 'Frank Lloyd wright in New York: The Plaza Years, 1954-1959', examines the momentous five-year period when one of the world's greatest architects and one of the world's greatest cities coexisted. Authors Jane Hession and Debra Prickel bring each of these unequalled characters to life, exploring the fascinating contradiction between Wright's often-voiced disdain of New York and his pride and pleasure of living in one of the city's greatest landmarks: the Plaza Hotel. From his suite, or 'Taliesin the Third', as it became known, Wright supervised construction of the Guggenheim, sparred with the New York press, and received many famous vistitors such as Marilyn

Monroe and Arthur Miller. home...;Michael Carroll, a renowned astronomical and paleo artist for more than twenty years, has done work for NASA and the Jet Propulsion Laboratory. His art has appeared in many magazines, including 'Time', 'National Geographic', 'Sky & Telescope', and 'Asimov's Science Fiction'.  "The mid-twentieth century was one of the most productive and inventive periods in Frank Lloyd Wright's career, producing such masterworks as the Guggenheim Museum, Price Tower, Fallingwater, the Usonian Houses, and the Lovness House, as well as a vast array of

innovative furniture and object design. With a wide variety of shapes and forms-ranging from honeycombs to spirals-this period defies simplistic definition. Simplicity, democratic designs, and organic forms characterize Mid-Century Modern, and, mentoring such mid-century talents as Richard Neutra and Rudolph Schindler among others, Wright was one of its most influential proponents. *Frank Lloyd Wright: Mid-Century Modern* is a comprehensive examination of an under-explored period in Wright's career, a time dating from roughly 1935 to 1958, during which this master architect was at his most daring and innovative."--Jacket

Through letters, memoirs, contemporary documents, and a stunning assemblage of photographs - many of which have never before been published - author Ron McCrea tells the fascinating story of the building of Frank Lloyd Wright's Taliesin, which would be the architect's principal residence for the

rest of his life. Photos taken by Wright's associates show rare views of Taliesin under construction and illustrate Wright's own recollections of the first summer there and the craftsmen who worked on the site. The book also brings to life Wright's "kindred spirit," "she for whom Taliesin had first taken form," Mamah Borthwick. Wright and Borthwick had each abandoned their families to be together, causing a scandal that reverberated far beyond Wright's beloved Wisconsin valley. The shocking murder and fire that took place at Taliesin in August 1914 brought this first phase of life at Taliesin to a tragic end.

The widely admired biographer of Bernard Berenson ("A triumph"—Washington Post; "A perfect riot"—Michael Holroyd; "Astonishing"—London Sunday Times) and of Kenneth Clark ("Splendid, enthralling"—The Wall Street Journal) gives us now a complete and complex portrait of an

American titan, Frank Lloyd Wright. Meryle Secrest shows us Frank Lloyd Wright in full scale—the brilliant, outrageous, fascinating man; the giant who changed modern architecture; the standard-bearer for the new, quintessentially American vision, the artist who never, during a seventy-year career, abandoned his principles of design; the radical, the Bohemian—the visionary who was one of the central figures of the twentieth-century American culture, society and politics. Meryle Secrest is the first biographer to have full access to the Frank Lloyd Wright Archives. Her life of the architect, more than five years' work and illustrated with 121 photographs, is a stunning feat of biographical narrative, sustained analysis and compassionate insight. With her extraordinary grasp of the man and his art, she gives us Frank Lloyd Wright close up—a creature of boundless energy and indomitable appetite for experience, a man whose limitless belief in his own rightness carried him through bankruptcy, arrest, fire, divorce, and years of

social ostracism. A riveting portrait of a genius.

For his critics and biographers, the 1930s have always been the most challenging period of Frank Lloyd Wright's career. This account uses the architect's long-inaccessible archives at Taliesin West to provide a balanced evaluation of Wright in the 1930s. It separates Wright's design activities from his self-promotion and places his philosophy of individualism within the context of the times.

The Robie House in Chicago is one of the world's most famous houses, a masterpiece from the end of Frank Lloyd Wright's early period and a classic example of the Prairie House. This book is intended as a companion for the visitor to the house, but it also probes beneath the surface to see how the design took shape in the mind of the architect. Wright's own writings, rare working drawings from the period, and previously unpublished photographs of the house in construction help the reader look over the shoulder of the architect at work. Beautiful new photographs of the Robie

House and related Wright houses have been specially taken to illustrate the author's points, and a bibliography on Wright is provided.

From the award-winning and nationally best-selling author of Hemingway's

Boat and Sons of Mississippi--an illuminating, pathbreaking biography that will change the way we understand the life, mind, and work of the premier American architect. Frank Lloyd Wright has long been known as a rank egotist who held in contempt almost everything aside from his own genius. Harder to detect, but no less real, is a Wright who fully understood, and suffered from, the choices he made. This is the Wright whom Paul Hendrickson reveals in this masterful biography: the Wright who was haunted by his father, about whom he told the greatest lie of his life. And this, we see, is the Wright of many other neglected aspects of his story: his close, and perhaps romantic, relationship with friend and early mentor Cecil Corwin; the eerie, unmistakable role of fires in his life; the connection between the Tulsa Race Riot of 1921 and the murder of his mistress, her two children, and four others at his beloved Wisconsin home by a black servant gone mad. In showing us Wright's facades along with their cracks, Hendrickson helps us form a fresh, deep, and more

human understanding of the man. With prodigious research, unique vision, and his ability to make sense of a life in ways at once unexpected, poetic, and undeniably brilliant, he has given us the defining book on Wright.
