Although readers of detective fiction ordinarily expect to learn the mystery's solution at the end, there is another kind of detective story—the history of which encompasses writers as diverse as Poe, Borges, Robbe-Grillet, Auster, and Stephen King—that ends with a question rather than an answer. The detective not only fails to solve the crime, but also confronts insoluble mysteries of interpretation and identity. As the contributors to *Detecting Texts* contend, such stories belong to a distinct genre, the "metaphysical detective story," in which the detective hero's inability to interpret the mystery inevitably casts doubt on the reader's similar attempt to make sense of the text and the world. *Detecting Texts* includes an introduction by the editors that defines the metaphysical detective story and traces its history from Poe's classic tales to today's postmodernist experiments. In addition to the editors, contributors include Stephen Bernstein, Joel Black, John T. Irwin, Jeffrey T. Nealon, and others.

The participation of the Iroquois of Akwasasne, Kanasetake (Oka), Kahnawake and Oswegatchie in the Seven Years' War is a long neglected topic. The consequences of this struggle still shape Canadian history. The book looks at the social and economic impact of the war on both men and women in Canadian Iroquois

communities. The Canadian Iroquois provides an enhanced appreciation both of the role of Amerindians in the war itself and of their difficult struggle to lead their lives within the unstable geopolitical environment created by European invasion and settlement.
