La famiglia dell'antiquario; ossia La Suocera e la nuora. Commedia de tre atti in prosa Cambridge University Press
 "This work takes gender as its point of entry into the comedies of Carlo Goldoni (1707-93). The dramatization of femininity and masculinity is explored in conjunction with that of other social categories (class, the family, and age). The plays reinforce the patriarchal association of femininity with the body, with spectacle, and with theatricality, while the dramatic backdrop of Venice and carnival provides a context for the staging of issues relating to identity, disguise and fashion. In the plays, pretence and theatricality vie with bourgeois Enlightenment values of morality, honesty and respectability to produce dramatic tension with distinct gender implications."

Diplomats had multiple tasks: not only negotiating with the representatives of other states, but also mediating culture and knowledge, and not least elaborating reports on their observations of politics, society, and culture. Culture, according to the studies featured in this book, is defined as a complex sphere including aspects like systems of communication, literature, music, arts, education, and the creation of knowledge. This edition containing contributions from six conferences held in Vienna and Istanbul by the Don Juan Archiv Wien focuses on the complex diplomatic and cultural relations between the Ottoman Empire and Europe from the time of the early embassies to Istanbul up to "Tanzimat".
