RODERICK MURRAY

Geschichte Des Fräuleins Von Sternheim Oxford University Press
Reformation Thought, 4th edition offers an ideal introduction to the central ideas of the European reformations for students of theology and history. Written by the bestselling author and renowned theologian, Alister McGrath, this engaging guide is accessible to students with no prior knowledge of Christian theology. This new edition of a classic text has been updated throughout with the very latest scholarship Includes greater coverage of the Catholic reformation, the counter-reformation, and the impact of women on the reformation Explores the core ideas and issues of the reformation in terms that can be easily understood by those new to the field Student-friendly features include images, updated bibliographies, a glossary, and a chronology of political and historical ideas This latest edition retains all the features which made the previous editions so popular with

readers, while McGrath's revisions have ensured it remains the essential student guide to the subject.

Contesting the Reformation Paulist Press
One of Hollywood's greatest stars recalls her fabulous life: at nine, scrubbing floors in a Kansas City school; at twenty, motion picture stardom and marriage to Douglas Fairbanks, Jr.; in 1945, the Academy Award for her sensational comeback-triumph in *Mildred Pierce*; and today, a glamorous "double life" as Hollywood star and corporation executive. Richly illustrated with photographs throughout.

Reformation 1517-2017 Syracuse University Press

The Chinese system is like no other known to man, now or in history. This book explains how the system works and where it may be moving. Drawing on Chinese and international sources, on extensive collaboration with Chinese scholars, and on the political science of state analysis, the author concludes that under the new leadership of Xi Jinping, the system of government has been transformed into a new regime radically harder and more ideological than the

legacy of Deng Xiaoping. China is less strong economically and more dictatorial politically than the world has wanted to believe. By analysing the leadership of Xi Jinping, the meaning of 'socialist market economy', corruption, the party-state apparatus, the reach of the party, the mechanisms of repression, taxation and public services, and state-society relations, the book broadens the field of China studies, as well as the fields of political economy, comparative politics, development, and welfare state studies. 'A new interpretation of the Chinese party-state—shows the advantage that derives from a comparative theorist looking at the Chinese system.' —Tony Saich, Harvard University 'This is an excellent book which asks important questions about China's future. In a lively and persuasive manner, the author vividly analyses key data in a comparative and theoretical manner. Far and away the best introduction to how the CCP dictatorship works.' —Edward Friedman, University of Wisconsin-Madison 'There is no lack of scholars and pundits abroad who tell us that dictatorship in China is for the greater good. In a timely and engagingly written book, Stein Ringen systematically demolishes all the components of this claim.' —Frank Dikötter, University of Hong Kong 'Stein Ringen shows how the Chinese state has used both fear and material inducements to build a "controlocracy" of a size and complexity unprecedented in world history. Perfect as a dictatorship, but brutal, destructive, and wasteful. The author's encyclopedic understanding of his topic is based on a mastery of relevant scholarship and is delivered in clear, no-nonsense prose that bows to no one. Ideal as a textbook.' —Perry Link, University of California, Riverside 'China is a complex

country, and there is a range of reasonable interpretations of its political system. Professor Ringen's interpretation is different than my own, but China watchers need to engage with his thought-provoking and carefully argued assessment. If current trends of repression intensify, less pessimistic analysts will need to recognise that Ringen's analysis may have been prescient.' —Daniel A. Bell, Tsinghua University 'Inspirational and trenchant. Stein Ringen's book is a must-read to understand China's politics, economy, ideology and social control, and its adaptability and challenges under the CCP's rule, especially in the 21st century.' —Teng Biao, Harvard Law School and New York University 'Stein Ringen's insights as a prominent political scientist enable a powerful examination of the Chinese state in a penetrating analysis that reaches strong conclusions which some will see as controversial. The book is scholarly, objective, and free from ideological partiality or insider bias. Whether one ultimately wishes to challenge or embrace his findings, the book should be read.' —Lina Song, University of Nottingham Click on these links for more information: Blog: <https://thechinesestate.com/> Facebook: <https://www.facebook.com/stein.ringen.7/about>

An Appendix to the Descriptions of Paris OUP Oxford

In a region that is exceptionally rich in endemic birds, seabirds, waterbirds, and species already at risk of extinction, Important Bird Areas are an objective expression of which places in the Caribbean are the most important for these birds and why. This work focuses on a Caribbean network of Internationally important biodiversity sites - IBAs.

