While much work has been done on goddesses of the ancient world and the male gods of pre-Christian Scandinavia, the northern goddesses have been largely neglected. Roles of the Northern Goddess presents a highly readable study of the worship of these goddesses by men and women. With its use of evidence from early literature, popular tradition, legend and archaeology, this book investigates the role of the early hunting goddess and the local goddesses who were involved in all aspects of the household and the farm. What emerges is that the goddess was both benevolent and destructive, a powerful figure closely concerned with birth and death and with destiny of

individuals.

NEW YORK TIMES BESTSELLER • “A shining portrait of a presciently modern political genius maneuvering in a gilded age of wealth, optimism, excess and American global ascension.”—San Francisco Chronicle WINNER OF THE LOS ANGELES TIMES BOOK PRIZE FOR BIOGRAPHY • “[Theodore Rex] is one of the great histories of the American presidency, worthy of being on a shelf alongside Henry Adams’s volumes on Jefferson and Madison.”—Times Literary Supplement Theodore Rex is the story—never fully told before—of Theodore Roosevelt’s two world-changing terms as President of the United States. A hundred years before the catastrophe of September 11, 2001, “TR” succeeded to power in the aftermath of an act of terrorism. Youngest of all our chief executives, he rallied a stricken nation with his superhuman energy, charm, and political skills. He proceeded to combat the problems of race and labor relations and trust control while making the Panama Canal possible and winning the Nobel

Peace Prize. But his most historic achievement remains his creation of a national conservation policy, and his monument millions of acres of protected parks and forest. Theodore Rex ends with TR leaving office, still only fifty years old, his future reputation secure as one of our greatest presidents.

The New York Times bestselling work of undercover reportage from our sharpest and most original social critic, with a new foreword by Matthew Desmond, author of *Evicted* Millions of Americans work full time, year round, for poverty-level wages. In 1998, Barbara Ehrenreich decided to join them. She was inspired in part by the rhetoric surrounding welfare reform, which promised that a job—any job—can be the ticket to a better life. But how does anyone survive, let alone prosper, on \$6 an hour? To find out, Ehrenreich left her home, took the cheapest lodgings she could find, and accepted whatever jobs she was offered. Moving from Florida to Maine to Minnesota, she worked as a waitress, a hotel maid, a cleaning woman, a nursing-home aide, and a Wal-Mart sales

clerk. She lived in trailer parks and crumbling residential motels. Very quickly, she discovered that no job is truly “unskilled,” that even the lowliest occupations require exhausting mental and muscular effort. She also learned that one job is not enough; you need at least two if you int to live indoors. *Nickel and Dimed* reveals low-rent America in all its tenacity, anxiety, and surprising generosity—a land of Big Boxes, fast food, and a thousand desperate stratagems for survival. Read it for the smoldering clarity of Ehrenreich's perspective and for a rare view of how “prosperity” looks from the bottom. And now, in a new foreword, Matthew Desmond, author of *Evicted: Poverty and Profit in the American City*, explains why, twenty years on in America, *Nickel and Dimed* is more relevant than ever.

[Academic Writing for College Students IAP](#) We all want people to do stuff. Whether

you want your customers to buy from you, vendors to give you a good deal, your employees to take more initiative, or your spouse to make dinner—a large amount of everyday is about getting the people around you to do stuff. Instead of using your usual tactics that sometimes work and sometimes don't, what if you could harness the power of psychology and brain science to motivate people to do the stuff you want them to do - even getting people to want to do the stuff you want them to do. In this book you'll learn the 7 drives that motivate people: The Desire For Mastery, The Need To Belong, The Power of Stories, Carrots and Sticks, Instincts, Habits, and Tricks Of The Mind. For each of the 7 drives behavioral psychologist Dr. Susan Weinschenk describes the research behind each drive, and then offers specific strategies to use. Here's just a few things you will learn: The more choices people have the more regret they feel about the choice they pick. If you want people to feel less regret then offer them fewer choices. If you are going to use a reward, give the reward continuously at first, and then switch to giving a reward only sometimes. If you want people to act independently,

then make a reference to money, BUT if you want people to work with others or help others, then make sure you DON'T refer to money. If you want people to remember something, make sure it is at the beginning or end of your book, presentation, or meeting. Things in the middle are more easily forgotten. If you are using feedback to increase the desire for mastery keep the feedback objective, and don't include praise.

Mathematics research papers provide a forum for all mathematics enthusiasts to exercise their mathematical experience, expertise and excitement. The research paper process epitomizes the differentiation of instruction, as each student chooses their own topic and extends it as far as their desire takes them. The features and benefits of the research paper process offer a natural alignment with all eight Common Core State Standards for Mathematical Practice. *Writing Math Research Papers* serves both as a text for students and as a resource for instructors and administrators. It systematically describes the steps

involved in creating a mathematics research paper and an oral presentation. The chapters offer tips on technical writing, formatting, and preparing visual aids. For instructors and administrators, the book covers the logistics necessary in setting up a mathematics research program in a high school setting. This program received the 1997 Chevron Best Practices in Education Award as the premier high school mathematics course in the United States.

David Crystal's classic *English as a Global Language* considers the history, present status and future of the English language, focusing on its role as the leading international language. English has been deemed the most 'successful' language ever, with 1500 million speakers internationally, presenting a difficult task to those who wish to investigate it in its entirety. However, Crystal explores the subject in a measured but engaging way, always backing up observations with facts and figures. Written in a detailed and

fascinating manner, this is a book written by an expert both for specialists in the subject and for general readers interested in the English language.

