Physics for the Anaesthetic Viva is a succinct and practical text that comprehensively covers all aspects of the physics and clinical measurement curriculum for the FRCA examinations. Each section begins by explaining the basic science concepts, which are then expanded and related to everyday practice. Illustrations are used to enhance understanding of the concepts, and are presented in such a way as to be easy to reproduce in the exam setting. In addition, sample viva questions are provided at the end of each chapter to test learning, or for use in a mock viva session. Written by trainees for trainees, this book provides exactly what you need to pass the exam.

I always think about this day. I've imagined this day, a million times in my head, on what I'll say and what I'll do, when every step I take leads to a failure. and every time I think about it I try not to remember the details and start hoping for a better outcome of an eminent situation.. I was a typical urban city kid to whom life was enjoyable but never easy, Asif was a rich playboy material, Bharat a guy who never tasted success.. And she was the mystery girl who breathe the life in me. The world is not perfect. everyone's life is broken, in one way or the other. but you will find something good for you they say, but what will you do when life strikes you down whenever you try to get back up?? Will you let it all go and let life take its toll or will you try again and hope for a better result.. The hope is there the sun is always there on the horizon or is it?? its just not meant for some as life doesn't have a fairytale ending.
