HUFFMAN OSBORN

Winter Boydell Press
In this gripping prelude to the "Game, Set, Match" trilogy, spies aren't born--they're made. "Winter" tells the tale of a Berlin family divided. Two brothers, Peter and Paul Winter, came of age during the Great War; then as Hitler's power spreads through Germany threatening a new era of violence, the brothers are driven apart by differing morals and ambitions. Meticulously researched, this allegory of a nation at odds with itself paints a brilliant portrait of the German zeitgeist during those turbulent years, and provides a powerful

depiction of the rise of the Third Reich.

Queen of Spies

Createspace Independent Publishing Platform
After being uneasy allies in World War II, the 1950s saw the United States and the Soviet Union entering the Cold War, a thirty-year conflict in which the adversaries never went into physical battle with each other but fought many proxy wars in other nations. This gripping and fast-paced book traces the Cold War through the lens of spying and code breaking by showing how advances in computer technology and mathematics kept the technology race every bit as nerve-racking as the arms race that characterized the conflict. Winter of Spies Simon and Schuster

NOW A MINISERIES ON BBC AMERICA STARRING DAVID TENNANT An autumn evening in 1937. A German engineer arrives at the Warsaw railway station. Tonight, he will be with his Polish mistress; tomorrow, at a workers' bar in the city's factory district, he will meet with the military attaché from the French embassy. Information will be exchanged for money. So begins *The Spies of Warsaw*, the brilliant new novel by Alan Furst, lauded by *The New York Times* as "America's preeminent spy novelist." War is coming to Europe. French and German intelligence operatives are locked in a life-and-death struggle on the espionage battlefield. At the French embassy, the new military attaché, Colonel Jean-

Francois Mercier, a decorated hero of the 1914 war, is drawn into a world of abduction, betrayal, and intrigue in the diplomatic salons and back alleys of Warsaw. At the same time, the handsome aristocrat finds himself in a passionate love affair with a Parisian woman of Polish heritage, a lawyer for the League of Nations. Colonel Mercier must work in the shadows, amid an extraordinary cast of venal and dangerous characters—Colonel Anton Vyborg of Polish military intelligence; the mysterious and sophisticated Dr. Lapp, senior German Abwehr officer in Warsaw; Malka and Viktor Rozen, at work for the Russian secret service; and Mercier's brutal and vindictive opponent, Major August Voss of SS counterintelligence. And there are many more, some known to Mercier as spies, some never to be revealed. The Houston Chronicle has described Furst as "the greatest living writer of espionage fiction." *The Spies of Warsaw* is his finest novel to date—the history precise, the writing evocative and powerful, more a novel about spies than a spy novel, exciting,

atmospheric, erotic, and impossible to put down. "As close to heaven as popular fiction can get." –Los Angeles Times, about *The Foreign Correspondent* "What gleams on the surface in Furst's books is his vivid, precise evocation of mood, time, place, a letter-perfect re-creation of the quotidian details of World War II Europe that wraps around us like the rich fug of a wartime railway station." –Time "A rich, deeply moving novel of suspense that is equal parts espionage thriller, European history and love story." –Herbert Mitgang, *The New York Times*, about *Dark Star* "Some books you read. Others you live. They seep into your dreams and haunt your waking hours until eventually they seem the stuff of memory and experience. Such are the novels of Alan Furst, who uses the shadowy world of espionage to illuminate history and politics with immediacy." –Nancy Pate, *Orlando Sentinel*

 Lulu.com
 Brimming with interesting facts and surprising anecdotes, this scientific and cultural history opens our eyes to the wonders of one of nature's most delicate, delightful, and

deadly phenomena: SNOW! Perfect for fans of *The Hidden Life of Trees* and *Rain*. Go on an extraordinary journey across centuries and continents to experience the wonders of snow; from the prehistoric humans that trekked and even skied across it tens of thousands of years ago to the multi-billion-dollar industry behind our moving, making, and playing with snow. Blending accessible writing with fascinating science, Giles Whittell explores how snow dictates where we live, provides us with drinking water, and has influenced countless works of art and more. Whittell also uncovers compelling mysteries of this miraculous substance, such as why avalanches happen, how snow saved a British prime minister's life, where the legend of the yeti comes from, and the terrifying truth behind the opening ceremony of the 1960 winter Olympics. Filled with in-depth research and whip-smart prose, *Snow* is an eye-opening and charming book that illuminates one of the most magnificent wonders of nature.
The Quiet Americans
 Grand Central Publishing
 During the Second World

