The Senses and the Soul Princeton University Press

A Black Forest Walden is a work of philosophical reflection, nature description, and sly humor. In brief chapters, or aphorisms, the American philosopher David Farrell Krell recounts his experiences in a cabin located in the mountains of southern Germany's Black Forest, where he has lived for several decades. Insofar as Krell compares his experiences with those of Henry David Thoreau, who serves as both inspiration and irritation, the book could be described as a critical commentary on Thoreau's Walden. Yet it equally reads as a rigorous yet playful and profoundly literary manifestation of where and how the mind wanders. Hence, the "Marlonbrando" of the subtitle is not the late actor but a feral cat who frequents the cabin and comes to be an important

interlocutor, as if playing the role of analyst to the author. The subjects Krell treats are wide-ranging: the changing seasons, environmental issues, romantic love, parent-child relations, European versus American "values," higher education, artistic creativity, solitude, and the contrast between lifestyles in a quiet Black Forest village and in a noisy contemporary United States. Forty-one black-and-white photographs taken by the author accompany and enliven the text.

A Week on the Concord and Merrimack Rivers and *Walden*, the only works Thoreau conceived and brought to conclusion as books, bear a distinctively important relation to each other and to his *Journal*, the document whose twenty-four-year composition encompasses their development. In a brilliant new book, H. Daniel Peck shows how these three works engage one another dialectically and how all of them participate in a larger project of imagination. "Morning work," a phrase from *Walden*, is the name Peck gives to this larger project. by it he means the work done by memory and perception as they act to shape Thoreau's emerging vision of a harmonious universe. Peck argues that the changing

balance of memory and perception in the three works defines the unique literary character of each of them. He offers a major reevaluation of *Walden*, which he sees neither as the epitome of Thoreau's career (the traditional view) nor as an anomaly (the recent, revisionary view). Rather, he sees *Walden* as a pivotal work, reflecting the issues of loss and remembrance that earlier had found prominent expression in *A Week* and prefiguring the late *Journal's* vision of natural order. Focusing on the two-million-word *Journal*, Peck provides the first critical analysis that defines the essential forces and the imaginative coherence in its vast discursiveness. The consideration of memory and perception in Thoreau also leads peck to the issue of the writer's modernity, and he explores the ways in which Thoreau anticipates twentieth-century thought, especially in the works of such great objectivist philosophers as William James and Alfred North Whitehead.

Thoreau's Importance for Philosophy Cambridge University Press

"For I believe that climate does thus react on man — as there is something in the mountain air that feeds the spirit and inspires. Henry David Thoreau's *Walking* began as a lecture in 1851 and ultimately appeared in *The Atlantic Monthly* in 1862, shortly after the author's death. The impassioned essay, which praises the merits of time spent in nature, has become one of the most influential works of the modern environmentalist movement. Thoreau's view of walking in nature as a self-reflective activity invites readers to embark on their own ramble in order to gain a "wild and dusky" self-knowledge unattainable elsewhere.

Americans felt the pressures of a changing world even in the relatively slow-paced 1800s, and Thoreau proposed balancing social stress with unhurried wanderings in fields and woods. His

writings, from *Civil Disobedience* to *Walden*, remain popular because of their enduring relevance, and *Walking* bears a special resonance for modern readers who may have become disconnected from the natural world.

Henry David Thoreau's account of his adventure in self-reliance on the shores of a pond in Massachusetts—part social experiment, part spiritual quest—is an enduringly influential American classic. In 1845, Thoreau began building a cabin at Walden Pond near Concord, Massachusetts. The inspiring and lyrical book that resulted is both a record of the two years Thoreau spent in withdrawal from society and a declaration of personal independence. By virtue of its casual, offhandedly brilliant wisdom and the easy splendor of its nature writing, Thoreau's account of his immersion in solitude has become a signpost for the modern mind in an increasingly bewildering world. Also included in this edition is Thoreau's famous essay, "Civil Disobedience," inspired by his anti-war and anti-slavery sentiments, which has influenced nonviolent resistance movements around the world ever since.

First published in 1849, "On the Duty of Civil Disobedience" is an essay by American transcendentalist Henry David Thoreau. Within it, he presents the argument that people should not allow governments to supplant their consciences, and that everyone has an important duty to avoid being pawns for injustice. A fascinating and timeless essay, "On the Duty of Civil Disobedience" is highly recommended for modern readers with an interest in civil disobedience, and it is not to be missed by fans and collectors of Thoreau's seminal work. Henry David Thoreau (1817 - 1862) was an American poet, philosopher, essayist,

abolitionist, naturalist, development critic, and historian. He was also a leading figure in Transcendentalism, and is best known for his book "Walden", a treatise on simple living in a natural environment. Other notable works by this author include: "The Landlord" (1843), "Reform and the Reformers" (1846-48), and "Slavery in Massachusetts" (1854). Many vintage books such as this are becoming increasingly scarce and expensive. We are republishing this volume now in an affordable, modern, high-quality edition complete with a specially commissioned new biography of the author.

"Themes out of School . . . cannot help but urge us to think, in fresh and undistracted ways, about the world that actually confronts us." —Jay Parini, *Hudson Review* In the first essay of this book, Stanley Cavell characterizes philosophy as a "willingness to think not about something other than what ordinary human beings think about, but rather to learn to think undistractedly about things that ordinary human beings cannot help thinking about, or anyway cannot help having occur to them, sometimes in fantasy, sometimes as a flash across a landscape." Fantasies of film and television and literature, flashes across the landscape of literary theory, philosophical discourse, and French historiography give Cavell his starting points in these twelve essays. Here is philosophy in and out of "school," understood as a discipline in itself or thought through the works of Shakespeare, Molière, Kierkegaard, Thoreau, Brecht, Makavejev, Bergman, Hitchcock, Astaire, and Keaton.