The Early Reformation in Germany John Wiley & Sons

This book recasts the story of the Reformation by bringing together two histories: the Encounter between Europe and the western hemisphere beginning in 1492; and the fragmentation of European Christendom in the sixteenth century. In so doing, it restores resonance to 'idolatry', 'cannibal', 'barbarian', even as it moves past such polemics to trace multiple understandings of divinity, matter and human nature. So many aspects of human life, from marriage and family through politics to ways of thinking about space and time, were called into question. Debates on human nature and conversion forged new understandings of religious identity. Debates on the relationship of humanity to the material world forged new understandings of image and ritual, new understandings of physics. By the end of the century, there was not one 'Christian religion', but many, and many understandings of the Christian in the world.

La Sorcière Bloomsbury Publishing
Written by one of the world's greatest authorities on Martin Luther, this is the definitive biography of the central figure of the Protestant Reformation. "A brilliant account of Luther's evolution as a man, a thinker, and a Christian. . . . Every person interested in Christianity should put this on his or her reading list."—Lawrence Cunningham, *Commonweal* "This is the biography of Luther for our time by the world's foremost authority."—Steven Ozment, Harvard University "If the world is to gain from Luther it must turn to the real Luther—furious, violent, foul-mouthed, passionately concerned. Him it will find in Oberman's book, a labour of love."—G. R. Elton, *Journal of*

Ecclesiastical History

The European Reformation Ashgate Publishing, Ltd.

Clothing, jewelry, animal remains, ceramics, coins, and weaponry are among the artifacts that have been discovered in graves in Gaul dating from the fifth to eighth century. Those who have unearthed them, from the middle ages to the present, have speculated widely on their meaning. This authoritative book makes a major contribution to the study of death and burial in late antique and early medieval society with its long overdue systematic discussion of this mortuary evidence. Tracing the history of Merovingian archaeology within its cultural and intellectual context for the first time, Effros exposes biases and prejudices that have colored previous interpretations of these burial sites and assesses what contemporary archaeology can tell us about the Frankish kingdoms. Working at the intersection of history and archaeology, and drawing from anthropology and art history, Effros emphasizes in particular the effects of historical events and intellectual movements on French and German antiquarian and archaeological studies of these grave goods. Her discussion traces the evolution of concepts of nationhood, race, and culture and shows how these concepts helped shape an understanding of the past. Effros then turns to contemporary multidisciplinary methodologies and finds that we are still limited by the types of information that can be readily gleaned from physical and written sources of Merovingian graves. For example, since material evidence found in the graves of elite families and particularly elite men is more plentiful and noteworthy, mortuary goods do not

speak as directly to the conditions in which women and the poor lived. The clarity and sophistication with which Effros discusses the methods and results of European archaeology is a compelling demonstration of the impact of nationalist ideologies on a single discipline and of the struggle toward the more pluralistic vision that has developed in the post-war years.

The European Reformations John Wiley & Sons

From the author of *Smilla's Sense of Snow*, an epic novel about faith and the magic of everyday life. Told from the precocious perspective of fourteen-year-old Peter, *The Elephant Keepers' Children* is about three siblings and how they deal with life alongside their eccentric parents. Peter's father is a vicar, his mother is an artisan, and both are equally and profoundly devout. The family lives on the (fictional) island of Finø, where people of all religious faiths coexist peacefully. Yet, nothing is at it seems. When Peter's parents suddenly go missing, Peter and his siblings fear the worst--has their parents' relentless quest to boost church attendance finally put them in danger? Told with poignancy and humor, *The Elephant Keepers' Children* is a fascinating exploration of fundamentalism versus spiritual freedom, the vicissitudes of romantic and familial love, and the triumph of the human spirit.

End of the Chapter Boydell Press

A fully revised and updated version of this authoritative account of the birth of the Protestant traditions in sixteenth-century Europe, providing a clear and comprehensive narrative of these complex and many-stranded events.

Reformation Thought John Wiley & Sons
Paul Herrmann entführt uns in die farbige Welt der nordgermanischen

Mythen, Sagen und Märchen. Haus- und Landgeister, Riesen und Zwerge, Götter und Göttinnen begegnen uns in ihrem charakteristischen Tun und Treiben und erfüllen unsere Phantasie mit ihren außergewöhnlichen Geschichten. Was uns fasziniert, sind 'die tiefe Gefühlswelt, die gewaltigen Seelenstürme, die hinter den schlichten Worten der alten Quelle liegen'.

