Women Who Love Too Much Henry Holt and Company (BYR)

This classic novel of a perfectly engineered society is “one of the most prophetic dystopian works of the twentieth century” (The Wall Street Journal). Half a millennium from now, in

the World State, the watchword is that every one belongs to every one else. No matter what class of human you are bred to be—from the intellectual Alphas to the Epsilons who provide the manual labor—you are a part of the efficient, well-oiled whole. You are nourished, secure, and blissfully serene thanks to the freely distributed drug called soma. And while sex is strongly encouraged, the old way of procreation is forbidden, eliminating even the pains of childbirth. But when a man and woman journey beyond these confines to where the “savages” reside, and bring back two outsiders, the cracks begin to show. Named as one of the 100 best English-language novels of the twentieth century by the Modern Library, *Brave New World* is one of the first truly dystopian novels.

Influenced by the historic events of Huxley's era yet as relevant today as ever, it is a remarkable depiction of the conflict between progress and the human spirit. "Chilling. . . . That he gave us the dark side of genetic engineering in 1932 is amazing." —Providence Journal-Bulletin "It is a frightening experience, indeed, to discover how much of his satirical prediction of a distant future became reality in so short a time." —The New York Times Book Review

And Tango Makes Three Parragon

For fans of portal fantasies like Jessica Townsend's *Nevermoor*, Colin Meloy's *Wildwood*, and *The Spiderwick Chronicles* by Tony DiTerlizzi and Holly Black, and unlike so many other fantasies that introduce readers to a world of enchantment and wonder, *The Midnight Hour* is one filled with beasts and monsters for readers looking to

shine their flashlights under the covers. When strange late-night letters start arriving at home, Emily's parents set off to investigate. But when her parents disappear completely and Emily is left home alone to face the weird strangers that begin to appear at her door, she takes all of the clues at her disposal and makes for the place where the letters came from -- the mysterious Night Post. What she'll discover is the secret world of the Midnight Hour -- a Victorian London frozen in time, full of magic and monsters. Kept safe by an age-old agreement, the Night Folk have been exiled to a parallel world that can only be accessed by a selected few, including the mail carriers of the infamous Night Post that operate between the two worlds. Emily's parents are key players

in keeping the Night Folk safe, but when the division of the two worlds is threatened, Emily must search for her parents while navigating this dark and unknown version of London. Armed only with a packed lunch, her very sleepy pocket hedgehog, and her infamously big argumentative mouth, she must escape bloodthirsty creatures of the night, figure out her own family secrets, and maybe just save the world. This is a frightening and enchanting story, a world built out of creatures from our worst fears who become relatable, fully formed characters unlike any we've seen as these strangers of parallel worlds band together to save the day.
