, at a difficult time, that there is compassion and courage and hope to be found in the world if only our hearts are open to seeing them

Sprawling through the woods and towns of the Appalachian mountains, the trail carries the trio through real and fanciful ups and downs ranging from hilarious to perilous. Much more than an orderly account of mountain tops and meals, it is an adventure about friends figuring things out as they go. It's about screw-ups and solutions, awe and inspiration. Hiking Logbook

Rowman & Littlefield Israel has one of the most extensive and highly developed hiking trail systems of any country in the world. Millions of hikers use the trails every year during holiday breaks, on mandatory school trips, and for recreational hikes. Walking the Land offers

the first scholarly exploration of this unique trail system. Featuring more than ten thousand kilometers of trails, marked with hundreds of thousands of colored blazes, the trail system crisscrosses Israeli-controlled territory, from the country's farthest borders to its densest metropolitan areas. The thousand-kilometer Israel National Trail crosses the country from north to south. Hiking, trails, and the ubiquitous three-striped trail blazes appear everywhere in Israeli popular culture; they are the subjects of news articles, radio programs, television shows, best-selling novels, government debates, and even national security speeches. Yet the trail system is almost completely unknown to the millions of foreign tourists who visit every year and has been largely unstudied by scholars of Israel. *Walking the Land* explores the many ways that Israel's hiking trails are significant to its

history, national identity, and conservation efforts. *The Best of the Appalachian Trail Day Hikes* Moon Travel Experience Israel through new eyes as you join Aryeh Green on a 680-mile journey through the wilds of the promised land. Following a devastating divorce, the author decided to pack a few belongings and hike the Israel National Trail alone.

“In the well-written, laugh-out-loud, self-deprecating spirit of Bill Bryson’s *A Walk In the Woods* and Nora Ephron’s *When Harry Met Sally*, Dan White takes us along for a walk on the wild side of adventure and love. I couldn’t put it down.”
—Eric Blehm, National Outdoor Book Award-winning author of *The Last Season* When Dan White and his girlfriend Melissa set out to hike the Pacific Crest Trail, which stretches from Mexico to Canada through boiling desert and snowcapped

mountain passes, his parents wondered how two people who had never shared an apartment could survive in a tent in the desert. But when Dan and Melissa, dubbed “The Lois and Clark Expedition” by a fellow hiker, quit their doldrum jobs to set out into the wilderness, the hardships of the trail provided these addled adventurers with a crystalline view of the American wilderness, themselves, and each other. In his wickedly funny memoir, Dan White also shares the story of Warren Rogers, who risked ruin to chart the trail during the Great Depression. As he walks in Rogers’ footsteps, he starts to wonder if he’s assumed the man’s bravery—or his insanity. Both hilarious and harrowing, this account of a young couple's hike along the 2,650-mile Pacific Crest Trail is a testament to the power of nature to change us and the power of love to get us through the uphill climbs.