The Long European Reformation Franz Steiner Verlag

Jural relations desumed from Carolingian capitularies show interesting connections to preceding customary norms, whilst the vicissitudes of the regional economy, based on agriculture and animal husbandry, from Roman to Migration and later periods are highlighted by the study of vegetable remains and pollen analysis."--Jacket.

Patron Saint and Prophet Schocken

Over the last twenty years research on the Reformation in Germany has shifted both chronologically and thematically toward an interest in the 'long' or 'delayed' Reformations, and the structure and operation of the Holy Roman Empire. Whilst this focus has resulted in many fascinating new insights, it has also led to the relative neglect of the early Reformation movement. Put together with the explicit purpose of encouraging scholars to reengage with the early 'storm years' of the German Reformation, this collection of eleven essays by Tom Scott, explores several issues in the historiography of the early Reformation which have not been adequately addressed. The debate over the nature and function of anticlericalism remains unresolved; the mainsprings of iconoclasm are still imperfectly understood; the ideological role of evangelical doctrines in stimulating and legitimising popular

rebellion - above all in the German Peasants' War - remains contentious, while the once uniform view of Anabaptism has given way to a recognition of the plurality and diversity of religious radicalism. Equally, there are questions which, initially broached, have then been sidelined with undue haste: the failure of Reforming movements in certain German cities, or the perception of what constituted heresy in the eyes of the Reformers themselves, and not least, the part played by women in the spread of evangelical doctrines. Consisting of seven essays previously published in scholarly journals and edited volumes, together with three new chapters and an historical afterword, Scott's volume serves as a timely reminder of the importance of the early decades of the sixteenth century. By reopening seemingly closed issues and by revisiting neglected topics the volume contributes to a more nuanced understanding of what the Reformation in Germany entailed.

Medea and Her Children McFarland

The Reformation transformed Europe, and left an indelible mark on the modern world. It began as an argument about what Christians needed to do to be saved, but rapidly engulfed society in a series of fundamental changes. This Very Short Introduction provides a lively and up-to-date guide to the process. It explains doctrinal debates in a clear and non-technical way, but is equally concerned to demonstrate the effects the Reformation had on politics, society, art, and minorities. Peter Marshall argues that the Reformation was not a solely European phenomenon, but that varieties of faith exported from Europe transformed Christianity into a truly world religion. The complex legacy of the Reformation is also assessed; its

religious fervour produced remarkable stories of sanctity and heroism, and some extraordinary artistic achievements, but violence, holy war, and martyrdom were equally its products. A paradox of the Reformation - that it intensified intolerance while establishing pluralism - is one we still wrestle with today. ABOUT THE SERIES: The Very Short Introductions series from Oxford University Press contains hundreds of titles in almost every subject area. These pocket-sized books are the perfect way to get ahead in a new subject quickly. Our expert authors combine facts, analysis, perspective, new ideas, and enthusiasm to make interesting and challenging topics highly readable.

Stone Age - Mining Age Bloomsbury Publishing

Die Beiträge dieses Sammelbandes repräsentieren ein breites Spektrum von Themen und methodischen Ansätzen der aktuellen Homerforschung: Sprachwissenschaft, Mythengeschichte, Narratologie, Intertextualitätsforschung, Gender Studies, Oral-Poetry-Forschung, alexandrinische Homerphilologie, Homer-Allegorese, Homer-Rezeption (in der griechischen Tragödie, im antiken Roman, in der Dichtung der Renaissance etc.). (Franz Steiner 2002)

Popular Culture and Popular Movements in Reformation Germany Cambridge University Press

The Bohemian preacher and religious reformer Jan Hus has been celebrated as a de facto saint since being burned at the stake as a heretic in 1415. Patron Saint and Prophet analyzes Hus's commemoration from the time of his death until the middle of the following century, tracing the ways in which both his supporters and his most outspoken opponents sought to determine whether

he would be remembered as a heretic or saint. Phillip Haberkern examines how specific historical conflicts and exigencies affected the evolution of Hus's memory-within the militant Hussite movement that flourished until the mid-1430s, within the Czech Utraquist church that succeeded it, and among sixteenth-century Lutherans who viewed Hus as a forerunner and even prophet of their reform. Using close readings of written sources such as sermons and church histories, visual media including manuscript illuminations and monumental art, and oral forms of discourse such as vernacular songs and liturgical prayers, this book offers a fascinating account of how changes in media technology complemented the shifting theology of the cult of saints in order to shape early modern commemorative practices. By focusing on the ways in which the invocation of Hus catalyzed religious dissent within two distinct historical contexts, Haberkern compares the role of memory in late medieval Bohemia with the emergence of history as a constitutive religious discourse in the early modern German land. In this way, he also provides a detailed analysis of the ways in which Bohemian and German religious reformers justified their dissent from the Roman Church by invoking the past.

