Memoirs of Mistral Palgrave Macmillan THE CLASSIC THRILLER FROM #1 NEW YORK TIMES BESTSELLING AUTHOR FREDERICK FORSYTH “The Day of the Jackal makes such comparable books such as The Manchurian Candidate and The Spy Who Came in from the Cold seem like Hardy Boy mysteries.”—The New York Times The Jackal. A tall, blond Englishman with opaque, gray eyes. A killer at the top of his profession. A man unknown to any secret service in the world. An assassin with a contract to kill the world's most heavily guarded man. One man with a rifle who can change the course of history. One man whose mission is so secretive not even his employers know his name. And as the minutes count down to the final act of execution, it seems that there is no power on earth that can stop the Jackal. The Law Verso Trade

'Memoirs of Mistral' is an autobiography written by Frédéric Mistral about his life. He was a French writer of Occitan literature and lexicographer of the Provençal form of the language. He received the Nobel Prize in Literature "in recognition of the fresh originality and true inspiration of his poetic production, which faithfully reflects the natural scenery and native spirit of his people, and, in addition, his significant work as a Provençal philologist".

The reign of Louis XII (1498-1515) has been much neglected by historians. Bernard Chevalier has recently described it as belonging to a "no man's land where neither the medievalists nor the modernists dare to penetrate." Overshadowed by the spectacular rule of his successor Francis I, Louis XII has been oddly passed over. While not in the front rank of French monarchs, Louis XII, "The Father of the People," remains an interesting and appealing figure. The events of his reign were highly significant to the future of the French state: from the unremittingly brutal Italian campaigns to Henry VIII's invasion, from Louis's disputes with the Papacy to his marriages' political complications. France's church, legal system, and cultural life (most markedly the introduction of the Renaissance) were all subject to significant change, and many of the achievements commonly associated with Francis I were in fact rooted in those of his predecessor. This is a lucid and highly readable account of a fascinating period in French history and is essential to a clear understanding of sixteenth-century France.

The Hunchback of Notre-Dame (French: Notre-Dame de Paris) is a French Romantic/Gothic novel by Victor Hugo, published in 1831. The original French title refers to Notre Dame Cathedral, on which the story is centered. English translator Frederic Shoberl named the novel The Hunchback of Notre Dame in 1833 because at the time, Gothic novels were more popular than Romance novels in England.[1] The story is set in Paris, France in the Late Middle Ages, during the reign of Louis X.

A man becomes entangled in a dangerous web of death and deceit in this “hallmark of classic French noir” set in 1960s Paris (The Guardian) Trouble is the last thing Albert needs. Traveling back to his childhood home on Christmas Eve to mourn his mother’s death, he finds the loneliness and nostalgia of his Parisian quartier unbearable. Until, that evening, he encounters a beautiful, seemingly innocent woman at a brasserie, and his spirits are lifted. Still, something about the woman disturbs him. Where is the father of her child? And what are those two red stains on her sleeve? When she invites him back to her apartment, Albert thinks he’s in luck. But a monstrous scene awaits them, and he finds himself lured into the darkness against his better judgment. Unravelling like a paranoid nightmare, *Bird in a Cage* melds existentialist drama with thrilling noir to tell the story of a man trapped in a prison of his own making. In 2014, France lost part of the control of its nuclear power plants to the United States. Frédéric Pierucci, former senior executive of one of Alstom’s power company subsidiaries, found himself at the heart of this state scandal. His story goes to the very core of how he plotted the key features of the secret economic war that the United States is waging in Europe. And after being silenced for a long time, he has
decided, with the help of journalist Matthieu Aron, to reveal all. In April 2013, Frédéric Pierucci was arrested in New York by the FBI and accused of bribery. The US authorities imprisoned him for more than two years - including fourteen months in a notorious maximum-security prison. In doing so, they forced Alstom to pay the biggest financial penalty ever imposed by the United States. In the end, Alstom also gave up areas of control to General Electric, its biggest American competitor. Frédéric's story unpacks how the United States is using corporate law as an economic weapon against its own allies. One after the other, some of the world's largest companies are being actively destabilised to the benefit of the US, in acts of economic sabotage that seem to be the beginning of what's to come...
