Real Estate Education Throughout the World: Past, Present and Future Thakur Publication Private Limited

Gone are the days when Nanda Kaul watched over her family and played the part of Vice-Chancellor's wife. Leaving her children behind in the real world, the busier world, she has chosen to spend her last years alone in the mountains in Kasauli, in a secluded bungalow called Carignano. Until one summer her great-granddaughter Raka is dispatched to Kasauli - and everything changes. Nanda is at first dismayed at this break in her preciously acquired solitude. Fiercely taciturn, Raka is, like her, quite untamed. The girl prefers the company of apricot trees and animals to her great-

grandmother's, and spends her afternoons rambling over the mountainside. But the two are more alike than they know. Throughout the hot, long summer, Nanda's old, hidden dependencies and wounds come to the surface, ending, inevitably, in tragedy. Marvellous yet restrained, *Fire on the Mountain* speaks of the past and its unshakable hold over the present.

“A galvanizing exposé” of America’s trash problem from plastic in the ocean to “wasteful packaging, bogus recycling, and flawed landfills and incinerators” (Booklist, starred review). Eat a take-out meal, buy a pair of shoes, or read a newspaper, and you’re soon faced with a bewildering amount of garbage. The United States is the planet’s number-one producer of trash. Each American throws out 4.5 pounds daily. But garbage is also a global problem. Today, the Pacific Ocean contains six times more plastic waste than zooplankton. How did we end up with this much rubbish, and where does it all go?

Journalist and filmmaker Heather Rogers

answers these questions by taking readers on a grisly and fascinating tour through the underworld of garbage. *Gone Tomorrow* excavates the history of rubbish handling from the nineteenth century to the present, pinpointing the roots of today’s waste-addicted society. With a “lively authorial voice,” Rogers draws connections between modern industrial production, consumer culture, and our throwaway lifestyle (New York Press). She also investigates the politics of recycling and the export of trash to poor countries, while offering a potent argument for change. “A clear-thinking and peppery writer, Rogers presents a galvanizing exposé of how we became the planet’s trash monsters. . . . [Gone Tomorrow] details everything that is wrong with today’s wasteful packaging, bogus recycling, and flawed landfills and incinerators. . . . Rogers exhibits black-belt precision.” —Booklist, starred review

Rhetoric and Sociolinguistics in Times of Global Crisis SBPD Publishing House
Crises often leave people in vulnerable

situations in which a moment in time can function as a turning point of a catastrophic situation for the better or worse. From another perspective, the concept of crisis signifies losing control of everyday privileges, such as that of a pandemic. Therefore, the interaction of rhetoric and sociolinguistics in times of crisis is inevitable. It is crucial to internalize how rhetoric, an effective skill from ancient times to make meaning of sociological breakthrough events, changed the course of events as well as the fate of humanity. Within the same context, research should focus on diverse disciplines to explore, investigate, and analyze the concept of “crisis” from global, sociolinguistic, and rhetorical perspectives. Rhetoric and Sociolinguistics in Times of Global Crisis explores and situates the concept of global crisis within rhetoric and sociolinguistics as well as other disciplines such as education, technology, society, language, and politics. The chapters included bridge the gap to initiate a discussion on understanding how rhetoric and sociolinguistics can create critical awareness for individuals, societies, and

learning environments during times of crisis. While highlighting concepts such as rhetorical evolution, political rhetoric, digital writing, and communications, this book is a valuable reference tool for language teachers, writing experts, communications specialists, politicians and government officials, academicians, researchers, and students working and studying in fields that include rhetoric, education, linguistics, culture, media, political science, and communications. English Indian Literature in

Translation B.A. 4th Semester - According to Minimum Uniform Syllabus Prescribed by National Education Policy 2020 Vikas Publishing House

This volume is a collection of scholarly papers that explore the complex issues concerning English Studies in the present Indian context. The discussions in this volume range from historical perspectives to classroom-specific pedagogies, from sociological and political hierarchies to the dynamics of intellectual development in the English language environment. Interrogating both policy and practice pertaining to English Studies in the context of Indian society, culture, history, literature and governance, the chapters seek to formulate contemporary perspectives to these debates and envision alternative possibilities. Since the introduction of English to India more than 2 centuries ago, the language has transmuted the very fabric of Indian society, culture, history, literature and governance. The idea of India cannot be conceived in its entirety without taking into consideration the epistemological role that English has played in its formation.

The present globalized world order has added dimensions to English Studies which are radically different from those of India's colonial and postcolonial past. It is therefore imperative that the multitudinous shades and shadows of the discipline be re-examined with inputs drawn from the present context. This volume is for scholars and researchers of English literature and language studies, linguistics, and culture studies, and others interested in exploring new paradigms of

engagement with the disciplinary formulation of English Studies in India. Fiction (Paper-II) for B.A. 5th Semester
