Ethical Issues in Accounting Cambridge, Mass. : Ballinger Publishing Company
Law in the United States, Second Edition, is a concise presentation of the salient elements of the American legal system designed mainly for jurists of civil law backgrounds. It focuses on features of American law likely to be least familiar to jurists from other legal traditions, such as American common law, the federal structure of the U.S. legal system, and the American constitutional tradition. The use of comparative law technique permits foreign jurists to appreciate the American legal system in comparison with legal

systems with which they are already familiar. Chapters in the second edition also cover such topics as American civil justice, criminal law, jury trial, choice of laws and international jurisdiction, the American legal profession, and the influence of American law in the global legal order.

100 recipes arranged by season, The Soup Sisters Cookbook gives you heartwarming soups to prepare and share throughout the year. The Soup Sisters Cookbook showcases scrumptious recipes from the "souper volunteers" of the Soup Sisters and recipes from many of Canada's top celebrity chefs--including Michael Stadlander, Bonnie Stern, Lucy Waverman, Massimo Capra, Anna Olson, Michael Bonacini and Elizabeth Baird. With 100 recipes arranged by season, The Soup Sisters Cookbook is certain to appeal to soup-lovers everywhere! Soup Sisters are a Calgary-based non-profit enterprise founded in 2009. They are dedicated to making a tangible difference to the lives of women and children in need. Soup Sisters believe in the power of soup and the nutrition, comfort and warmth that the gift of soup can bring. This belief has resonated quickly and profoundly with communities across Canada, who come together through their local Soup Sisters events to cook, share and donate soup, to women's shelters in their community. The Soup Sisters' growing network has over

4,500 supporters, who collectively donate over 8,000 bowls of soup every month--over 75,000 bowls of soup have been donated to date.

This book presents an overview of inter-municipal cooperation in eight European countries. Each country study sketches its attendant forms, their institutional design, the tasks and competencies attributed to joint authorities of municipalities and the way inter-municipal cooperation operates in practice. Both performance and democratic aspects of cooperation are recurring topics.

This important text integrates the study of ethics into public management training, highlighting Supreme Court opinions on three specific constitutional values--equality, freedom, and property--focusing on the pedagogical aspects of law and posing challenging questions to help readers apply theories to concrete situations. It includes a case index for further research. Topics of specific interest include abortion, affirmative action,

bureaucratic bashing, civil disobedience, the Ethics in Government Act of 1978, the Iran-Contra scandal, moral absolutism, privileged communications, religious fundamentalism, and whistle blowing. The Midwest Review of Public Administration lauds it as "...a unique teaching tool." *Recent advances on data networks, communications, computers* Cambridge University Press

In this study, W. J. Waluchow argues that debates between defenders and critics of constitutional bills of rights presuppose that constitutions are more or less rigid entities. Within such a conception, constitutions aspire to establish stable, fixed points of agreement and pre-commitment, which defenders consider to be possible and desirable, while critics deem impossible and undesirable. Drawing on reflections about the nature of law, constitutions, the common law, and what it is to be a democratic representative, Waluchow urges a different theory of bills of rights that is flexible and adaptable. Adopting such a theory enables one not only to answer to critics' most serious challenges, but also to appreciate the role that a bill of rights,

interpreted and enforced by unelected judges, can sensibly play in a constitutional democracy.

International Police Cooperation combines the efforts of leading practitioners and academics in criminology to address the challenges of such persistent international problems as organized crime and illegal immigration. Employing an innovative cross-cultural and comparative methodology, editors Daniel J. Koenig and Dilip K. Das and their eminent contributors present invaluable information for students of criminology and sociology which will fill a long-felt gap in the literature on policing.

Alone among America's major institutions, colleges and universities have traditionally refused to adopt modern management and planning. Now they have entered a perilous new era of declining enrollments, inflated costs, and shifting academic priorities. The result: higher education is going through a planning and management revolution. This path

breaking book describes in detail the nature and dimensions of education's dramatic reversal and the reasons behind it. It examines the new role of strategic planning and the resulting changes in the role of professors, trustees, and college presidents. It describes how colleges and universities can introduce the latest planning and management methods for their own benefit.

Analyses the international response to the crisis in Kosovo, and its broader implications by examining its diplomatic, military and humanitarian features. Unravelling these implications can be challenging as it remains an event replete with paradoxes - the originality of this book's approach lies in its exploration of these paradoxes. The crisis in Kosovo has been a headline grabbing event - a serious study of the implications of the conflict on wider European security issues and institutions is urgently required.

