### **American Machinist & Automated Manufacturing**

Featuring some of today's best woodworkers and artisans-such as Michael Hosaluk, Steven Kennard, Richard Raffin, Jacques Vesery, Bonnie Klein, and Hans Weissflog-this craftsmen's companion celebrates these modern masters and others who have taken box-making to a higher level of aesthetic form. The artist profiles include full-color, studio-quality photographs of their work along with essays that illustrate their design ideas and objectives. In addition, this collection also offers an in-depth introduction detailing

the recent history of the wooden box in woodworking and its place in contemporary crafts and instrumental pieces, such as jewelry boxes, desk boxes, reliquaries, and keepsakes.

### Hand Tools & Techniques

The Best Tool of the Millennium The seeds of Rybczynski's elegant and illuminating new book were sown by The New York Times, whose editors asked him to write an essay identifying "the best tool of the millennium." The award-winning author of *Home*, *A Clearing in the Distance*, and *Now I Sit Me Down*, Rybczynski once built a house using only hand tools. His intimate knowledge of the toolbox -- both its contents and its history -- serves him

beautifully on his quest. *One Good Turn* is a story starring Archimedes, who invented the water screw and introduced the helix, and Leonardo, who sketched a machine for carving wood screws. It is a story of mechanical discovery and genius that takes readers from ancient Greece to car design in the age of American industry. Rybczynski writes an ode to the screw, without which there would be no telescope, no microscope -- in short, no enlightenment science. One of our finest cultural and architectural historians, Rybczynski renders a graceful, original, and engaging portrait of the tool that changed the course of civilization.