Most students struggle with learning how to find references, use them effectively, and cite them appropriately in a required format. One of the most common formats is that of APA. The authors all have vast experience teaching writing courses to various levels of students from undergraduates to graduates in other countries. However, there was lacking a book that could explain the basics of APA in simple, easy-to-understand language for non-native speakers of English, who are often unfamiliar with using references and formatting an essay in a particular method. In order to offer English Learner student writers a source of information that is appropriate for their level, and is cost-effective, this updated APA 7th edition guidebook provides students with important information in clear, concise, user-friendly language, as well as to offer practical examples that will help them grasp the concept of secondary research writing. Much of the published materials

on the market targets native speakers of English. The problem with this is that they present the nitpicky details of APA in ways that do not make sense to native speakers of English, let alone to those for whom English is not their first language, because the information is presented in very technical terms that are not easy to understand. This handbook presents the same information in simplified terms with images and step-by-step instructions in ways that make sense to both native and non-native English speaking student writers. Additionally, student writers often struggle with understanding the concept of plagiarism, as well as how to find sources, evaluate the appropriateness of sources, and use sources in effective ways (e.g., how to integrate quotes, when to paraphrase, among others). This book provides this important information that is concise and easy to understand. NOTE: This is a REVISED edition of our original *The Concise APA Handbook*, which has been updated for APA 7th edition, which was issued in the fall, 2019.

Measure What Matters NYU Press
Reexamining the Chicano civil rights movement of the 1960s and 1970s, In the

Spirit of a New People brings to light new insights about social activism in the twentieth-century and new lessons for progressive politics in the twenty-first. Randy J. Ontiveros explores the ways in which Chicano/a artists and activists used fiction, poetry, visual arts, theater, and other expressive forms to forge a common purpose and to challenge inequality in America. Focusing on cultural politics, Ontiveros reveals neglected stories about the Chicano movement and its impact: how writers used the street press to push back against the network news; how visual artists such as Santa Barraza used painting, installations, and mixed media to challenge racism in mainstream environmentalism; how El Teatro Campesino's innovative "actos," or short skits, sought to embody new, more inclusive forms of citizenship; and how Sandra Cisneros and other Chicana novelists broadened the narrative of the Chicano movement. In the Spirit of a New People articulates a fresh understanding of how the Chicano movement contributed to the social and political currents of postwar America, and how the movement remains meaningful today.

In 1991, the Government of Canada ratified the United Nations Convention on the Rights of the Child, requiring governments at all levels to ensure that Canadian laws and practices safeguard the rights of children. *A Question of Commitment: Children's Rights in Canada* is the first book to assess the extent to which Canada has fulfilled this commitment. The editors, R. Brian Howe and Katherine Covell, contend that Canada has wavered in its commitment to the rights of children and is ambivalent in the political culture about the principle of children's rights. *A Question of Commitment* expands the scope of the editors' earlier book, *The Challenge of Children's Rights for Canada*, by including the voices of specialists in particular fields of children's rights and by incorporating recent developments.

Emphasizing that thinking well and writing well are invariably connected, *CRITICAL THINKING, THOUGHTFUL WRITING, 6e* delivers thorough coverage of the writing process, going beyond the traditional rhetoric to teach you how to evaluate sources, images, and arguments. This rhetoric with readings introduces the process of thinking critically as a powerful approach to writing, to critically evaluating electronic and visual media, and to life in general. Each chapter focuses on a critical-thinking skill--such as problem solving or analysis of complex issues--that is explored through Thinking-Writing Activities and thematically linked readings. Each of the readings challenges you to read actively, think critically, and then write about the readings. The Sixth Edition offers provocative new readings, a four-color interior design, expanded writing projects that help you fully interact with the writing process, annotations to student essays, and more in-chapter questions to help you reflect on the material. This handbook represents the interdisciplinary and international field of “cultural memory studies” for the first time in one volume. Articles by renowned international scholars offer readers a unique overview of the key concepts of cultural memory studies. The handbook not only documents current research in an unprecedented way; it also serves as a forum for bringing together approaches from areas as varied as sociology, political sciences, history, theology, literary studies, media studies, philosophy, psychology, and neurosciences. “Cultural memory studies” – as defined in this handbook – came into being at the beginning of the 20th century, with the works of Maurice Halbwachs on *mémoire collective*. In the course of the last two decades this area of research has witnessed a veritable boom in various countries and disciplines. As a consequence, the study of the relation of “culture” and “memory” has diversified into a wide range of approaches. This

handbook is based on a broad understanding of “cultural memory” as the interplay of present and past in sociocultural contexts. It presents concepts for the study of individual remembering in a social context, group and family memory, national memory, the various media of memory, and finally the host of emerging transnational lieux de *mémoire* such as 9/11.

Even students capable of writing excellent essays still find their first major political science research paper an intimidating experience. Crafting the right research question, finding good sources, properly summarizing them, operationalizing concepts and designing good tests for their hypotheses, presenting and analyzing quantitative as well as qualitative data are all tough-going without a great deal of guidance and encouragement. Writing a Research Paper in Political Science breaks down the research paper into its constituent parts and shows students what they need to do at each stage to successfully complete each component until the paper is finished. Practical summaries, recipes for success, worksheets, exercises, and a

series of handy checklists make this a must-have supplement for any writing-intensive political science course. New to the Fourth Edition: A non-causal research paper woven throughout the text offers explicit advice to guide students through the research and writing process. Updated and more detailed discussions of

plagiarism, paraphrases, "drop-ins," and "transcripts" help to prevent students from misusing sources in a constantly changing digital age. A more detailed discussion of "fake news" and disinformation shows students how to evaluate and choose high quality sources, as well as how to protect oneself from being fooled by bad sources.

Additional guidance for writing abstracts and creating presentations helps students to understand the logic behind abstracts and prepares students for presentations in the classroom, at a conference, and beyond. A greater emphasis on the value of qualitative research provides students with additional instruction on how to do it.
