*On the truth of the Catholic faith* Oxford University Press

Presents the author's complete summary of Christian doctrine in four parts, with three initial volumes examining the truth of faith that can be approached by reason, and the fourth looking into the truth of faith that cannot be investigated with reason.

*The Summa Contra Gentiles* Wipf and Stock Publishers

Fifteen years ago the English Dominican Fathers embarked on what was considered by many the hazardous and even useless venture of translating the Summa Theologica of the Angelic Doctor. Yet although there were critics adverse to the project, there were others, not a few, who approved and encouraged; these and the favour with which the effort, notwithstanding its many deficiencies, was received, heartened the translators to persevere, and enabled them to bring their work to a happy conclusion. For the venture has proved a success beyond the most sanguine expectations; and already the work has entered into a second edition.

Summa Contra Gentiles Book Four: Salvation Thomas Aquinas Translated to English by: Charles J. O'Neil Public Domain

**The Summa Contra Gentiles of Saint Thomas Aquinas** University of Notre Dame Press

Book Three, Part 1 of the Summa Contra Gentiles series is the first part of a treatise on the hierarchy of creation, the divine providence over all things, and man's relation to God. The Summa Contra Gentiles is not merely the only complete summary of Christian doctrine that St. Thomas has written, but also a creative and even revolutionary work of Christian apologetics composed at the precise moment when Christian thought needed to be intellectually creative in order to master and assimilate the intelligence and wisdom of the Greeks and the Arabs. In the Summa Aquinas works to save and purify the thought of the Greeks and the Arabs in the higher light of Christian Revelation, confident that all that had been rational in the ancient philosophers and their followers would become more rational within Christianity. Book 1 of the Summa deals with God; Book 2, Creation; and Book 4, Salvation.

How can we present the truth about Jesus to a world that rejects all truth claims as arbitrary? Can we find way to engage in meaningful conversation without appearing arrogant or manipulative? Can we witness to the gospel without simply enlisting in the ongoing culture wars? Curtis Chang has

found a unique way to address these pressing questions of our age. He argues that similar challenges confronted Christians at two key moments in church history and stimulated creative responses by two monumental thinkers. Augustine (AD 413) faced a fragmenting society where pagans accused Christians of causing the mounting social ills afflicting Rome. Thomas Aquinas (AD 1259) pondered the disorienting Muslim challenge that provoked most medieval Christians to crusade rather than converse. Through a careful study of Augustine's City of God and Aquinas's Summa Contra Gentiles, Chang argues that both followed a brilliant rhetorical strategy for engaging unbelief. Such a captivating strategy is critical in our cultural context where Christian witness seems as difficult as ever. Connecting these ancient writers to the contemporary analysis of thinkers like Alasdair MacIntyre, James Davison Hunter, Lesslie Newbigin, and Stanley Hauerwas, Chang puts forth his own bold recommendations for Christian rhetoric in the twenty-first century. This book will be of vital interest to a wide audience. Scholars will find a fresh reading of these important texts. Pastors and teachers of evangelism and apologetics will discover crucial resources from our Christian past. And all Christians seeking a faithful strategy for communicating the gospel will receive inspiration and hope for today.

The Summa Contra Gentiles is the second of Thomas Aquinas's three great theological syntheses, written after his Commentary on the Sentences of Peter Lombard and before his Summa Theologiae. The Summa Contra Gentiles is commonly thought to be composed with a missionary intention, possibly for the use of Thomas's brethren in their work of explaining the faith to non-Christians, especially Muslims in Spain. This volume contains the third and fourth books of the Summa Contra Gentiles. Book 3 treats of God's providence over all of creation from the perspective of what can be known on the basis of human reason. Book 4 treats of matters of faith surpassing human reason: the Trinity of Persons in God, the Incarnation of the Divine Word, the Work of Salvation, and the Last Things.

The Summa Contra Gentiles is not merely the only complete summary of Christian doctrine that St. Thomas has written, but also a creative and even revolutionary work of Christian apologetics composed at the precise moment when Christian thought needed to be intellectually creative in order to master and assimilate the intelligence and wisdom of the Greeks and the Arabs. In the

Summa Aquinas works to save and purify the thought of the Greeks and the Arabs in the higher light of Christian Revelation, confident that all that had been rational in the ancient philosophers and their followers would become more rational within Christianity. This exposition and defense of divine truth has two main parts: the consideration of that truth that faith professes and reason investigates, and the consideration of the truth that faith professes and reason is not competent to investigate. The exposition of truths accessible to natural reason occupies Aquinas in the first three books of the Summa. His method is to bring forward demonstrative and probable arguments, some of which are drawn from the philosophers, to convince the skeptic. In the fourth book of the Summa St. Thomas appeals to the authority of the Sacred Scripture for those divine truths that surpass the capacity of reason. The present volume studies God's existence, nature, and substance, and especially his perfect actuality, the autonomy of his knowledge, the independence of his will, the perfection of his life, and the generosity of his love. Book 2 of the Summa deals with Creation; Book 3, Providence; and Book 4, Salvation.

Norman Kretzmann expounds and criticizes Aquinas's theology of creation, which is natural' (or philosophical) in that Aquinas developed it without depending on the data of Scripture. Because of the special importance of intellective creatures like us, Aquinas's account of the divine origin and organization of the universe includes essential ingredients of his philosophy of mind. The Metaphysics of Creation is a continuation of the project Kretzmann began in The Metaphysics of Theism; as before, he not only explains Aquinas's natural theology, but advocates it as the best available to us.

[The Summa Contra Gentiles of Saint Thomas Aquinas; Volume 1](#) Nabu Press

The Summa Contra Gentiles, one of Aquinas's best known works after the Summa Theologiae, is a philosophical and theological synthesis that examines what can be known of God both by reason and by divine revelation. A detailed expository account of and commentary on this famous work, Davies's book aims to help readers think about the value of the Summa Contra Gentiles (SCG) for themselves, relating the contents and teachings found in the SCG to those of other works and other thinkers both theological and philosophical. Following a scholarly account of Aquinas's life and his likely intentions in writing the SCG, the volume works systematically through all four books of the text.