War, the German Intelligence Service infiltrated specially-trained agents into Iceland to collect military, naval, aviation and meteorological intelligence to be transmitted back to Hamburg by wireless or secret writing. Some agents managed to evade capture for a few weeks but most handed themselves into the authorities shortly after landing. Sent to London for interrogation by MI5, rather than be executed as enemy spies, they revealed their life stories and provided details of their training, their instructors and how they were infiltrated. They included Olev Saetrang, Ib Riis, Sigurjon Jonsson, Jens Palsson, Peter Thomsen aka Jens Fridriksson, Larus Thorsteinsson, Einar Sigvaldason, Magnus Gudbjornsson, Sverrir Matthiasson, Ernst Fresenius, Sigurdur Juliusson, Hjalti Bjornsson and Gudbrandur Hlidar. Three of these spies were 'turned', used as double agents to transmit British-inspired messages to deceive the Germans about Arctic convoys and a fake Allied invasion of Norway.

The Patriot Spy Penguin

Robert Philip Hansen thought he was smarter than the system. For decades, the quirky but respected counterintelligence expert, religious family man, and father of six, sold top secret information to agents of the Soviet Union and Russia. A self-taught computer expert, Hansen often encrypted his stolen files on wafer-thin disks. The data-some 6000 pages of highly classified documents-revealed precious nuclear secrets, outlined American espionage initiatives, and named names of agents-spies who covertly worked for both sides. Soviet government leaders, and their successors in the Russian Federation, used the stolen information to undermine U.S. policies and to eliminate spies in their own ranks. Moscow did not allow their moles the luxury of a defense: at least two men named by Hanssen were executed; a third languished for years in a Siberian hard labor camp. For more than twenty years, Bob Hanssen was the perfect spy. He personally collected at least \$600,000 from his Russian handlers while another \$800,000 was deposited in his name at a

Moscow bank. Along with the cash came Rolex watches and cut diamonds. The money financed both his children's education at schools run by the elite and ultra-conservative Catholic organization, Opus Dei, and an inexplicably strange fling with a former Ohio "stripper of the year." But he didn't just do it for the money; he did it for the thrill and for a mysterious third reason rooted in religious mysticism. He lacked the people skills to play office politics, and it seemed the aging FBI analyst faced a disappointing career mired in middle management. Instead, he chose to become one of the most dangerous spies in America's history. And no one suspected him until just weeks before his arrest. Robert Philip Hanssen thought he was smarter than the system. And until February 18, 2001, he was right. That's when federal agents surrounded him while he was attempting to complete an exchange with his handlers at a Virginia park. When the G-men captured their mark, they catapulted the once innocuous bureaucrat onto the front pages of every newspaper in

America. The most notorious spy since the Rosenbergs had finally become a victim of his own undoing. Now, drawing on more than 100 interviews with Bob Hanssen's friends, colleagues, coworkers, and family members, and confidential sources, best-selling author Adrian Havill tells the entire story you haven't read as only he can. *The Spy Who Stayed Out in the Cold* tells not only how he did it, but why.

Spy Capstone

The Submarine Boys and the Spies Dodging the Sharks of the Deep by Victor G. Durham
CHAPTER I "GUESS DAY" AT SPRUCE BEACH "Has anyone sighted them yet?" "No." "What can be the matter?" "You know, their specialty is going to the bottom. Possibly they've gone there once too often." "Don't!" shuddered a young woman. "Try not to be gruesome always, George." The young man laughed as he turned aside. Everyone and his friend at Spruce Beach was asking similar questions. None of the answers were satisfactory, because nobody knew just what reply to make. Everyone in the North who has the

money and leisure to get away from home during a portion of the winter knows Spruce Beach. It is one of nature's most beautiful spots on the eastern coast of Florida, and man has made it one of the most expensive places in the world. We are delighted to publish this classic book as part of our extensive Classic Library collection. Many of the books in our collection have been out of print for decades, and therefore have not been accessible to the general public. The aim of our publishing program is to facilitate rapid access to this vast reservoir of literature, and our view is that this is a significant literary work, which deserves to be brought back into print after many decades. The contents of the vast majority of titles in the Classic Library have been scanned from the original works. To ensure a high quality product, each title has been meticulously hand curated by our staff. Our philosophy has been guided by a desire to provide the reader with a book that is as close as possible to ownership of the original work. We hope that you will enjoy this wonderful classic work, and that for you it becomes an enriching

experience.

