GAEL WARREN

Sleep Tight Little Bear Schirmer Mosel

When you keep repeating that the worst is about to happen, it finally does. The threat of terrorism has caught up with us. By invading Iraq in 2003 and not intervening in Syria since 2011, we have helped fuel radicalization. And we continue to fuel it, by making diplomatic compromises with dictators, by refusing to heed the suffering of populations, and by failing to invent counter-speech. What is the responsibility of our societies in the creation of these new jihadists? How are they molded? How have we played the Islamic State's game and spread its propaganda, allowing it to invade our neighborhoods and enlist more and more recruits ready to fight for a distorted fantasy of Islam? Nicolas Hénin presents the case against the West, showing how its mistakes and inaction have contributed to the disaster. He also advances possible strategies to repair what can still be repaired. *Havel* University of Chicago Press

In this fascinating, informative, and entertaining collection, internationally acclaimed, award-winning author Colm Tóibín turns his attention to the intricacies of family relationships in literature and writing. In pieces that range from the importance of aunts (and the death of parents) in the English nineteenth-century novel to the relationship between fathers and sons in the writing of James Baldwin and Barack Obama, Colm Tóibín illuminates not only the intimate connections between writers and their families but also, with wit and rare tenderness, articulates the great joy of reading their work. In the piece on the Notebooks of Tennessee Williams, Tóibín reveals an artist "alone and deeply fearful and unusually selfish" and one profoundly tormented by his sister's mental illness. Through the relationship between W.B.

Yeats and his father, or Thomas Mann and his children, or J.M. Synge and his mother, Tóibín examines a world of family relations, richly comic or savage in its implications. In Roddy Doyle's writing on his parents we see an Ireland reinvented. From the dreams and nightmares of John Cheever's journals Tóibín makes flesh this darkly comic misanthrope and his relationship to his wife and his children. The majority of these pieces were previously published in the *Londron Review of Books*, the *New York Review of Books*, and the *Dublin Review*. Three of the thirteen pieces have never appeared before.

'A modern philosopher who has never once suspected himself of being a charlatan,' writes Leszek Kolakowski at the start of this endlessly stimulating book, 'must be such a shallow mind that his work is probably not worth reading.' For over a century, philosophers have argued that philosophy is impossible or useless, or both. Although the basic agenda dates back to the days of Socrates, there is still disagreement about the nature of truth, reality, knowledge, good and God. This may make little practical difference to our lives, but it leaves us with a feeling of radical uncertainty described by Kolakowski as 'metaphysical horror'. Is there any way out of this cul-de-sac? This trenchant analysis confronts these dilemmas head on. Philosophy may not provide definitive answers to the fundamental questions, yet the quest itself transforms our lives. It may undermine most of our certainties, yet it still leaves room for our spiritual yearnings and religious beliefs. Kolakowski has forged a dazzling demonstration of philosophy in action. It is up to readers to take up the challenge of his arguments.

The perfect adornment for the bookshelves of today's modern gentleman, *The Bow Tie Book* is the first illustrated book devoted to the classic menswear accessory. "If you have a swagger, a bow tie can be a badge of courage...The bow is not for the timid of heart...but a beautifully asymmetrical, slightly tousled bow is a perfect look for a romantic nonconformist man of style." —GQ style writer Glenn O'Brien From its humble beginnings around the necks of seventeenth-century Croatian mercenaries, the bow tie has evolved to become one of the signature accessories in the modern gentleman's wardrobe. Once relegated to the uniforms of nerds, waiters, and wedding parties, bow ties now adorn the collars of men of all ages and appear on the runways of Paris and London as well as the streets of Brooklyn and Silver Lake. More than an accessory, bow ties tell the world you are a man of style, substance, and individuality; a man who likes to stand out in a crowd but is polite; a man who respects himself and those around him enough to put his best foot forward; a man of whimsy, intelligence, and imagination. *The Bow Tie Book* includes a brief

Many historians, not least Winston Churchill, agree that The Great War was decided during the first month of fighting. Fortunately a young highly literate and talented British officer was superbly well placed to witness this historic period. Thanks to his fluent French Edward Louis Spears was sent in mid August 1914 to liaise between Field Marshal Sir John French and the French High

Command. In the weeks that followed, events moved at lightning speed and decisions were made without consulting or informing their counterparts. It fell to Spears to update the British of their ally's moves. Without modern communication this often involved Spears traveling on clogged roads between head quarters. As the sole British representative at, first, HQ Fifth French Army and then Tenth Army, the influence of this 28 year old author was immense and Spears on many occasions proved unworried about speaking his mind. Clearly his efforts were appreciated; he was made a Chevalier de la Legion d'honneur and awarded the Military Cross (he was wounded four times). Churchill, who became a life long friend, wrote the Foreword to the original edition of this truly extraordinary account which anyone who wishes to understand the events of 1914 must read. AUTHOR DETAILS Edward Louis Spears was born in Paris on 7 April 1886. His supreme ability to speak fluent, accent-less French owes much to his upbringing. He joined the British Army in 1903 and was commissioned into 8th Royal Irish Hussars. His career was anything but conventional. His liaison assignment, described in this book, made him the first British Officer at the Front. He continued in a liaison role throughout the War and his range of high level French contacts proved invaluable if not universally popular. His subsequent career involved business interests at home and overseas. He was twice a Member of Parliament. Like his friend Winston Churchill he was strongly anti-appeasement. In 1940, Churchill appointed him his Personal Representative to the French Prime Minister and later to de Gaulle's Free French. He was knighted in 1942 and created a baronet in 1953. He died in 1974

Another magical saga by the author of *Of Marriageable Age*. How many of us think as adults we've lost the vitality of childhood? And how many manage to find it again? This is Rita Maraj's dilemma. Living in a ramshackle house in Georgetown, leader of the local neighbourhood gang, Rita collects people like she does dogs, cats, ants, and even an unwanted police horse. But then her father remarries: her stepmother is determined to tidy up house, husband and stepdaughter, and move into respectable society. Rita's charm and liveliness become compressed by the pressure to conform, and the duty to find a suitable husband. But then a messenger arrives, searching for a possible heir to the distant family estates. Suddenly liberated, and determined to search for her roots, Rita's sense of adventure is reawakened first by the formidable personage of her distant relative, but even more by the tragedies of her long lost, romantic cousin. Her early life -- saving half the wildlife of her neighbourhood -- is only preparation for the destiny that awaits her. Dramatic and vivid, moving and exotic, *Peacocks Dancing* is a captivating story, a joy to read.
