 Ressentiment—the hateful desire for revenge—plays a pivotal role in Nietzsche's *On the Genealogy of Morals*. Ressentiment explains the formation of bad conscience, guilt, asceticism, and, most importantly, it motivates the "slave revolt" that gives rise to Western morality's values. Ressentiment, however, has not enjoyed a thorough treatment in the secondary literature. This book brings it sharply into focus and

provides the first detailed examination of Nietzsche's psychology of resentment. Unlike other books on the *Genealogy*, it uses resentment as a key to the *Genealogy* and focuses on the intriguing relationship between resentment and justice. It shows how resentment, despite its blindness to justice, gives rise to moral justice—the central target of Nietzsche's critique. This critique notwithstanding, the *Genealogy* shows Nietzsche's enduring commitment to the virtue of non-moral justice: a commitment that grounds his provocative view that moral justice spells the 'end of justice'. The result provides a novel view of Nietzsche's

moral psychology in the Genealogy, his critique of morality, and his views on justice.
