TOWNSEND HUFFMAN

Handbook of Vastu Motilal Banarsidass

The word Vastu has become synonym for the intellectual degradation of Indian mind. Vastushastra which was in oblivion for thousands of years was salvaged to lime light a few decades ago. The

Vastushastra which is descriminitive at its roots , obsolete in time and fraudulent in practice became contagious spreading from metropolitan cities to remote villages. It is very saddening that Vastushastra is thriving through the nurturing of the well educated class of India under the guise of ancient building science which was developed by great seers& sages to lead fruitful life on earth. Each and every success and failure , joys and pains of an individual are recognized through Vastu compliance of his/her house. The basic life experiences which provided the courage and inspiration to face the vagaries of one's life are condemned and taken over by Vastu compliance. In this age of science Vastushastra has devoured both literate and illiterate ,

uraban and rural population without any difference. The print and electronic media have become the vehicles of pseudoscience of Vastushastra bringing the fear that Indians may be losing their rationality. At this if juncture if we do not bring back the rationality of thinking , the life of common man will be in hands of Vastu pandits and experts mocking the intellectual maturity of Indian mind. In this book Author has shown in detail how Vastushastra is discriminitive through its interwoven Varna (caste) system in building houses and obsolete for modern living. The fraudulent way of using Vastu by conman by pseudoscientific explanations to fleece the gullible public is highlighted. The evolution of Indian temples independent of Vastuhastra , the contrast between

modern Architecture , Civil engineering are discussed in elaborate in the book.

Remedies of Domestic Vastu contains easy and practical remedies for the rectification of vastu related faults. Vastu Shastra has got a scientific and spiritual base. You must have faith in Vastu if you have faith in Vedas and the God. The members of a family will live happily if the five elements are kept well into consideration while the building of the family is under construction just as the said Mahabhootas have been used in our physical constitution. The five elements are: earth, water, fire, air and

ether. Our universe is also made of these five elements. Therefore it is said “Yatha Pind Tatha Brahmande”. The God has rendered these five elements among which B stands for Bhoomi (Earth), G for Gagan (Ether), A for Agni (Fire) and N for Neer (Water). The God is also represented by Aum (om). In Aum (om) also A stands for Agni (fire), U for Jal (Water), M for Vayu (air), crescent (half-moon) for Bhoom (earth) and dot over crescent for Akash (void). Likewise, the word Vastu has all these five elements in it in which V stands for Vayu (air), A for Agni (fire), S for Srishti i.e. Bhoomi (earth), T for Tat i.e. Akash (ether) and U for Jal (water). The soul transfuses with mind, wisdom and egotism in the body after it is formed with the combination of the said five elements. All the five

elements are represented by five planets in the following manner: Earth is represented by Mars, water by Venus, fire by Sun, air by Saturn and ether is represented by Jupiter. Mind is governed by Moon, wisdom by Mercury and egotism by Rahu. Ketu is the Karak of Moksha, the salvation. Any irregularity in the balance of these elements makes the members of the family suffer. Very often it is asked as to why the Vastu Shastra has got momentum only recently Can the Vastu faults be overcome by remedies? In this regard author says that the agonies of the man have been aggravating since he has started dwelling in multistoreyed flats as they are built like boxes where Brahmasthan is not kept open. The sun and air are not allowed in the house.

Some people keep their windows close to protect themselves whereas some do it to save their household goods from dirt. Earlier a courtyard kept open in the middle of the houses so that sun, air and celestial elements might reach the rooms. There is nothing wrong if a man seeks advice from Vastu consultant to ward off the faults existing in house like an ailing person sees a doctor to have his advice. A Vastu consultant advises renovation of a building only when it is essential and there is no way out. He is like a good doctor who advises a patient to go for a surgery when the disease with which the latter is suffering from cannot be cured by medicines or by any other means. Vastu faults can also be removed without any renovation - by changing the place of the goods in the

house and by selecting right direction for meal and slumber. They can be removed by worship of gods and deities.

Fengshui, Pyramid, Yantra - Mantra can also be chosen as helping hands in attaining happiness and prosperity. In this book apart from a brief description of Vastu, different methods of remedies have been incorporated.