Spy Dust The O'Brien Press

NATIONAL BESTSELLER • A Washington Post Notable Book of the Year • Drawing on previously classified CIA documents and on interviews with firsthand participants, *The Billion Dollar Spy* is a brilliant feat of reporting and a riveting true story of intrigue in the final years of the Cold War. It was the height of the Cold War, and a dangerous time to be stationed in the Soviet Union. One evening, while the chief of the CIA's Moscow station was filling his gas tank, a stranger approached and dropped a note into the car. The chief, suspicious of a KGB trap, ignored the overture. But the man had made up his mind. His attempts to establish contact with the CIA would be rebuffed four times before he thrust upon them an envelope whose contents would stun U.S. intelligence. In the years that followed, that man, Adolf Tolkachev, became one of the most valuable spies ever for the U.S. But these activities posed an enormous personal threat to Tolkachev and his American handlers. They had clandestine meetings in parks and on street

corners, and used spy cameras, props, and private codes, eluding the ever-present KGB in its own backyard—until a shocking betrayal put them all at risk.

Studies Intelligence Crown

One of the Irish Times' Books of the Year, 2008 Rebellion, partition and a messy peace settlement ensured that Ireland was a constant thorn in Britain's side after 1916. Britain was confronted by the bombs and bullets of militant republicans, the clandestine intrigues of foreign powers and the strategic dangers of Ireland's wartime neutrality - a final, irrevocable step in the country's difficult transition to independence. Using newly-opened archives, this book reveals for the first time how the British intelligence system responded to these threats. It lifts the lid on the underground activities of Britain's secret agencies - MI5, MI6/SIS and the Special Branch. It puts secret intelligence in the context of the government's other sources of information and explores how deep-rooted cultural stereotypes distorted intelligence and shaped perceptions. And it shows

how, for decades, British intelligence struggled to cope with Ireland but then rose to the challenge after 1940, largely because the Dublin government began to share its secrets. The author casts light on characters long kept in the shadows - IRA gunrunners, Bolshevik agitators, Nazi agents, Irish loyalists who acted as British spies. His compelling book fills a gap in the history of the British intelligence community and helps explain the twists and turns of Anglo-Irish relations during a time of momentous change. First volume in an exciting new series, the History of British Intelligence. PAUL MCMAHON gained his PhD from Cambridge University.

Winter Work Crown

When the Cold War ended, the spying that marked the era did not. An incredible true story from the Pulitzer Prize-nominated New York Times bestselling author of Crazy. Between 1995 and 2000, "Comrade J" was the go-to man for SVR (the successor to the KGB) intelligence in New York City, overseeing all covert operations against the U.S. and its allies in the United Nations. He personally handled every

intelligence officer in New York. He knew the names of foreign diplomats spying for Russia. He was the man who kept the secrets. But there was one more secret he was keeping. For three years, "Comrade J" was working for U.S. intelligence, stealing secrets from the Russian Mission he was supposed to be serving. Since he defected, his role as a spy for the U.S. was kept under wraps-until now. This is the gripping, untold story of Sergei Tretyakov, more commonly known as "Comrade J."

The Spy and the Traitor

In 1920 Dublin, eleven-year-old Sarah Conway learns that Ireland's struggle for independence, led by Michael Collins, is waged not only with guns but also with spies, lies, and secrets.

Blades of Winter Atria

Books

John le Carré and the Cold War explores the historical contexts and political implications of le Carré's major Cold-War novels. The first in-depth study of le Carré this century, this book analyses his work in light of key topics in 20th-century history, including

containment of Communism, decolonization, the Berlin Wall, the Cuban missile crisis, the Cambridge spying, the Vietnam War, the 70s oil crisis and Thatcherism. Examining *The Spy Who Came in from the Cold* (1963), *Tinker Tailor Soldier Spy* (1974), *Smiley's People* (1979) and other novels, this book offers an illuminating picture of Cold-War Britain, while situating Le Carré's work alongside that of George Orwell, Graham Greene and Ian Fleming. Providing a valuable contribution to contemporary understandings of both British spy fiction and post-war fiction, Toby Manning challenges the critical consensus to reveal a considerably less radical writer than is conventionally presented. [Winter of Spies](#) Oni Press

