For a millenium, the Children of Amarid have served the people of Tobyn-Ser. Drawing upon the Mage-Craft, which flows from the psychic bond they forge with their avian familiars, the Mages of the Order have fulfilled their oaths by healing the injured and ill, repelling invasions by the land's enemies, and caring for the people in times of crisis. They are governed by laws handed down by Amarid, the first of their kind, who committed the Mage-Craft to the people's protection. Only once in a thousand years has a mage defied those laws. Theron, a contemporary of Amarid, sought to use his powers to gain wealth and glory. For that he was punished, though not before he brought down a terrible curse on his fellow mages and all who would come after them. Recently, dark rumors have spread across Tobyn-Ser. Children of Amarid have been seen destroying crops, vandalizing homes, massacring men, women, and children. Have the mages forsaken their oaths? Has Theron returned from beyond death to take his vengeance? Or does Tobyn-Ser face a new threat, one it is ill-prepared and ill-equipped to face? With the land in turmoil and faith in the Mage-Craft badly shaken, it falls to Jaryd, a young mage with extraordinary potential, but little knowledge of the power he wields, to find and destroy Tobyn-Ser's enemies before they destroy all he holds dear. CHILDREN OF AMARID is the first volume of the LonTobyn Chronicle, David B. Coe's Crawford Award-winning debut series. This is the Author's Edit of the original book.

The Story Behind THE LEGEND OF BAGGER VANCE If you've read his books THE WAR OF ART and TURNING PRO, you know that for thirty years Steven Pressfield (GATES OF FIRE, THE AFGHAN CAMPAIGN etc.) wrote spec novel after spec novel before any publisher took him seriously. How did he finally break through? Ignoring just about every rule of commercial book publishing, Pressfield's "first" novel not only became a major bestseller (over 250,000 copies sold), it was adapted into a feature film directed by Robert Redford and starring Matt Damon, Will Smith, and Charlize Theron. Where did he get the idea? What magical something did THE LEGEND OF BAGGER VANCE have that his previous manuscripts lacked? Why did Pressfield decide to write a novel when he already had a well established screenwriting career? How does writing a publishable novel really work? Taking a page from John Steinbeck's classic JOURNAL OF A NOVEL, Steven Pressfield offers answers for these and scores of other practical writing questions in THE AUTHENTIC SWING.

"A glorious treat awaits you at the literary table of Donia Bijan." —Adriana Trigiani Set against the backdrop of Iran's rich, turbulent history, this exquisite debut novel is a powerful story of food, family, and a bittersweet homecoming. When we first meet Noor, she is living in San Francisco, missing her beloved father, Zod, in Iran. Now, dragging her stubborn teenage daughter, Lily, with her, she returns to Tehran and to Café Leila, the restaurant her family has been running for three generations. Iran may have changed, but Café Leila, still run by Zod, has stayed blessedly the same—it is a refuge of laughter and solace for its makeshift family of staff and regulars. As Noor revisits her Persian childhood, she must rethink who she is—a mother, a daughter, a woman estranged from her marriage and from her life in California. And together, she and Lily get swept up in the beauty and brutality of Tehran. Bijan's vivid, layered story, at once tender and elegant, funny and sad, weaves together the complexities of history, domesticity, and loyalty and, best of all, transports readers to another culture, another time, and another emotional landscape.

Advances in solar technology have made many DIY-friendly products available to consumers, several of which will be hitting the market for the first time in 2011. These include solar water heaters, solar battery charging stations, solar powered lights, photovoltaic shingles that provide supplementary electricity, solar heat pumps, and solar panel kits that generate primary home electrical service. Among the step-by-step projects is a solar water heating system you can build and install yourself for under \$1000; simple thermosyphon solar heat collectors for barns and outbuildings; or "heat grabbers" that you can fabricate for \$50 in materials and position below a south-facing window to provide auxiliary winter heat.

The work of Henri Lefebvre - the only major French intellectual of the post-war period to give extensive consideration to the city and urban life - received considerable attention among both academics and practitioners of the built environment following the publication in English of *The Production of Space*. This new collection brings together, for the first time in English, Lefebvre's reflections on the city and urban life written over a span of some twenty years. The selection of writings is contextualized by an introduction - itself a significant contribution to the interpretation of Henri Lefebvre's work - which places the material within the context of Lefebvre's intellectual and political life and times and raises pertinent issues as to their relevance for contemporary debates over such questions as the nature of urban reality, the production of space and modernity. Writings on *Cities* is of particular relevance to architects, planners, geographers, and those interested in the philosophical and political understanding of contemporary life.