 Prashnamarga, Chapter 1, Shlokas 30,

31 & 32 An astrologer who wants to excel in predictions should study the Dasadhyayi commentary of Brihajjataka with special emphasis. The scholars who have a deep understanding of the Dasadhyayi say that it would be difficult to make correct predictions without a thorough study of the Dasadhyayi. One, who tries to make predictions without looking into the Dasadhyayi, would be like a person trying to cross an ocean without a boat. For a keen reader, the words referred above from Prashnamarga about the Dasadhyayi would not appear to be an exaggeration when the hitherto unknown deeper meanings of the Brihajjataka Shlokas become revealed before the eyes. The reasons behind the celebrated status and fame of the Kerala school of Jyotisha

becomes clear when the reader goes through the ingenious way the commentator has shown the application of various Shlokas of Brihajjataka. This commentary is not a mere theoretical discourse on the Jyotisha principles. Revealing his practical approach, Sri Govinda Bhattattiri has shown the way to interconnect different Shlokas within the text of Brihajjataka and also from other treatises. Further, the efficacy of the Dasadhyayi is also proven by real-life experiences.

 After the release of Anita Rau Badami's critically acclaimed first novel, Tamarind Mem, it was evident a promising new

talent had joined the Canadian literary community. Her dazzling literary follow-up is *The Hero's Walk*, a novel teeming with the author's trademark tumble of the haphazard beauty, wreckage and folly of ordinary lives. Set in the dusty seaside town of Toturpuram on the Bay of Bengal, *The Hero's Walk* traces the terrain of family and forgiveness through the lives of an exuberant cast of characters bewildered by the rapid pace of change in today's India. Each member of the Rao family pits his or her chance at personal fulfillment against the conventions of a crumbling caste and class system. Anita Rau Badami explains that "*The Hero's Walk* is a novel about so many things: loss, disappointment, choices and the importance of coming to terms with yourself and the

circumstances of your life without losing the dignity embedded in all of us. At one level it is about heroism - not the hero of the classic epic, those enormous god-sized heroes - but my fascination with the day-to-day heroes and the heroism that's needed to survive all the unexpected disasters and pitfalls of life."

Robert Svoboda addresses Vāstu, the classical Indian art (or science) of architectural form, in a wholly unique way. Instead of presenting lists of rules and architectural injunctions to which builders and interior designers must

scrupulously adhere at all times, he sensitizes the reader to the dynamics of space, alignment, and form in ever-expanding orbits of individual life. In the process of guiding the reader through a series of meditations on the dynamics of space and alignment, Dr. Svoboda enters the realms of classical Indian medicine (Āyurveda) and astrology (Jyotiṣa), which, it turns out, are of the greatest importance to realizing Vāstu and its contours in one's life. Dr. Svoboda allows readers and home builders to understand the complex dynamics of individual, terrestrial, and celestial energetic systems. This leads to a greater awareness of the nature of space and its application to house construction, interior spaces, gardens, one's relationship with the land, and,

consequently, one's relationship with oneself.

Studies on architecture in South Asia continue to ignore women in canonical histories of the discipline. This book attempts to recover the stories of the women architects whose careers nearly parallel the development of modernism in colonial and postcolonial India. Writing their experiences into the narrative of mainstream architectural history within the challenge of non-existent archives, it sheds light on seven pioneering women who broke male bastions to go beyond the traditional confines of the era from the 1940s onwards. The author also

examines 28 contemporary practices to demonstrate the ways in which architectural modernism in India was shaped by the contribution of women. The book uses a format that weaves together social, professional and biographical factors into a productive account; pluralizes various concepts of design; and redefines the idea of 'work' of women through a greater range of activities, including pedagogy, mentoring and activism. Alluding to challenges faced by women, the study celebrates practices in diverse regional settings even as the designers move in transnational contexts in an increasingly globalizing India. Extensively illustrated, featuring drawings and photographs, this book will be a milestone in the modernist narrative of South Asia and will be of

interest to scholars and researchers of architecture, gender studies, modern Indian history and sociology.

Notwithstanding this sloganeering, what we find in real life is often quite

opposite. The author Kunal Ghosh, connotes on two North-East regions, Tripura and the BAC (Bodo Autonomous Council) area in Assam where a mixture of religion and politics has produced an explosive situation. Sahasra Mahavaastu tries to evolve a system of Vaastushastra that is concurrent with tradition and does not contain any false, pseudo and use of silly

practices that mislead its followers. Vaastu, Yoga, Jyotish (astrology), Sangeet (music) and Ayurveda (ancient Indian medicine) are five sub-branches of oriental science. In modern science the subject of dynamics is explained on the basis of three terms -- rhythm, synchronicity and frequency. This book discusses these as well as the divinesubject of Vaastushastra with the tools of planet-element-deity-direction-energy. The purpose of this book is to alert followers to protect themselves by

avoiding false and pseudo practices that are prevalent in the present times. An attempt has been made to make this book a guide so that even a common man will be able to apply the basic remedial measures to protect the self. The author attempts to present Sahasra Mahavaastu as a revolutionary movement in the field of Vaastushastra, to propagate an ancient oriental thought in a modern language of the present world.