THE DRAMATIC EVENTS BEHIND THE FILM BRIDGE OF SPIES. 'Riveting, meticulously researched and beautifully written, *Bridge of Spies* unlocks one of the most fascinating espionage mysteries of the Cold War' - Ben Macintyre, author of *Agent Zigzag* and *SAS Rogue Heroes* *Bridge of Spies* is a gripping, entertaining, hair-raising and comical story, which

moves effortlessly from the hardware of high-flying planes and new missiles to the geopolitics of the nuclear stand-off and through the poignant personal stories of its central protagonists: Powers, the all-American hero, blacklisted for not having killed himself on his descent to earth; a KGB spy who has spent aimless and lonely years achieving nothing in the US; and the opposing leaders Khrushchev and Eisenhower, both trapped in a spiral of confrontation neither wants. Telling the true story that inspired Le Carré's famous scene, *Bridge of Spies* is a brilliant take on the absurdity and heroism of the Cold War days that will appeal to a new generation of readers unfamiliar with the history but drawn in by the compelling and vividly recreated narrative.

A Winter of Spies Del Rey
 Recounts the extraordinary and thrilling story of the British spies in revolutionary Russia, led by Mansfield Cumming, who would one day pioneer the field of covert action and become MI6, and their mission to foil Lenin's plot for global revolution. 40,000 first printing.

The Winter Spy

Cavendish Square Publishing, LLC
 Epic prelude to the classic spy trilogy, *GAME, SET* and *MATCH*, that follows the fortunes of a German dynasty during two world wars.

[Agent Sonya](#) Abrams

Only four men survived the plane crash. The pilot. A politician. A cop... and the criminal he was shackled to. On an icy night in October 1984, a commuter plane carrying nine passengers crashed in the remote wilderness of northern Alberta, killing six people. Four survived: the rookie pilot, a prominent politician, a cop, and the criminal he was escorting to face charges. Despite the poor weather, Erik Vogel, the 24-year-old pilot, was under intense pressure to fly. Larry Shaben, the author's father and Canada's first Muslim Cabinet Minister, was commuting home after a busy week at the Alberta Legislature. Constable Scott Deschamps was escorting Paul Archambault, a drifter wanted on an outstanding warrant. Against regulations, Archambault's handcuffs were removed-a decision that would profoundly impact the men's survival.

As the men fight through the night to stay alive, the dividing lines of power, wealth, and status are erased, and each man is forced to confront the precious and limited nature of his existence. Scorpion Winter Vintage Spy tells, for the first time, the full, authoritative story of how FBI agent Robert Hanssen, code name grayday, spied for Russia for twenty-two years in what has been called the “worst intelligence disaster in U.S. history”—and how he was finally caught in an incredible gambit by U.S. intelligence. David Wise, the nation’s leading espionage writer, has called on his unique knowledge and unrivaled intelligence sources to write the definitive, inside story of how Robert Hanssen betrayed his country, and why. *Spy* at last reveals the mind and motives of a man who was a walking paradox: FBI counterspy, KGB mole, devout Catholic, obsessed pornographer who secretly televised himself and his wife having sex so that his best friend could watch, defender of family values, fantasy James Bond who took a stripper to Hong Kong and carried a machine gun in his car

trunk. Brimming with startling new details sure to make headlines, *Spy* discloses: • the previously untold story of how the FBI got the actual file on Robert Hanssen out of KGB headquarters in Moscow for \$7 million in an unprecedented operation that ended in Hanssen’s arrest. • how for three years, the FBI pursued a CIA officer, code name gray deceiver, in the mistaken belief that he was the mole they were seeking inside U.S. intelligence. The innocent officer was accused as a spy and suspended by the CIA for nearly two years. • why Hanssen spied, based on exclusive interviews with Dr. David L. Charney, the psychiatrist who met with Hanssen in his jail cell more than thirty times. Hanssen, in an extraordinary arrangement, authorized Charney to talk to the author. • the full story of Robert Hanssen’s bizarre sex life, including the hidden video camera he set up in his bedroom and how he plotted to drug his wife, Bonnie, so that his best friend could father her child. • how Hanssen and the CIA’s Aldrich Ames betrayed three Russians secretly spying for the FBI—including tophat, a Soviet

