The economic tipping point for the United States is no longer theoretical. It is a reality today. The country has gone from the world's largest creditor to its greatest debtor; the value of the dollar is sinking; domestic manufacturing is winding down - and these trends don't seem to be slowing. Peter Schiff casts a sharp, clear-sighted eye on these factors and explains what the possible effects may be and how investors can protect themselves. For more than a decade, Schiff has not only observed the U.S. economy, but also helped his clients reposition their portfolios to reflect his outlook. What he sees is a nation facing an economic storm brought on by growing federal, personal, and corporate debt, too-little savings, a declining dollar, and lack of domestic manufacturing. Crash-Proof is an informed and informative warning of a looming period marked by sizeable tax hikes, loss of retirement benefits, double digit inflation, even - as happened recently in Argentina - the possible collapse of the middle class. However, Schiff does have a survival plan that can provide the protection that readers will need in the coming years.

A catastrophic, unexplainable plane crash leaves three hundred and thirty dead -- no survivors. Among the victims are the wife and two daughters of Joe Carpenter, a Los Angeles Post crime reporter. A year after the crash, still gripped by an almost paralyzing grief, Joe encounters a woman named Rose, who claims to have survived the crash. She holds out the possibility of a secret that will bring Joe peace of mind. But before he can ask any questions, she slips away. Driven now by rage (have the authorities withheld information?) and a hope almost as unbearable as his grief (if there is one survivor, are there others?), Joe sets out to find the mysterious woman. His search immediately leads him into the path of a powerful and shadowy organization hell-bent on stopping Rose before she can reveal what she knows about the crash. Sole Survivor unfolds at a heart-stopping pace, as a desperate chase and a shattering emotional odyssey lead Joe to a truth that will force him to reassess everything he thought he knew about life and death -- a truth that, given the chance, will rock the world and redefine the destiny of humanity. **BONUS:** This edition contains an excerpt from Dean Koontz's *The City*.

The #1 New York Times bestseller and the true story behind the film: A rugby team resorts to the unthinkable after a plane crash in the Andes. Spirits were high when the Fairchild F-227 took off from Mendoza, Argentina, and headed for Santiago, Chile. On board were forty-five people, including an amateur rugby team from Uruguay and their friends and family. The skies were clear that Friday, October 13, 1972, and at 3:30 p.m., the Fairchild's pilot reported their altitude at 15,000 feet. But one minute later, the Santiago control tower lost all contact with the aircraft. For eight days, Chileans, Uruguayans, and Argentinians searched for it, but snowfall in the Andes had been heavy, and the odds of locating any wreckage were slim. Ten weeks later, a Chilean peasant in a remote valley noticed two haggard men desperately gesticulating to him from across a river. He threw them a pen and paper, and the note they tossed back read: "I come from a plane that fell in the mountains . . ." Sixteen of the original forty-five passengers on the F-227 survived its horrific crash. In the remote glacial wilderness, they camped in the plane's fuselage, where they faced freezing temperatures, life-threatening injuries, an avalanche, and imminent starvation. As their meager food supplies ran out, and after they heard on a patched-together radio that the search parties had been called off, it seemed like all hope was lost. To save their own lives, these men and women not only had to keep their faith, they had to make an impossible decision: Should they eat the flesh of their dead friends? A remarkable story of endurance and determination, friendship and the human spirit, *Alive* is the dramatic bestselling account of one of the most harrowing quests for survival in modern times.

Now, acclaimed award-winning New York Times bestselling novelist David Hagberg and renowned financial reporter Lawrence Light have combined forces to dramatize—hour by hour—how this all-too-real catastrophe could go down in *Crash*. With debt-burdened governments and businesses worldwide about to go bust, a cabal of Wall Street big shots plot to destroy the globe's stock exchanges. To provide that one thing that goes wrong. In 24 hours, a powerful computer worm will smash the exchanges and spark an international panic, pushing a debt-laden world into the abyss. The Wall Street gang's investment bank will be the last one standing, able to make a killing amid the ruins. But one person, who works for their bank as a computer expert, spots the worm embedded deep in its network. Cassy Levin invents a program to destroy the cyber-intruder. Angered by Cassy's discovery, her bosses order her kidnapping. Her boyfriend, a former Navy SEAL, is alarmed at Cassy's disappearance and unravels the plot. Ben Whalen only has until the next morning to save the woman he loves and prevent the economic apocalypse. The gripping true tale of a devastating plane crash, the investigation into its causes, and the race to prevent similar disasters in the future. On July 25, 2000, a Concorde, the world's fastest passenger plane, was taking off from Charles de Gaulle Airport in Paris when it suddenly burst into flames. An airliner capable of flying at more than twice the speed of sound, the Concorde had completed 25 years of successful flights, whisking wealthy passengers--from diplomats to rock stars to corporate titans--between continents on brief and glamorous flights. Yet on this fateful day, the chartered Concorde jet, en route to America, crashed and killed all 109 passengers and crew onboard and four people on the ground. Urgent questions immediately arose as investigators scrambled to discover what had gone wrong. What caused the fire? Could it have been prevented? And, most urgently, was the Concorde safe to fly? *Last Days of the Concorde* addresses these issues and many more, offering a fascinating insider's look at the dramatic disaster, the hunt for clues, and the systemic overhauls that followed the crash.

This account of historical politics in Ukraine, framed in a broader European context, shows how social, political, and cultural groups have used and misused the past from the final years of the Soviet Union to 2020. Georgiy Kasianov details practices relating to history and memory by a variety of actors, including state institutions, non-governmental organizations, political parties, historians, and local governments. He identifies the main political purposes of these practices in the construction of nation and identity, struggles for power, warfare, and international relations. Kasianov considers the Ukrainian case in the context of a global increase in the politics of history and memory, with particular emphasis on a distinctive East-European variety. He pays special attention to the use and abuse of history in relations between Ukraine, Russia and Poland.

"[An] extraordinary tale"—Wall Street Journal "Compelling [and] engaging"—Financial Times "Magnificently detailed yet pacy...Think Trading Places meets Wall Street"—Sunday Times (UK) The riveting story of a trading prodigy who amassed \$70 million from his childhood bedroom—until the US government accused him of helping trigger an unprecedented market collapse On May 6, 2010, financial markets around the world tumbled simultaneously and without warning. In the span of five minutes, a trillion dollars of valuation was lost. The Flash Crash, as it became known, represented what was then the fastest drop in market history. When share values rebounded less than half an hour later, experts around the globe were left perplexed. What had they just witnessed? Navinder Singh Sarao hardly seemed like a man who would shake the world's financial markets to their core. Raised in a working-class neighborhood in West London, Nav was a preternaturally gifted trader who played the markets like a computer game. By the age of thirty, he had left behind London's "trading arcades," working instead out of his childhood home. For years the money poured in. But when lightning-fast electronic traders infiltrated markets and started eating into his profits, Nav built a system of his own to fight back. It worked—until 2015, when the FBI arrived at his door. Depending on whom you ask, Sarao was a scourge, a symbol of a financial system run horribly amok, or a folk hero who took on the tyranny of Wall Street and the high-frequency traders. A real-life financial thriller, *Flash Crash* uncovers the remarkable, behind-the-scenes narrative of a mystifying market crash, a globe-spanning investigation into international fraud, and a man at the center of them both.