This is a new release of the original 1929 edition.

Epea Pteroenta Pickle Partners Publishing

English summary: Dorothea Sattler and Volker Leppin present an anthology stemming from the Ecumenical Work Group of Protestant and Catholic Theologists(OAK). The authors discuss the theological importance of the history

of the Reformation with reference to modern ecumenical challenges. On occasion of the 500th anniversary of Luther's Reformation, Dorothea Sattler and Volker Leppin present an anthology stemming from the Ecumenical Work Group of Protestant and Catholic Theologists (OAK). In the contributions included, the authors reconstruct the historical events of the 16th century and discuss their meaning from the vantage point of systematic theology. The Reformation is taken as an occasion for an interconfessional cooperation to determine the nature of the Protestant Church and to constructively and critically rethink the modern ecumenical challenges facing the Church. German description: Das Jahr 2017 ist für die christliche Ökumene von besonderer Bedeutung: 500 Jahre nach der symbolisch als Beginn der Reformation betrachteten Veröffentlichung von Martin Luthers Ablassthesen bereiten sich die Kirchen gemeinsam auf dieses Datum vor. Der Ökumenische Arbeitskreis evangelischer und katholischer Theologen legt einen Beitrag zu dem anhaltenden Ringen um das rechte Verständnis der Reformation vor, bei dem die theologische Bedeutung dieses Ereignis im Vordergrund steht. Im ökumenischen Geist geschieht eine historische Rekonstruktion der komplexen Vorgänge im 16. Jahrhundert. Die Reformation wird zum Anlass, gemeinsam aus systematisch-theologischer Sicht das Wesen der einen Kirche zu bestimmen. Die gegenwärtig gegebenen ökumenischen Herausforderungen werden kritisch und konstruktiv bedacht. Im Konzert der Meinungen hat dieser Beitrag zur Debatte auch deshalb grosses Gewicht, weil er auf einer über Jahrzehnte hinweg fundierten ökumenischen Studienarbeit

des Okumenischen Arbeitskreises basiert. Durch die Präsentation des Textes auch in englischer Sprache soll eine internationale Rezeption erleichtert werden.

The Long Shadow of 9/11 Hong Kong University Press

Accompanying commentary examines questions in relation to early modern feminism, Catholic/Protestant theological debate of the 16th century, relevant literary texts, and popular belief.

Includes a translation of an essay on related themes published two and a half centuries later as an addendum to Anne Gabriel Meusnier de Querlon's French version of the tract. An Appendix includes the Latin text of the Disputatio, edited from a copy of the first edition collated with the only surviving manuscript.

Luther Tradition Classics

Combining seamless synthesis of original material with updated scholarship, *The European Reformations* 2nd edition, provides the most comprehensive and engaging textbook available on the origins and impacts of Europe's Reformations - and the consequences that continue to resonate today. A fully revised and comprehensive edition of this popular introduction to the Reformations of the sixteenth century. Includes new sections on the Catholic Reformation, the Counter Reformation, the role of women, and the Reformation

in Britain. Sets the origins of the movements in the context of late medieval social, economic and religious crises, carefully tracing its trajectories through the different religious groups. Succeeds in weaving together religion, politics, social forces, and the influential personalities of the time, in to one compelling story. Provides a variety of supplementary materials, including end-of-chapter suggestions for further reading, along with maps, illustrations, a glossary, and chronologies.

The Reformation: A Very Short

Introduction Univ of California Press

Medea Georgievna Sinoply Mendez is an iconic figure in her Crimean village, the last remaining pure-blooded Greek in a family that has lived on that coast for centuries. Childless Medea is the touchstone of a large family, which gathers each spring and summer at her home. There are her nieces (sexy Nike and shy Masha), her nephew Georgii (who shares Medea's devotion to the Crimea), and their friends. In this single summer, the languor of love will permeate the Crimean air, hearts will be broken, and old memories will float to consciousness, allowing us to experience not only the shifting currents of erotic attraction and competition, but also the dramatic saga of this family amid the forces of dislocation, war, and upheaval of twentieth-century Russian life.