general—who were then executed by Moscow. • that after Hanssen was already working for the KGB, he directed a study of moles in the FBI when—as he alone knew—he was the mole. Robert Hanssen betrayed the FBI. He betrayed his country. He betrayed his wife. He betrayed his children. He betrayed his best friend, offering him up to the KGB. He betrayed his God. Most of all, he betrayed himself. Only David Wise could tell the astonishing, full story, and he does so, in masterly style, in *Spy*. *Code Breakers and Spies of the Cold War* Independently Published In one of the most exciting debuts in years, G. T. Almasi has fused the intricate cat-and-mouse games of a John le Carré novel with the brash style of comic book superheroes to create a kick-ass alternate history that reimagines the Cold War as a clash of spies with biological, chemical, and technological enhancements. Nineteen-year-old Alix Nico, a self-described “million-dollar murder machine,” is a rising star in ExOps, a covert-action agency that aggressively shields the United States from its three great enemies: the

Soviet Union, Greater Germany, and the Nationalist Republic of China. Rather than risk another all-out war, the four superpowers have poured their resources into creating superspies known as Levels. Alix is one of the hottest young American Levels. That's no surprise: Her dad was America's top Level before he was captured and killed eight years ago. But when an impulsive decision explodes—literally—in her face, Alix uncovers a conspiracy that pushes her to her limits and could upset the global balance of power forever. "Smart, sassy, and seriously appealing: a stunning debut."—Jeff Long, *New York Times* bestselling author of *The Descent* Look for all of G. T. Almasi's riveting Shadowstorm novels: *BLADES OF WINTER* | *HAMMER OF ANGELS* | *TALON OF SCORPIO* *The Billion Dollar Spy* Government Printing Office

"This book is truly epic. . . . The reader will probably wish there was a thousand more pages." —The Huffington Post

Picking up where *Fall of Giants*, the first novel in the extraordinary Century Trilogy, left off, *Winter of*

the World follows its five interrelated families—American, German, Russian, English, and Welsh—through a time of enormous social, political, and economic turmoil, beginning with the rise of the Third Reich, through the great dramas of World War II, and into the beginning of the long Cold War. Carla von Ulrich, born of German and English parents, finds her life engulfed by the Nazi tide until daring to commit a deed of great courage and heartbreak . . . American brothers Woody and Chuck Dewar, each with a secret, take separate paths to momentous events, one in Washington, the other in the bloody jungles of the Pacific . . . English student Lloyd Williams discovers in the crucible of the Spanish Civil War that he must fight Communism just as hard as Fascism . . . Daisy Peshkov, a driven social climber, cares only for popularity and the fast set until war transforms her life, while her cousin Volodya carves out a position in Soviet intelligence that will affect not only this war but also the war to come.

John le Carré and the Cold War Harper Collins
NEW YORK TIMES

BESTSELLER • The celebrated author of *Double Cross* and *Rogue Heroes* returns with a thrilling Americans-era tale of Oleg Gordievsky, the Russian whose secret work helped hasten the end of the Cold War. "The best true spy story I have ever read."—JOHN LE CARRÉ Named a Best Book of the Year by *The Economist* • Shortlisted for the *Bailie Giffords Prize in Nonfiction* If anyone could be considered a Russian counterpart to the infamous British double-agent Kim Philby, it was Oleg Gordievsky. The son of two KGB agents and the product of the best Soviet institutions, the savvy, sophisticated Gordievsky grew to see his nation's communism as both criminal and philistine. He took his first posting for Russian intelligence in 1968 and eventually became the Soviet Union's top man in London, but from 1973 on he was secretly working for MI6. For nearly a decade, as the Cold War reached its twilight, Gordievsky helped the West turn the tables on the KGB, exposing Russian spies and helping to foil countless intelligence plots, as the Soviet leadership grew

increasingly paranoid at the United States's nuclear first-strike capabilities and brought the world closer to the brink of war. Desperate to keep the circle of trust close, MI6 never revealed Gordievsky's name to its counterparts in the CIA, which in turn grew obsessed with figuring out the identity of Britain's obviously top-level source. Their obsession

ultimately doomed Gordievsky: the CIA officer assigned to identify him was none other than Aldrich Ames, the man who would become infamous for secretly spying for the Soviets. Unfolding the delicious three-way gamesmanship between America, Britain, and the Soviet Union, and culminating in the gripping cinematic beat-by-beat of Gordievsky's

nail-biting escape from Moscow in 1985, Ben Macintyre's latest may be his best yet. Like the greatest novels of John le Carré, it brings readers deep into a world of treachery and betrayal, where the lines bleed between the personal and the professional, and one man's hatred of communism had the power to change the future of nations.
