 From the award-winning creator of Shh! We Have a Plan comes a vibrantly colorful story about mustering the courage to try something new. Little

Crab and Very Big Crab live in a tiny rock pool near the sea. Today they're going for a dip in the big ocean. "This is going to be so great," says Little Crab, splish-splashing and squelch-squelching along, all the way to the very edge. Then comes a first glance down at the waves. WHOOSH! Maybe it's better if they don't go in? With vivid colors, bold shapes, and his trademark visual humor, Chris Haughton shows that sometimes a gentle "don't worry, I'm here" can keep tentative little crabs sidestepping ahead -- and help them discover the brilliant worlds that await when they take the plunge.

 This work provides insights into the

physical and human geography of Sardinia, the second largest Mediterranean island, with its complex, varied, changing and often hidden features. The title, "Surrounded by Water", recalls the identity of a land whose coastlines and surrounding seas have symbolically represented social, economic, political, cultural bridges or walls, meeting or colliding places, over its long and difficult history. Landscapes, seascapes and cityscapes are presented and analysed, together with other aspects, through a descriptive focus and original contributions provided by some local experts, in order to offer scholars and students across the globe a complex and

multi-dimensional view of the reality of Sardinia through the lens of its geography. Each chapter of the book offers an in-depth and concise analysis of a specific topic, through the description of its characteristics and its current variations within the territory of the island. These descriptive aspects will be complemented with insights related to the research experiences and findings provided by the authors. This book will contribute to stirring new and modern interest about Sardinia, about further regional geographic studies, and about academic, scientific and cultural exchanges, among peoples and countries with both similar and different histories,

identities, issues and hopes.

Christian Exercises in Eastern Form Truly a one-of-a-kind, how-to-do-it book, this small volume responds to a very real hunger for self-awareness and holistic living. It consists of a series of spiritual exercises for entering the contemplative state -- blending psychology, spiritual therapy, and practices from both Eastern and Western traditions. Anthony de Mello offers here an unparalleled approach to inner peace that brings the whole person to prayer -- body and soul, heart and mind, memory and imagination. In forty-seven exercises that teach things such as

awareness of physical sensations, stillness, healing of hurtful memories, and consciousness of self and world, de Mello succeeds in helping all who have ever experienced prayer as difficult, dull, or frustrating. The essential key, he notes, is to journey beyond mere thought-forms and discover satisfying new depths in prayer from the heart. This allows for a greater sense of awareness amid silence, and disposes the one who prays to untold riches, spiritual fulfillment, and ultimately, a mystical experience of God-centeredness. Drawing on Scripture, as well as insights from Eastern and Western spiritual masters, the author has a unique appeal that transcends

time, culture, and religious background. For many years a bestseller in the English language, Sadhana has now been translated into more than two dozen foreign languages. Readers the world over have eagerly received this sincere spiritual leader, who has led many toward the wealth of insight and spirit that dwells within them.

The setting for his collection of eighteen stories by Gabriele D'Annunzio (1863-1938) was the Adriatic seaport of Pescara and its hinterland in the Italian region of Abruzzo, the author depicting events and personalities from the time of his youth, but also drawing from

bygone incidents that were yet memorable in the area's folk history. Pescara may not have had the cachet of celebrated cities such as Venice or Florence, but sympathetically and wryly revealed here by the pen of one of Italy's great writers it lives and breathes with a vitality probably best compared to that of James Joyce's 'dear dirty Dublin'. Indeed Joyce, who admired D'Annunzio, may well have been inspired by the Italian's cameos of small-town life, his parade of saints, voluptuaries and reprobates, their repressions, obsessions, individual dissolutions, collective explosions of anarchy, and their aptness for bizarre behavior that extended from the catatonic to the manic.