The Dynamic Constitution Cambridge

States reject inequality when they choose to ratify the International Covenant on Economic, Social and Cultural Rights (ICESCR), but to date the ICESCR has not yet figured prominently in the policy calculus behind States' international economic decisions. This book responds to the modern challenge of operationalizing the ICESCR, particularly in the context of States' decisions within international trade, finance, and investment.

Differentiating between public policy mechanisms and institutional functional mandates in the international trade, finance, and investment systems, this book shows legal and policy gateways for States to feasibly translate their fundamental duties to respect, protect, and fulfil economic, social and cultural rights into their trade, finance, and investment commitments, agreements, and contracts. It approaches the problem of harmonizing social protection objectives under the ICESCR with a State's international economic treaty obligations, from the designing and interpreting international treaty texts, up to the institutional monitoring and empirical

analysis of ICESCR compliance. In examining public policy options, the book takes into account around five decades of States' implementation of social protection commitments under the ICESCR; its normative evolution through the UN Committee on Economic, Social and Cultural Rights, and the Committee's expanded fact-finding and adjudicative competences under the Optional Protocol to the ICESCR; as well as the critical, dialectical, and deliberative roles of diverse functional interpretive communities within international trade, finance, and investment law. Ultimately, the book shows how States' ICESCR commitments operate as the normative foundation of their trade, finance, and investment decisions.

"Ethics and Public Administration" refutes the arguments that administrative ethics cannot be studied in an empirical manner and that empirical analysis can deal only with the trivial issues in administrative ethics. Within a theoretical perspective, the authors qualify their findings and take care not to over-generalise results. The findings are relevant to the practice of public administration. Specific areas addressed include understanding public corruption, ethics as control, and ethics as administration and policy

International Human Rights and Humanitarian Law: Treaties, Cases, and Analysis introduces the reader to the international legal instruments and case law governing the substantive and procedural dimensions of international human rights and humanitarian law, including economic, social, and cultural rights. The book, which was originally published in 2006, also discusses the history and organisational structure of human rights and humanitarian law enforcement mechanisms. A chapter is devoted to the issues surrounding the incorporation of

international law into U.S. law, including principles of constitutional and statutory interpretation, conflict rules, and the self-execution doctrine. Questions and comments sections provide critical analyses of issues raised in the materials. The last chapter addresses theoretical issues facing contemporary international human rights and humanitarian law and its enforcement.

Comparative Constitutionalism and Good Governance in the Commonwealth

Neither the morality of human rights nor its relation to the law of human rights is well understood. In this book, Michael Perry addresses three large issues. There is undeniably a religious ground - indeed, more than one religious ground - for the morality of human rights. But is there a secular ground for the morality of human rights? What is the relation between the morality of human rights and the law of human rights? Perry here addresses the controversial issues of capital punishment, abortion, and same-sex unions. What is the proper role of courts, in a liberal democracy, in protecting - and therefore in interpreting - constitutionally entrenched

human rights? In considering this question, special attention is paid to the Supreme Court and how it should rule on issues such as capital punishment and abortion. *Toward a Theory of Human Rights* makes a significant contribution both to human rights studies and to constitutional theory. *Sourcebook on Criminal Law* Oxford University Press, USA

This book examines the most recent trends in the constitutional and legal regulations in all Latin American countries regarding the amparo proceeding. It analyzes the regulations of the seventeen amparo statutes in force in Latin America, as well as the regulation on the amparo guarantee established in Article 25 of the American Convention of Human Rights. *Shattered, Cracked, or Firmly Intact?* Emerald Group Publishing

Diffusion of Gender Quotas in Latin America and Beyond Appetite by Random House

A powerful and humane exploration of the history of the "insanity defense," through the story of one poignant case. When a three-year-old child was found with a head wound and other injuries, it looked like an open-and-shut case of second-degree murder. Psychologist and attorney Susan Vinocour agreed to evaluate the defendant, the child's mentally ill and impoverished grandmother, to determine whether she was competent to stand trial. Even if she had caused the child's death, had she realized at the time that her actions were wrong or was she legally "insane"? What followed was anything but an open-and-shut case. *Nobody's Child* traces the legal definition of "insanity" back to its inception in Victorian Britain nearly two hundred years ago, from when our understanding of the human mind was in its infancy, to today, when questions of race, class, and ability so often determine who is legally "insane" and who is criminally guilty. Vinocour explains how "competency" and "insanity" are creatures

of a legal system, not of psychiatric reality, and how, in criminal law, the insanity defense has to often been a luxury of the rich and white. *Nobody's Child* is a profoundly dignified portrait of injustice in America and a complex examination of the troubling intersection of mental health and the law. When prisons are now the largest institutions for the mentally ill, Vinocour demands that we reckon with our conceptions of "insanity" with clarity, empathy, and responsibility.