D'Annunzio came to recognize just how exotic his native region was after he had left it for Rome, where he worked for some years as a journalist and essay writer in the employ of various literary magazines. His Abruzzo articles, and especially those in which he records examples of extraordinary devotional behavior (akin to what Mark Twain was witnessing at that time on the banks of the Ganges), became the basis of the stories in this collection. D'Annunzio was a published poet at the age of sixteen, and his verse has never been absent from the Western Canon since. Something of his painterly style, the layered brushwork of

his descriptions, the gorgeous romantic renderings of rural scenes and the moods of the sea, his celebrations of sensuality, his aesthete's fascination with all the possible bodily conditions, from the virginal-voluptuous to the decayed and moribund (he has been hailed as 'the body's poet'), will amaze and delight the reader even in the blandest and most dictionary-dependent translation. The present one is no such, however. Vladislav Zhukov is an experienced translator who has rendered works from four languages into English, including a substantial book of poetry, three volumes of short stories, and a novel (all available on Amazon.com). His

knowledge of Italian is that of someone who acquired the language while living in Italy during his youth.

Neostoicism was one of the most important intellectual movements of the sixteenth and

seventeenth centuries. It started in the Protestant Netherlands during the revolt against Catholic Spain. Very quickly it began to influence both the theory and practice of politics in many parts of Europe. It proved to be particularly useful and appropriate to the early modern militaristic states; for, on the basis of the still generally accepted humanistic values of classical antiquity, it promoted a strong central power in the state, raised above the conflicting doctrines of the theologians. Characteristically, a great part of Neostoic writing was concerned with the nationally organized military institutions of the state. Its aim was the general improvement of social discipline and

the education of the citizen to both the exercise and acceptance of bureaucracy, controlled economic life and a large army.

Lawrence Venuti, winner of a Guggenheim fellowship and the Global Humanities Translation Prize, among many other awards, has translated into English these Italian Gothic tales of obsessive love, mysterious phobias, and the hellish curse of everlasting life. In this collection of nine eerie stories, Iginio Ugo Tarchetti switches effortlessly between the macabre and the breezily comical. Set in nineteenth-century Italy, his characters court spirits and blend in with the undead: passionate romances filled with jealousy and

devotion are fueled by magic elixirs. Time becomes fluid as characters travel between centuries, chasing affairs that never quite prosper. First published by Mercury House in 1992.

How the law harms sex workers—and what they want instead Do you have to endorse prostitution in order to support sex worker rights? Should clients be criminalized, and can the police deliver justice? In *Revolting Prostitutes*, sex workers Juno Mac and Molly Smith bring a fresh perspective to questions that have long been contentious. Speaking from a

growing global sex worker rights movement, and situating their argument firmly within wider questions of migration, work, feminism, and resistance to white supremacy, they make it clear that anyone committed to working towards justice and freedom should be in support of the sex worker rights movement.

'The only thing I would

like to be able to teach is a way of looking, in other words a way of being in the world. In the end, literature cannot teach anything else.' Italo Calvino, novelist, literary critic and editor, was also a masterful letter writer whose correspondents included Umberto Eco, Primo Levi, Gore Vidal and Pier Paolo Pasolini. This collection of his extraordinary letters, the first in English, gives an illuminating insight into his work and life. They include correspondence with fellow authors, generous encouragement to young writers, responses to critics, thoughts on literary criticism and literature in general, as well as giving glimpses of Calvino's role in the antifascist Resistance,

his disenchantment with Communism and his travels to America and Cuba. Together they reveal the searching intellect, clarity and passionate commitment of a great writer at work.

Translated by Martin McLaughlin Selected with an Introduction by Michael Wood 'These letters place Calvino in the larger frame of twentieth-century Italy and provide a showcase for his refined and civil voice . . . Letters is a charming addition to the Planet Calvino - a place cluttered with sphinxes, chimeras, knights, spaceships and viscounts both cloven and whole.' Guardian

One year before his death Frank Kafka had an extraordinary experience. Having a walk through Steglitz Park, in Berlin, he found a little girl crying heartbroken. She had lost her doll. To calm her down Frank introduced himself as the Dolls's Postman, and told the little girl that the doll was away on a trip but had sent a letter for her that will be delivered by himself the following day. For three weeks Frank focused exclusively on the doll's letters that he handed on every day to the girl. Nobody has ever known who that little girl was and what happened with the letters.
